Policy Information

This declarations package identifies the coverage part and schedules that control item-level coverage, rating, forms, and premium.

PRODUCER	CODE
Lumen Field Brokerage	PX-61844

Coverage Part

Coverage applies only as shown in the attached declarations, schedules, forms, and endorsements.

Audit and Rating

Premium may be subject to audit, rating basis verification, or payroll/exposure adjustment.

Forms

Attached endorsements can amend limits, exclusions, covered locations, or scheduled parties.

PREMIUM AUDIT AND ACCOUNTING CONDITIONS

BILLING policy form

Policy No. LG695378

ITEM CGL-0002	CLASS / TERRITORY 41670 / 007
EXPOSURE Gross sales 107,692	LIMIT General Aggregate: \$2,000,000
PREMIUM \$5,546	FORM CG 20 10 04 13

COVERAGE PART CONDITIONS

This page applies to classification 41670 at Location 2 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 41670 at Location 2 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 41670 at Location 2 with gross sales of 107,692; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

EXPOSURE Cost of work 115,531	LIMIT Products-Completed Operations Aggregate: \$2,000,000
PREMIUM \$2,830	FORM CG 20 37 12 19

COVERAGE PART CONDITIONS

This page applies to classification 16916 at Location 3 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 16916 at Location 3 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

PREMIUM \$18,387	FORM CG 24 26 01 24

COVERAGE PART CONDITIONS

This page applies to classification 97047 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 97047 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 97047 at Location 1 with area of 247,147; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

PREMIUM \$9,982	FORM CG 21 06 04 13

COVERAGE PART CONDITIONS

This page applies to classification 10010 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 10010 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 10010 at Location 1 with gross sales of 407,435; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

EXPOSURE Area 563,528	LIMIT Each Occurrence: \$1,000,000
PREMIUM \$6,311	FORM CG 20 10 01 24

COVERAGE PART CONDITIONS

This page applies to classification 97047 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 97047 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 97047 at Location 1 with area of 563,528; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

ITEM CGL-0049	CLASS / TERRITORY 10010 / 001
EXPOSURE Gross sales 727,508	LIMIT Each Occurrence: \$1,000,000
PREMIUM \$13,386	FORM CG 24 04 01 24

COVERAGE PART CONDITIONS

This page applies to classification 10010 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 10010 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 10010 at Location 1 with gross sales of 727,508; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

AMENDATORY policy form

Policy No. LG695378

ITEM CGL-0060	CLASS / TERRITORY 91560 / 001
EXPOSURE Payroll 878,612	LIMIT Medical Expense: \$5,000
PREMIUM \$45,248	FORM CG 21 06 01 24

COVERAGE PART CONDITIONS

This page applies to classification 91560 at Location 6 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 91560 at Location 6 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 91560 at Location 6 with payroll of 878,612; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

PREMIUM \$35,028	FORM CG 21 67 09 21

COVERAGE PART CONDITIONS

This page applies to classification 97047 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 97047 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 97047 at Location 1 with area of 893,595; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 61217 at Location 2 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 61217 at Location 2 with area of 901,995; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 41670 at Location 2 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 41670 at Location 2 with gross sales of 107,692; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

This page applies to classification 61217 at Location 2 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 61217 at Location 2 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 61217 at Location 2 with area of 260,842; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

PREMIUM \$10,134	FORM CG 21 67 01 24

COVERAGE PART CONDITIONS

This page applies to classification 41670 at Location 2 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 41670 at Location 2 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 41670 at Location 2 with gross sales of 413,671; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

ITEM CGL-0036	CLASS / TERRITORY 91560 / 003
EXPOSURE Payroll 560,644	LIMIT Medical Expense: \$5,000
PREMIUM \$6,279	FORM CG 00 01 09 21

COVERAGE PART CONDITIONS

This page applies to classification 91560 at Location 6 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 91560 at Location 6 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 91560 at Location 6 with payroll of 560,644; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

ITEM CGL-0048	CLASS / TERRITORY 47103 / 001
EXPOSURE Payroll 719,403	LIMIT Medical Expense: \$5,000
PREMIUM \$17,625	FORM CG 24 26 09 21

