BUSINESS PERSONAL PROPERTY PROVISIONS

Protection is established for the inventory, equipment, and furnishings located at Location 002, Building 001. This encompasses items owned by the insured and utilized primarily for the business operations described in the classification schedules. Tenant's improvements and betterments are also included if the insured does not own the building.

Property of others that is in the insured's care, custody, or control is incorporated into this section. Our financial obligation for such property is limited to the extent of the insured's legal liability for the items, plus any contractual obligations assumed prior to the incident.

The protection extends to business personal property located in or on the described building, or in the open within 100 feet of the premises. Property situated beyond this perimeter is considered off-premises and is subject to separate, lower sublimits detailed in the extensions section.

VALUATION FOR THE ITEMS AT THIS LOCATION IS BASED ON REPLACEMENT COST. WE WILL DETERMINE THE COST TO REPLACE THE PROPERTY WITH NEW ITEMS OF COMPARABLE MATERIAL AND QUALITY, USED FOR THE SAME PURPOSE. ANTIQUE OR RARE ITEMS ARE NOT VALUED AT MARKET PRICE UNLESS SPECIFICALLY SCHEDULED.

A deductible of \$5,000 must be absorbed by the insured before any settlement funds are released. This retention is applied per occurrence, regardless of the number of individual items affected. The deductible ensures that minor, routine losses are managed directly by the policyholder.

The scheduled limit of \$75,000 serves as the maximum financial recovery available for the business personal property at this specific premises. Fluctuations in inventory levels throughout the year do not alter this static limit unless a peak season endorsement is active.

A 90% coinsurance provision governs this coverage. The insured is obligated to carry a limit that represents at least 90% of the total replacement value of all business personal property at the location. Deficiencies in this ratio will trigger a proportional settlement penalty.

We exclude reimbursement for missing property where the only proof of loss is an unexplained or mysterious disappearance. Inventory shortages discovered solely during routine physical counts are similarly excluded, as they lack a definitive qualifying destructive event.

Property undergoing processing or manufacturing is not protected against damage resulting directly from those operations. For example, materials ruined due to a flaw in the production machinery or human error during assembly are excluded from this coverage.

The insured must maintain accurate records of inventory, purchases, and sales. In the event of a claim, these documents are essential for substantiating the quantity and value of the affected items. Failure to produce adequate records may delay or compromise the settlement process.

SECTION I - PROPERTY

A. Coverage

We will pay for direct physical loss of or damage to Covered Property at the premises described in the Declarations caused by or resulting from a Covered Cause of Loss.

1. Covered Property

Covered Property includes Buildings as described under Paragraph a. below, Business Personal Property as described under Paragraph b. below, or both, depending on whether a Limit Of Insurance is shown in the Declarations.

- a. Buildings, meaning the buildings and structures at the described premises, including:
 - (1) Completed additions;
 - (2) Fixtures, including outdoor fixtures;
 - (3) Permanently installed machinery and equipment; and
 - (4) Personal property owned by you that is used to maintain or service the buildings or structures or the premises.
- b. Business Personal Property located in or on the buildings at the described premises, or in the open or in a vehicle within 100 feet of those premises, including:
 - (1) Property you own that is used in your business;
 - (2) Property of others that is in your care, custody or control, except as otherwise provided in this policy; and
 - (3) Tenant improvements and betterments made a part of a building or structure you occupy but do not own.

2. Property Not Covered

Covered Property does not include aircraft, watercraft, automobiles, money, securities, contraband, land, crops, lawns, outdoor fences, electronic data, or any property more specifically excluded by this form or by endorsement.

3. Covered Causes Of Loss

Direct physical loss is covered unless the loss is excluded or limited in this Coverage Form or in an endorsement attached to this policy.

INCOME INTERRUPTION AND EXPENSE CONDITIONS

This form addresses the financial impact of a suspended operation at Location 001, Building 002. The suspension must be caused by a qualifying destructive event that results in tangible structural impairment to the described premises. The interruption of business activities must be necessary and unavoidable.

Reimbursement is calculated based on the net income that would have been earned or incurred, plus continuing normal operating expenses. This includes payroll expenses, subject to any limitations explicitly stated in the declarations. The goal is to maintain the business's financial position as if no incident occurred.

Extra expense protection is included to cover necessary costs incurred during the period of restoration that would not have been incurred otherwise. These funds are intended to avoid or minimize the suspension of business and to continue operations at the described premises or a temporary location.

The period of restoration begins 72 hours after the time of the initial incident. This waiting period functions as a time-based deductible for the business income portion of the claim. Extra expense coverage, however, begins immediately upon the occurrence of the incident.

The restoration period concludes when the premises should be repaired, rebuilt, or replaced with reasonable speed and similar quality. It is not tied to the actual completion date if the insured unnecessarily delays the reconstruction process. Relocation to a new permanent site also terminates the period.

VALUATION IS DETERMINED ON AN ACTUAL LOSS SUSTAINED BASIS. WE WILL REVIEW HISTORICAL FINANCIAL RECORDS, TAX RETURNS, AND PROJECTED REVENUE TRENDS TO CALCULATE THE PRECISE DEFICIT. SPECULATIVE FUTURE CONTRACTS OR UNPROVEN BUSINESS EXPANSIONS ARE EXCLUDED FROM THE CALCULATION.

The maximum available reimbursement for this combined coverage is \$125,000. This limit applies to the total of both business income deficits and extra expenses incurred during the entire period of restoration. It is not an annual aggregate, but a per-occurrence cap.

An 80% coinsurance requirement applies to the business income calculation. The insured must carry a limit equal to at least 80% of the projected net income and operating expenses for the 12 months following the inception of the policy. Penalties apply if the limit is insufficient.

A monetary deductible of \$10,000 is also scheduled for this coverage. This amount is subtracted from the final calculated loss after the 72-hour waiting period has been applied. The dual application of time and monetary deductibles requires careful accounting during the claim process.

The insured is obligated to resume operations, either partially or entirely, as quickly as possible. Any reduction in the business income loss

achieved through partial resumption of operations will be factored into the final settlement. Mitigation is a strict requirement of this policy.

We do not provide reimbursement for income lost due to the suspension, lapse, or cancellation of any license, lease, or contract. Even if the suspension is a direct result of the qualifying destructive event, the consequential loss of the contract is excluded.

Detailed financial documentation must be submitted to substantiate the claim. This includes profit and loss statements, payroll registries, and utility bills. We retain the right to audit these records and employ forensic accountants to verify the submitted figures.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide business income and extra expense only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- The scheduled coverage, premises reference, form number and effective date must be read together.
- A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

EQUIPMENT BREAKDOWN PARAMETERS

This section provides specialized protection for mechanical failure events affecting the machinery at Location 002, Building 002. A breakdown is defined as a sudden and accidental internal failure of the equipment that manifests as physical damage and necessitates immediate repair or replacement.

Covered equipment includes pressure vessels, boilers, electrical distribution panels, and complex mechanical apparatus used in the insured's operations. Standard wear and tear, gradual deterioration, and routine maintenance issues do not qualify as sudden mechanical failure events.

In the event of a qualifying breakdown, we will reimburse the diagnostic costs required to identify the source of the failure. This includes the labor of specialized technicians and the use of testing equipment, provided the failure itself is covered under this form.

Protection is extended to include spoilage of perishable goods resulting from the breakdown of refrigeration or climate control equipment. The spoilage must be a direct consequence of the mechanical failure and not due to external power grid interruptions unless specifically endorsed.

Utility interruption resulting from a breakdown of equipment owned by a public or private utility company is addressed here. The interruption must exceed a specified waiting period, typically 24 hours, before the business income implications are considered for reimbursement.

The valuation for damaged equipment is Replacement Cost. We will fund the installation of new equipment of comparable capacity and efficiency. If technological advancements render exact replacement impossible, we will cover the cost of the modern equivalent.

The Agreed Value provision supersedes standard coinsurance requirements for this specific coverage. As long as the scheduled limit is maintained, no proportional penalties will be applied to the settlement of mechanical failure claims.

A \$10,000 deductible applies to each breakdown occurrence. If multiple pieces of equipment fail simultaneously due to a single underlying cause, such as a localized electrical surge within the building, it will be treated as one occurrence subject to a single retention.

The liability cap for this coverage is \$125,000. This ceiling applies to the aggregate of all costs associated with a single breakdown, including the equipment repair, diagnostic fees, spoilage, and any resulting business income deficits.

The business income basis for this form includes Ordinary Payroll for 90 Days. This ensures that essential staff can be retained during the downtime caused by the mechanical failure, up to the specified duration.

The insured must maintain detailed maintenance logs and inspection records for all pressure systems and critical machinery. Failure to adhere to manufacturer-recommended service schedules may jeopardize the coverage if the lack of maintenance contributed to the breakdown.

We reserve the right to suspend this coverage immediately if our inspectors determine that any covered equipment is operating in a dangerous condition. Notice of suspension will be provided in writing and coverage will only be reinstated once the hazards are rectified.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide equipment breakdown only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

EMPLOYEE DISHONESTY PROVISIONS

This optional coverage addresses financial deficits resulting directly from fraudulent or dishonest acts committed by employees at Location 001, Building 001. The acts must be committed with the manifest intent to cause the insured to sustain a loss and to obtain financial benefit for the employee.

The protection applies whether the employee acts alone or in collusion with other individuals. An employee is defined as any natural person currently compensated directly by the insured, or who was compensated within the 30 days preceding the discovery of the dishonest act.

A strict discovery period governs this form. We will only provide reimbursement for losses discovered no later than one year from the end of the policy period. Losses discovered after this window has closed fall outside the scope of our financial obligation.

Inventory shortages cannot be used as the sole proof of a dishonest act. While an inventory computation may establish the amount of the deficit, the insured must provide independent evidence demonstrating that a specific employee misappropriated the goods or funds.

Coverage for any specific employee terminates immediately upon the insured's discovery of any dishonest act committed by that individual, whether before or after employment with the insured. Prior knowledge of an employee's fraudulent history precludes them from this protection.

The valuation for this coverage is established as a Blanket Limit. The \$175,000 ceiling applies per occurrence, meaning all acts committed by a single employee or a group of colluding employees are considered one event, regardless of how long the scheme persisted.

A deductible of \$2,500 applies to each occurrence of employee dishonesty. The insured must absorb this initial amount before any settlement funds are distributed. This retention encourages robust internal auditing and hiring practices.

The Agreed Value provision indicates that standard property coinsurance calculations do not apply to this crime coverage. The settlement is determined solely by the substantiated amount of the theft, subject to the limit and deductible.

This coverage must be clearly separated from ordinary property loss. If a fire or vandalism event occurs concurrently with an employee theft, the claims must be documented and adjusted independently, utilizing their respective forms and limits.

We do not cover losses resulting from the actions of partners, members of an LLC, or executive officers, unless they are acting in the capacity of an ordinary employee and the theft is directed against the cooperative entity itself.

Legal fees, accounting costs, and other expenses incurred by the insured to establish the existence or amount of the loss are not reimbursable under this form. The limit is reserved exclusively for the principal amount stolen.

The insured is required to notify local law enforcement authorities if the dishonest act involves a violation of criminal statutes. A copy of the police report must be included with the formal claim submission to facilitate our investigation.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide employee dishonesty only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

CLAIM REPORTING PROCEDURES AND FRAUD WARNING

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

The forms schedule identifies the edition date for each coverage form, endorsement, amendatory page and notice attached to the policy packet.

If more than one schedule refers to the same location or building, read the location number, building number, coverage name, form number, and effective date together before relying on the entry.

The insured should retain the full packet, including replaced pages, because later endorsements may apply only from their effective dates.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

HIRED AND NON-OWNED AUTO LIABILITY

This endorsement expands the liability protections to encompass bodily injury or property damage arising out of the maintenance or use of a hired auto by the insured at Location 001, Building 001. A hired auto is defined as any motor vehicle leased, hired, rented, or borrowed by the named insured for business purposes.