COVERAGE PART CONDITIONS

This page applies to classification 47103 at Location 6 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 47103 at Location 6 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 47103 at Location 6 with payroll of 719,403; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

The declarations identify class code 16916 at Location 5 with cost of work of 858,689; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

EXPOSURE Payroll 878,612	LIMIT Medical Expense: \$5,000
PREMIUM \$45,248	FORM CG 21 06 01 24

COVERAGE PART CONDITIONS

This page applies to classification 91560 at Location 6 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 91560 at Location 6 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 91560 at Location 6 with payroll of 878,612; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 18435 at Location 5 with gross sales of 1,025,901; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

COVERAGE PART CONDITIONS

This page applies to classification 10010 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 10010 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 10010 at Location 1 with gross sales of 87,042; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 41670 at Location 6 with gross sales of 312,398; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

COVERAGE PART CONDITIONS

This page applies to classification 91560 at Location 2 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 91560 at Location 2 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

SECTION A - SCHEDULE REFERENCES

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

The declarations identify class code 91560 at Location 2 with payroll of 334,353; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

The declarations identify class code 91560 at Location 6 with payroll of 560,644; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

COVERAGE PART CONDITIONS

This page applies to classification 61217 at Location 2 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 61217 at Location 2 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 61217 at Location 2 with area of 591,086; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

COVERAGE PART CONDITIONS

This page applies to classification 47103 at Location 2 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 47103 at Location 2 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 47103 at Location 2 with payroll of 830,757; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

ITEM CGL-0001	CLASS / TERRITORY 10010 / 003
EXPOSURE Gross sales 87,042	LIMIT Each Occurrence: \$1,000,000
PREMIUM \$3,412	FORM CG 00 01 01 24

COVERAGE PART CONDITIONS

This page applies to classification 10010 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 10010 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 10010 at Location 1 with gross sales of 87,042; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

The declarations identify class code 91560 at Location 6 with payroll of 235,736; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

ITEM CGL-0013	CLASS / TERRITORY 97047 / 001
EXPOSURE Area 247,147	LIMIT Each Occurrence: \$1,000,000
PREMIUM \$18,387	FORM CG 24 26 01 24

COVERAGE PART CONDITIONS

This page applies to classification 97047 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 97047 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 97047 at Location 1 with area of 247,147; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 47103 at Location 6 with payroll of 397,991; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.

When more than one scheduled operation could apply to a claim, the most specific applicable form and endorsement must be read with the declarations.

ITEM CGL-0025	CLASS / TERRITORY 10010 / 007
EXPOSURE Gross sales 407,435	LIMIT Each Occurrence: \$1,000,000
PREMIUM \$9,982	FORM CG 21 06 04 13

COVERAGE PART CONDITIONS

This page applies to classification 10010 at Location 1 as shown in the declarations, classification schedule, and exposure rating schedule.

Classification, territory, and exposure entries are rating information and do not create coverage by themselves.

Limits, exclusions, additional insured status, and completed-operations terms are controlled by the applicable forms and endorsements.

Records supporting sales, payroll, area, contracts, leases, or operations must be retained for audit and coverage review.

Any endorsement listed for a scheduled item applies according to its own terms and effective date.

References to classification, territory, and exposure basis include class code 10010 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

When a class code appears on multiple schedules, the item identifier, location, form number, and effective date should be used to read the entries together.

SECTION A - SCHEDULE REFERENCES

The declarations identify class code 10010 at Location 1 with gross sales of 407,435; that entry is used for rating and schedule reference purposes.

Coverage applies only as provided by the applicable coverage form, limits schedule, exclusion endorsements, and any additional-insured endorsement attached to the policy.

A location, project, classification, or exposure entry does not create coverage for operations that are otherwise excluded or outside the policy territory.

SECTION B - LIMITS AND AGGREGATES

The each occurrence, damage to premises rented to you, medical expense, personal and advertising injury, products-completed operations, and general aggregate limits apply as stated in the declarations.

A sublimit, deductible, self-insured retention, or endorsement limit is part of the applicable limit and does not increase that limit.