The scope of hired vehicles does not include autos leased, hired, rented, or borrowed from any employee, partner, or member of the insured's household. Those specific scenarios are addressed under the non-owned auto provisions.

Non-owned auto protection applies to vehicles that the insured does not own, lease, hire, rent, or borrow, but that are used in connection with the business. This primarily covers employee vehicles on company business, such as a staff member using their personal car to run a bank errand.

Adjudicated liability parameters dictate that we will only issue settlement funds when formal civil judgments are assessed against the insured, or when a negotiated settlement is reached with our explicit consent. We hold the authority and obligation to manage legal representation for any covered suit.

The valuation for this endorsement is established as a Liability Limit. The absolute ceiling of our financial obligation for any single accident is \$275,000, regardless of the number of vehicles involved or the number of claimants.

A \$10,000 deductible applies to property damage claims under this form. The insured is responsible for this initial amount before we disburse funds to repair a third party's property. There is typically no deductible applied to bodily injury settlements.

The 80% coinsurance entry shown in the schedule does not apply to this liability coverage. Liability limits are absolute and are not subject to proportional property valuations.

This coverage functions on an excess basis over any primary auto insurance attached to the vehicle itself. For example, if an employee causes an accident in their personal car, their personal auto policy must respond first. This endorsement only activates if the primary limits are exhausted.

We strictly exclude physical damage to the hired or non-owned auto itself. This endorsement only protects the insured against claims made by third parties for bodily injury or damage to other property.

The business income basis of Actual Loss Sustained is irrelevant to this liability form, as it does not provide first-party property or income protection.

Autos used for the transportation of hazardous materials or for commercial delivery services are excluded unless specifically declared and rated in the underwriting process.

The insured must immediately forward any legal summons, demands, or notices related to an auto accident to our claims department. Delaying notification prejudices our ability to investigate and defend the action.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide hired and non-owned auto only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

NOTICE OF PRIVACY PRACTICES

=====

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

The forms schedule identifies the edition date for each coverage form, endorsement, amendatory page and notice attached to the policy packet.

If more than one schedule refers to the same location or building, read the location number, building number, coverage name, form number, and effective date together before relying on the entry.

The insured should retain the full packet, including replaced pages, because later endorsements may apply only from their effective dates.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

ORDINARY PAYROLL DURATION LIMIT

This endorsement modifies the Business Income and Extra Expense provisions applicable to Location 002, Building 002. It establishes specific parameters regarding the reimbursement of employee compensation during a period of restoration.

The definition of ordinary payroll encompasses the payroll expenses for all employees of the insured, except those specifically designated as exempt. It includes wages, salaries, union dues paid by the employer, workers compensation premiums, and standard employee benefits.

This form enforces a strict 90-day maximum duration for the reimbursement of ordinary payroll. We will only cover these expenses for the first 90 days following the qualifying destructive event, regardless of how long the actual period of restoration lasts.

Excluded executive compensation is not subject to this 90-day limitation. The salaries of officers, executives, department managers, and employees under contract are considered essential continuing expenses and are covered for the entirety of the restoration period.

The valuation for this specific limitation is set at \$100,000. This figure represents the maximum available reimbursement for ordinary payroll within the 90-day window. It is a sublimit contained within the broader business income limit, not an additional amount of insurance.

A \$10,000 deductible applies to the overall business income claim, which includes the ordinary payroll calculations. The retention is applied to the total calculated deficit before the sublimits are enforced.

The 90% coinsurance requirement remains active. The insured must ensure that their overall business income limit accurately reflects their projected annual revenue and continuing expenses, including the 90 days of ordinary payroll.

Substantiation requirements are rigorous. The insured must provide detailed payroll registries, tax filings, and timecards to prove that the claimed employees were retained and compensated during the downtime.

If the insured chooses to terminate employees rather than retain them during the restoration period, the ordinary payroll coverage will only reimburse the actual wages paid up to the date of termination, plus any legally required severance.

The 90-day period begins concurrently with the period of restoration, immediately following the expiration of the standard 72-hour waiting period.

This limitation is designed to allow the business to retain its core workforce during short-term disruptions while preventing excessive financial drain on the policy limits during prolonged rebuilding efforts.

Any payroll expenses incurred after the 90th day must be borne entirely by the insured, even if the business remains completely non-operational.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide ordinary payroll limitation only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

BUILDING COVERAGE PROVISIONS

This section outlines the parameters for tangible structural impairment to the scheduled edifice at Location 001, Building 001. The protection extends to completed additions, permanently installed fixtures, and machinery integrated into the building infrastructure. Glass that forms part of the exterior walls is also included within this scope.

Personal property owned by the insured that is used to maintain or service the premises falls under this category. This includes fire extinguishing equipment, outdoor furniture, floor coverings, and appliances used for refrigerating, ventilating, or dishwashing. These items are considered part of the building limit.

Materials, equipment, and supplies located within 100 feet of the described premises, intended for use in alterations or repairs to the building, are incorporated into this protection. The spatial limitation is strictly enforced based on the property boundaries defined in the declarations.

Settlement relies on contemporary construction pricing, subject to the Replacement Cost valuation method noted in the schedules. This means depreciation is not deducted from the settlement amount, provided the repairs are actually completed within a reasonable timeframe.

If the insured elects not to repair or replace the damaged structure, the settlement will revert to the actual cash value of the property at the time of the incident. The insured may initially submit a claim on an actual cash value basis and later amend it to replacement cost once reconstruction commences.

A \$1,000 retention applies before any funds are disbursed. This deductible is subtracted from the total adjusted loss amount, not from the policy limit. If a single incident impacts multiple coverages with different deductibles, only the highest applicable deductible will be enforced.

The maximum available reimbursement for this specific structure is capped at \$60,000. This figure represents the absolute ceiling of our financial obligation for any single event affecting Building 001. Costs associated with debris removal may provide a slight extension beyond this cap under specific conditions.

The insured must maintain limits equal to at least 80% of the total asset value at the time of the incident to satisfy the coinsurance requirement. Failure to meet this threshold will result in a proportional reduction of the final settlement.

To calculate the coinsurance penalty, we divide the actual limit carried by the required limit, then multiply that fraction by the total loss amount. The deductible is subtracted after this penalty is applied. Maintaining accurate property valuations is the responsibility of the insured.

Certain exclusions apply to this building protection. We do not provide reimbursement for impairment caused by earth movement, including

earthquakes, landslides, or sinkholes, unless a specific endorsement is attached. Volcanic action exceptions are detailed in the subsequent exclusion section.

Damage resulting from governmental action, such as the seizure or destruction of property by order of public authority, is strictly excluded. Exceptions exist only if the destruction is ordered to prevent the spread of a fire that would otherwise be covered.

The insured is required to take all reasonable steps to protect the building from further harm following an initial incident. Expenses incurred for temporary repairs or emergency mitigation efforts are considered part of the overall claim and are subject to the \$60,000 limit.

SECTION I - PROPERTY

A. Coverage

We will pay for direct physical loss of or damage to Covered Property at the premises described in the Declarations caused by or resulting from a Covered Cause of Loss.

1. Covered Property

Covered Property includes Buildings as described under Paragraph a. below, Business Personal Property as described under Paragraph b. below, or both, depending on whether a Limit Of Insurance is shown in the Declarations.

- a. Buildings, meaning the buildings and structures at the described premises, including:
 - (1) Completed additions;
 - (2) Fixtures, including outdoor fixtures;
 - (3) Permanently installed machinery and equipment; and
 - (4) Personal property owned by you that is used to maintain or service the buildings or structures or the premises.
- b. Business Personal Property located in or on the buildings at the described premises, or in the open or in a vehicle within 100 feet of those premises, including:
 - (1) Property you own that is used in your business;
 - (2) Property of others that is in your care, custody or control, except as otherwise provided in this policy; and
 - (3) Tenant improvements and betterments made a part of a building or structure you occupy but do not own.

2. Property Not Covered

Covered Property does not include aircraft, watercraft, automobiles, money, securities, contraband, land, crops, lawns, outdoor fences, electronic data, or any property more specifically excluded by this form or by endorsement.

BUSINESS PERSONAL PROPERTY PROVISIONS

Protection is established for the inventory, equipment, and furnishings located at Location 002, Building 001. This encompasses items owned by the insured and utilized primarily for the business operations described in the classification schedules. Tenant's improvements and betterments are also included if the insured does not own the building.

Property of others that is in the insured's care, custody, or control is incorporated into this section. Our financial obligation for such property is limited to the extent of the insured's legal liability for the items, plus any contractual obligations assumed prior to the incident.

The protection extends to business personal property located in or on the described building, or in the open within 100 feet of the premises. Property situated beyond this perimeter is considered off-premises and is subject to separate, lower sublimits detailed in the extensions section.

VALUATION FOR THE ITEMS AT THIS LOCATION IS BASED ON REPLACEMENT COST. WE WILL DETERMINE THE COST TO REPLACE THE PROPERTY WITH NEW ITEMS OF COMPARABLE MATERIAL AND QUALITY, USED FOR THE SAME PURPOSE. ANTIQUE OR RARE ITEMS ARE NOT VALUED AT MARKET PRICE UNLESS SPECIFICALLY SCHEDULED.

A deductible of \$5,000 must be absorbed by the insured before any settlement funds are released. This retention is applied per occurrence, regardless of the number of individual items affected. The deductible ensures that minor, routine losses are managed directly by the policyholder.

The scheduled limit of \$75,000 serves as the maximum financial recovery available for the business personal property at this specific premises. Fluctuations in inventory levels throughout the year do not alter this static limit unless a peak season endorsement is active.

A 90% coinsurance provision governs this coverage. The insured is obligated to carry a limit that represents at least 90% of the total replacement value of all business personal property at the location. Deficiencies in this ratio will trigger a proportional settlement penalty.

We exclude reimbursement for missing property where the only proof of loss is an unexplained or mysterious disappearance. Inventory shortages discovered solely during routine physical counts are similarly excluded, as they lack a definitive qualifying destructive event.

Property undergoing processing or manufacturing is not protected against damage resulting directly from those operations. For example, materials ruined due to a flaw in the production machinery or human error during assembly are excluded from this coverage.

The insured must maintain accurate records of inventory, purchases, and sales. In the event of a claim, these documents are essential for substantiating the quantity and value of the affected items. Failure to produce adequate records may delay or compromise the settlement process.

SECTION I - PROPERTY

A. Coverage

We will pay for direct physical loss of or damage to Covered Property at the premises described in the Declarations caused by or resulting from a Covered Cause of Loss.

1. Covered Property

Covered Property includes Buildings as described under Paragraph a. below, Business Personal Property as described under Paragraph b. below, or both, depending on whether a Limit Of Insurance is shown in the Declarations.

- a. Buildings, meaning the buildings and structures at the described premises, including:
 - (1) Completed additions;
 - (2) Fixtures, including outdoor fixtures;
 - (3) Permanently installed machinery and equipment; and
 - (4) Personal property owned by you that is used to maintain or service the buildings or structures or the premises.
- b. Business Personal Property located in or on the buildings at the described premises, or in the open or in a vehicle within 100 feet of those premises, including:
 - (1) Property you own that is used in your business;
 - (2) Property of others that is in your care, custody or control, except as otherwise provided in this policy; and
 - (3) Tenant improvements and betterments made a part of a building or structure you occupy but do not own.

2. Property Not Covered

Covered Property does not include aircraft, watercraft, automobiles, money, securities, contraband, land, crops, lawns, outdoor fences, electronic data, or any property more specifically excluded by this form or by endorsement.

3. Covered Causes Of Loss

Direct physical loss is covered unless the loss is excluded or limited in this Coverage Form or in an endorsement attached to this policy.

EMPLOYEE DISHONESTY PROVISIONS

This optional coverage addresses financial deficits resulting directly from fraudulent or dishonest acts committed by employees at Location 001, Building 001. The acts must be committed with the manifest intent to cause the insured to sustain a loss and to obtain financial benefit for the employee.

The protection applies whether the employee acts alone or in collusion with other individuals. An employee is defined as any natural person currently compensated directly by the insured, or who was compensated within the 30 days preceding the discovery of the dishonest act.

A strict discovery period governs this form. We will only provide reimbursement for losses discovered no later than one year from the end of the policy period. Losses discovered after this window has closed fall outside the scope of our financial obligation.

Inventory shortages cannot be used as the sole proof of a dishonest act. While an inventory computation may establish the amount of the deficit, the insured must provide independent evidence demonstrating that a specific employee misappropriated the goods or funds.

Coverage for any specific employee terminates immediately upon the insured's discovery of any dishonest act committed by that individual, whether before or after employment with the insured. Prior knowledge of an employee's fraudulent history precludes them from this protection.

The valuation for this coverage is established as a Blanket Limit. The \$175,000 ceiling applies per occurrence, meaning all acts committed by a single employee or a group of colluding employees are considered one event, regardless of how long the scheme persisted.

A deductible of \$2,500 applies to each occurrence of employee dishonesty. The insured must absorb this initial amount before any settlement funds are distributed. This retention encourages robust internal auditing and hiring practices.

The Agreed Value provision indicates that standard property coinsurance calculations do not apply to this crime coverage. The settlement is determined solely by the substantiated amount of the theft, subject to the limit and deductible.

This coverage must be clearly separated from ordinary property loss. If a fire or vandalism event occurs concurrently with an employee theft, the claims must be documented and adjusted independently, utilizing their respective forms and limits.

We do not cover losses resulting from the actions of partners, members of an LLC, or executive officers, unless they are acting in the capacity of an ordinary employee and the theft is directed against the cooperative entity itself.

Legal fees, accounting costs, and other expenses incurred by the insured to establish the existence or amount of the loss are not reimbursable under this form. The limit is reserved exclusively for the principal amount stolen.

The insured is required to notify local law enforcement authorities if the dishonest act involves a violation of criminal statutes. A copy of the police report must be included with the formal claim submission to facilitate our investigation.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide employee dishonesty only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

ACCOUNTS RECEIVABLE PARAMETERS

This form provides financial protection in the event that the insured's accounts receivable records at Location 002, Building 001 are destroyed by a qualifying destructive event. The primary intent is to reimburse the business for sums that cannot be collected from customers due to the loss of these records.

The coverage includes the expenses associated with the reconstruction of records. If the insured must hire temporary clerical staff or utilize specialized data recovery services to rebuild the ledger, those reasonable costs are factored into the settlement.

Collection expense is also addressed. If the destruction of the original records necessitates the use of third-party collection agencies or legal interventions that would not have been required otherwise, the increased costs of collection are reimbursable.

Interest charges on loans required to offset the uncollectible amounts pending the claim settlement are covered. The loan must be strictly necessary to maintain the business's cash flow during the reconstruction period.

The valuation is established as a Scheduled Limit. The maximum available reimbursement for all uncollectible accounts, reconstruction expenses, and collection fees combined is capped at \$175,000 for this specific premises.

A low deductible of \$500 applies to this coverage. This minimal retention recognizes the administrative burden placed on the insured when vital financial data is compromised, allowing for swift access to recovery funds.

The Agreed Value provision waives the standard coinsurance penalty. The insured is not required to prove that the \$175,000 limit represents a specific percentage of their total outstanding receivables at the time of the incident.

The insured must store duplicate invoices and backup data in a separate, secure location. If the declarations require the use of fire-resistant receptacles, the records must be kept in those receptacles when the premises are not open for business.

We strictly exclude losses resulting from bookkeeping errors, accounting omissions, or routine billing mistakes. The deficit must stem directly from the physical destruction or impairment of the records themselves.

Alteration or falsification of records to conceal a previous deficit is not covered. If an employee destroys the ledger to hide embezzlement, the loss falls under employee dishonesty, not accounts receivable protection.

To determine the amount uncollectible, we will analyze the historical collection trends of the business. We will look at the average monthly receivables for the twelve months preceding the incident and adjust for normal seasonal fluctuations.

Once a settlement has been issued, any subsequent funds collected by the insured on the affected accounts must be surrendered to Cobalt Pine Indemnity, up to the total amount of the claim payout.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide accounts receivable only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

NEW HAMPSHIRE STATE AMENDATORY - CANCELLATION
THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

=====

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 001 BUILDING: 002 FORM REFERENCE: BPF 04 28

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.
5. If this endorsement conflicts with another state amendatory endorsement, the provision applicable to the described premises controls.
6. Notice periods, appraisal rights, cancellation terms, and suit limitation provisions apply only as amended for the state and policy period shown.
7. This endorsement must be read with the declarations, coverage form, forms schedule, and any endorsement naming the same location or coverage.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

WATER BACK-UP AND OVERFLOW PROVISIONS

This endorsement modifies the standard exclusions to provide protection against damage caused by water that backs up or overflows from a sewer, drain, or sump at Location 002, Building 002. The incident must originate from within the plumbing infrastructure or the immediate drainage system of the premises.

Sump pump failure is explicitly addressed. If the mechanical failure of a sump pump or its related equipment results in the overflow of water into the building, the resulting tangible structural impairment is covered under this form.

Drain reversal caused by municipal sewer system blockages is also included. If off-premises infrastructure issues force water back through the insured's lateral lines and into the building, the ensuing damage qualifies for reimbursement.

The insured has strict mitigation duties following a backup event. Immediate action must be taken to extract the standing water, remove saturated materials, and initiate drying procedures to prevent the development of mold or secondary rot.

The valuation for this coverage operates on a Scheduled Limit basis. The maximum available reimbursement for all damage and cleanup costs associated with a backup event is capped at \$235,000.

A \$1,000 deductible applies specifically to this water backup protection. This retention must be satisfied before any funds are disbursed for water extraction, structural repairs, or damaged personal property.

The Agreed Value provision applies, meaning no coinsurance calculations will reduce the settlement. The scheduled limit is the sole determining factor for the maximum payout.

We strictly exclude flood events from this coverage. Surface water, waves, tidal water, and the overflow of any body of water are not considered sewer backups, even if the floodwaters enter the building through the drains.

Damage caused by the insured's failure to perform routine maintenance on the sump pump or drainage lines is not covered. The system must be kept in good working order to qualify for this protection.

Business income deficits resulting from a water backup event are included within the \$235,000 limit, subject to the Ordinary Payroll 90 Days parameter. The downtime must be a direct result of the water damage or the necessary cleanup efforts.

If the backup is caused by an item intentionally introduced into the plumbing system by the insured or their employees, such as industrial

waste or inappropriate solid materials, the resulting claim will be denied.

The cost to repair the actual sewer line or replace the broken sump pump itself is not covered under this form. This endorsement only addresses the damage caused by the escaping water.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide water back-up only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

HIRED AND NON-OWNED AUTO LIABILITY

This endorsement expands the liability protections to encompass bodily injury or property damage arising out of the maintenance or use of a hired auto by the insured at Location 001, Building 001. A hired auto is defined as any motor vehicle leased, hired, rented, or borrowed by the named insured for business purposes.

The scope of hired vehicles does not include autos leased, hired, rented, or borrowed from any employee, partner, or member of the insured's household. Those specific scenarios are addressed under the non-owned auto provisions.

Non-owned auto protection applies to vehicles that the insured does not own, lease, hire, rent, or borrow, but that are used in connection with the business. This primarily covers employee vehicles on company business, such as a staff member using their personal car to run a bank errand.

Adjudicated liability parameters dictate that we will only issue settlement funds when formal civil judgments are assessed against the insured, or when a negotiated settlement is reached with our explicit consent. We hold the authority and obligation to manage legal representation for any covered suit.

The valuation for this endorsement is established as a Liability Limit. The absolute ceiling of our financial obligation for any single accident is \$275,000, regardless of the number of vehicles involved or the number of claimants.

A \$10,000 deductible applies to property damage claims under this form. The insured is responsible for this initial amount before we disburse funds to repair a third party's property. There is typically no deductible applied to bodily injury settlements.

The 80% coinsurance entry shown in the schedule does not apply to this liability coverage. Liability limits are absolute and are not subject to proportional property valuations.

This coverage functions on an excess basis over any primary auto insurance attached to the vehicle itself. For example, if an employee causes an accident in their personal car, their personal auto policy must respond first. This endorsement only activates if the primary limits are exhausted.

We strictly exclude physical damage to the hired or non-owned auto itself. This endorsement only protects the insured against claims made by third parties for bodily injury or damage to other property.

The business income basis of Actual Loss Sustained is irrelevant to this liability form, as it does not provide first-party property or income protection.

Autos used for the transportation of hazardous materials or for commercial delivery services are excluded unless specifically declared and rated in the underwriting process.

The insured must immediately forward any legal summons, demands, or notices related to an auto accident to our claims department. Delaying notification prejudices our ability to investigate and defend the action.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide hired and non-owned auto only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

CONTRACTUAL ADDITIONAL INSURED STATUS

This endorsement amends the liability section to include as an insured any person or organization for whom you are performing operations at Location 002, Building 001, provided that a written contract requires such inclusion. The contractual requirement triggers the status automatically, without the need for a separate schedule.

The scope of the granted status is strictly limited. The additional insured is only protected with respect to liability for bodily injury or property damage caused, in whole or in part, by your acts or omissions, or the acts or omissions of those acting on your behalf.

We do not provide protection for the independent negligence of the additional insured. If the third party is solely responsible for the incident giving rise to the claim, this endorsement offers them no financial shelter.

A completed operations exclusion applies to this grant. The additional insured status terminates when your operations for that party are finished, or when the portion of the project you were working on has been put to its intended use.

The valuation is defined as a Status Grant, subject to the overall liability limits of the policy. The maximum available reimbursement for claims involving the additional insured is capped at \$300,000 per occurrence.

A \$5,000 deductible applies to property damage claims brought under this endorsement. The named insured is responsible for satisfying this retention before any settlement funds are issued on behalf of the additional insured.

The 80% coinsurance and Ordinary Payroll 90 Days entries shown in the schedule are property and income metrics; they do not impact the liability protections afforded by this contractual endorsement.

Defense expense handling is managed within the terms of the primary policy. We retain the prerogative to appoint counsel and direct the defense of the additional insured, provided the allegations fall within the scope of this grant.

If the written contract requires this insurance to be primary and non-contributory, we will not seek contribution from any other insurance available to the additional insured, provided the injury or damage is caused by your operations.

The written agreement requiring this status must be executed prior to the occurrence of the bodily injury or property damage. Retroactive contracts signed after an incident will not trigger the protections of this form.

This endorsement does not alter the fundamental exclusions of the liability policy. If an exposure is excluded for the named insured, it remains excluded for the additional insured.

The named insured must provide copies of the relevant contracts upon our request during the claim investigation process to verify the legitimacy of the additional insured's status.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide additional insured by contract only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

MAINE STATE AMENDATORY - VALUATION AND SETTLEMENT
THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

=====

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 002 BUILDING: 002 FORM REFERENCE: BPF 04 67

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.
5. If this endorsement conflicts with another state amendatory endorsement, the provision applicable to the described premises controls.
6. Notice periods, appraisal rights, cancellation terms, and suit limitation provisions apply only as amended for the state and policy period shown.
7. This endorsement must be read with the declarations, coverage form, forms schedule, and any endorsement naming the same location or coverage.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

NOTICE OF PRIVACY PRACTICES

=====

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

The forms schedule identifies the edition date for each coverage form, endorsement, amendatory page and notice attached to the policy packet.

If more than one schedule refers to the same location or building, read the location number, building number, coverage name, form number, and effective date together before relying on the entry.

The insured should retain the full packet, including replaced pages, because later endorsements may apply only from their effective dates.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

POLICY NUMBER: QB814260 BILLING METHOD: DIRECT BILL
NAMED INSURED: Pinecrest Print Cooperative, LLC
SCHEDULED COVERAGE: Business Income and Extra Expense
LOCATION: 001 BUILDING: 002 SCHEDULED PREMIUM: \$281

PREMIUM CONDITIONS

1. Premium shown in this policy is an estimate unless the declarations or premium schedule states that the premium is fully earned or not auditable.
2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.
6. Premium shown for a single scheduled coverage does not change limits, deductibles, valuation terms, covered premises, or exclusions.
7. If the insured requests a change during the policy period, any resulting premium adjustment applies from the effective date shown on the endorsement or revised declarations page.
8. Audit correspondence, worksheets, and installment notices are part of policy administration records and should be retained with this packet.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

EQUIPMENT BREAKDOWN PARAMETERS

This section provides specialized protection for mechanical failure events affecting the machinery at Location 002, Building 002. A breakdown is defined as a sudden and accidental internal failure of the equipment that manifests as physical damage and necessitates immediate repair or replacement.

Covered equipment includes pressure vessels, boilers, electrical distribution panels, and complex mechanical apparatus used in the insured's operations. Standard wear and tear, gradual deterioration, and routine maintenance issues do not qualify as sudden mechanical failure events.

In the event of a qualifying breakdown, we will reimburse the diagnostic costs required to identify the source of the failure. This includes the labor of specialized technicians and the use of testing equipment, provided the failure itself is covered under this form.

Protection is extended to include spoilage of perishable goods resulting from the breakdown of refrigeration or climate control equipment. The spoilage must be a direct consequence of the mechanical failure and not due to external power grid interruptions unless specifically endorsed.

Utility interruption resulting from a breakdown of equipment owned by a public or private utility company is addressed here. The interruption must exceed a specified waiting period, typically 24 hours, before the business income implications are considered for reimbursement.

The valuation for damaged equipment is Replacement Cost. We will fund the installation of new equipment of comparable capacity and efficiency. If technological advancements render exact replacement impossible, we will cover the cost of the modern equivalent.

The Agreed Value provision supersedes standard coinsurance requirements for this specific coverage. As long as the scheduled limit is maintained, no proportional penalties will be applied to the settlement of mechanical failure claims.

A \$10,000 deductible applies to each breakdown occurrence. If multiple pieces of equipment fail simultaneously due to a single underlying cause, such as a localized electrical surge within the building, it will be treated as one occurrence subject to a single retention.

The liability cap for this coverage is \$125,000. This ceiling applies to the aggregate of all costs associated with a single breakdown, including the equipment repair, diagnostic fees, spoilage, and any resulting business income deficits.

The business income basis for this form includes Ordinary Payroll for 90 Days. This ensures that essential staff can be retained during the downtime caused by the mechanical failure, up to the specified duration.

The insured must maintain detailed maintenance logs and inspection records for all pressure systems and critical machinery. Failure to adhere to manufacturer-recommended service schedules may jeopardize the coverage if the lack of maintenance contributed to the breakdown.

We reserve the right to suspend this coverage immediately if our inspectors determine that any covered equipment is operating in a dangerous condition. Notice of suspension will be provided in writing and coverage will only be reinstated once the hazards are rectified.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide equipment breakdown only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

EMPLOYEE DISHONESTY PROVISIONS

This optional coverage addresses financial deficits resulting directly from fraudulent or dishonest acts committed by employees at Location 001, Building 001. The acts must be committed with the manifest intent to cause the insured to sustain a loss and to obtain financial benefit for the employee.

The protection applies whether the employee acts alone or in collusion with other individuals. An employee is defined as any natural person currently compensated directly by the insured, or who was compensated within the 30 days preceding the discovery of the dishonest act.

A strict discovery period governs this form. We will only provide reimbursement for losses discovered no later than one year from the end of the policy period. Losses discovered after this window has closed fall outside the scope of our financial obligation.

Inventory shortages cannot be used as the sole proof of a dishonest act. While an inventory computation may establish the amount of the deficit, the insured must provide independent evidence demonstrating that a specific employee misappropriated the goods or funds.

Coverage for any specific employee terminates immediately upon the insured's discovery of any dishonest act committed by that individual, whether before or after employment with the insured. Prior knowledge of an employee's fraudulent history precludes them from this protection.

The valuation for this coverage is established as a Blanket Limit. The \$175,000 ceiling applies per occurrence, meaning all acts committed by a single employee or a group of colluding employees are considered one event, regardless of how long the scheme persisted.

A deductible of \$2,500 applies to each occurrence of employee dishonesty. The insured must absorb this initial amount before any settlement funds are distributed. This retention encourages robust internal auditing and hiring practices.

The Agreed Value provision indicates that standard property coinsurance calculations do not apply to this crime coverage. The settlement is determined solely by the substantiated amount of the theft, subject to the limit and deductible.

This coverage must be clearly separated from ordinary property loss. If a fire or vandalism event occurs concurrently with an employee theft, the claims must be documented and adjusted independently, utilizing their respective forms and limits.

We do not cover losses resulting from the actions of partners, members of an LLC, or executive officers, unless they are acting in the capacity of an ordinary employee and the theft is directed against the cooperative entity itself.

Legal fees, accounting costs, and other expenses incurred by the insured to establish the existence or amount of the loss are not reimbursable under this form. The limit is reserved exclusively for the principal amount stolen.

The insured is required to notify local law enforcement authorities if the dishonest act involves a violation of criminal statutes. A copy of the police report must be included with the formal claim submission to facilitate our investigation.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide employee dishonesty only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

COBALT PINE INDEMNITY
PINECREST PRINT COOPERATIVE, LLC

POLICY NUMBER: QB814260
EFF DATE: 04/01/2026 EXP DATE: 04/01/2027

CLAIM REPORTING PROCEDURES AND FRAUD WARNING

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

The forms schedule identifies the edition date for each coverage form, endorsement, amendatory page and notice attached to the policy packet.

If more than one schedule refers to the same location or building, read the location number, building number, coverage name, form number, and effective date together before relying on the entry.

The insured should retain the full packet, including replaced pages, because later endorsements may apply only from their effective dates.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

OUTDOOR PROPERTY CONDITIONS

This extension broadens the policy to include specific items located outside the primary structure at Location 001, Building 002. The protection is explicitly limited to signs, fences, antennas, satellite dishes, and detached retaining walls situated within the premises boundaries.

Trees, shrubs, and plants are also incorporated into this form, provided they are not held for sale as inventory. The coverage for landscaping elements is generally restricted to specific perils, such as fire, lightning, explosion, or civil commotion.

Debris removal associated with the covered outdoor property is included. If a qualifying event destroys a fence and scatters the materials, the cost to clear the wreckage from the site is factored into the settlement for this extension.

The spatial limitation is strictly defined by the legal premises boundaries outlined in the declarations. Items located on adjacent public sidewalks or neighboring lots are entirely excluded from this protection.

VALUATION FOR THE OUTDOOR ELEMENTS IS BASED ON REPLACEMENT COST. WE WILL FUND THE INSTALLATION OF NEW SIGNS OR FENCES OF COMPARABLE MATERIAL AND QUALITY. DEPRECIATION WILL NOT BE FACTORED INTO THE FINAL ADJUSTMENT.

A \$1,000 deductible applies to each occurrence impacting the outdoor property. This retention is separate from the primary building deductible and must be absorbed before any funds are released for the exterior items.

The liability cap for this extension is \$200,000. This represents the absolute ceiling of our financial obligation for all outdoor property combined at this location, including any associated debris removal costs.

The Agreed Value provision ensures that no coinsurance penalties will be levied against the outdoor property settlement. The scheduled limit is accepted as sufficient for the exposures described.

Weather limitations are strictly enforced. We do not provide reimbursement for damage to fences, antennas, or signs caused by the weight of ice, snow, or sleet. Windstorm and hail damage to trees and shrubs is similarly excluded.

Damage resulting from vehicles owned or operated by the insured is not covered. If an employee accidentally backs a company truck into the premises sign, the resulting structural impairment is excluded under this specific form.

The insured must maintain the outdoor property in a state of good repair. Rotting fences or structurally compromised signs that fail under normal environmental conditions do not constitute a sudden accidental destruction.

If a single event damages both the primary building and the outdoor property, the respective limits and deductibles will be applied independently based on the specific items affected.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide outdoor property only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

WATER BACK-UP AND OVERFLOW PROVISIONS

This endorsement modifies the standard exclusions to provide protection against damage caused by water that backs up or overflows from a sewer, drain, or sump at Location 002, Building 002. The incident must originate from within the plumbing infrastructure or the immediate drainage system of the premises.

Sump pump failure is explicitly addressed. If the mechanical failure of a sump pump or its related equipment results in the overflow of water into the building, the resulting tangible structural impairment is covered under this form.

Drain reversal caused by municipal sewer system blockages is also included. If off-premises infrastructure issues force water back through the insured's lateral lines and into the building, the ensuing damage qualifies for reimbursement.

The insured has strict mitigation duties following a backup event. Immediate action must be taken to extract the standing water, remove saturated materials, and initiate drying procedures to prevent the development of mold or secondary rot.

The valuation for this coverage operates on a Scheduled Limit basis. The maximum available reimbursement for all damage and cleanup costs associated with a backup event is capped at \$235,000.

A \$1,000 deductible applies specifically to this water backup protection. This retention must be satisfied before any funds are disbursed for water extraction, structural repairs, or damaged personal property.

The Agreed Value provision applies, meaning no coinsurance calculations will reduce the settlement. The scheduled limit is the sole determining factor for the maximum payout.

We strictly exclude flood events from this coverage. Surface water, waves, tidal water, and the overflow of any body of water are not considered sewer backups, even if the floodwaters enter the building through the drains.

Damage caused by the insured's failure to perform routine maintenance on the sump pump or drainage lines is not covered. The system must be kept in good working order to qualify for this protection.

Business income deficits resulting from a water backup event are included within the \$235,000 limit, subject to the Ordinary Payroll 90 Days parameter. The downtime must be a direct result of the water damage or the necessary cleanup efforts.

If the backup is caused by an item intentionally introduced into the plumbing system by the insured or their employees, such as industrial

waste or inappropriate solid materials, the resulting claim will be denied.

The cost to repair the actual sewer line or replace the broken sump pump itself is not covered under this form. This endorsement only addresses the damage caused by the escaping water.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide water back-up only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- The scheduled coverage, premises reference, form number and effective date must be read together.
- A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

HIRED AND NON-OWNED AUTO LIABILITY

This endorsement expands the liability protections to encompass bodily injury or property damage arising out of the maintenance or use of a hired auto by the insured at Location 001, Building 001. A hired auto is defined as any motor vehicle leased, hired, rented, or borrowed by the named insured for business purposes.

The scope of hired vehicles does not include autos leased, hired, rented, or borrowed from any employee, partner, or member of the insured's household. Those specific scenarios are addressed under the non-owned auto provisions.

Non-owned auto protection applies to vehicles that the insured does not own, lease, hire, rent, or borrow, but that are used in connection with the business. This primarily covers employee vehicles on company business, such as a staff member using their personal car to run a bank errand.

Adjudicated liability parameters dictate that we will only issue settlement funds when formal civil judgments are assessed against the insured, or when a negotiated settlement is reached with our explicit consent. We hold the authority and obligation to manage legal representation for any covered suit.

The valuation for this endorsement is established as a Liability Limit. The absolute ceiling of our financial obligation for any single accident is \$275,000, regardless of the number of vehicles involved or the number of claimants.

A \$10,000 deductible applies to property damage claims under this form. The insured is responsible for this initial amount before we disburse funds to repair a third party's property. There is typically no deductible applied to bodily injury settlements.

The 80% coinsurance entry shown in the schedule does not apply to this liability coverage. Liability limits are absolute and are not subject to proportional property valuations.

This coverage functions on an excess basis over any primary auto insurance attached to the vehicle itself. For example, if an employee causes an accident in their personal car, their personal auto policy must respond first. This endorsement only activates if the primary limits are exhausted.

We strictly exclude physical damage to the hired or non-owned auto itself. This endorsement only protects the insured against claims made by third parties for bodily injury or damage to other property.

The business income basis of Actual Loss Sustained is irrelevant to this liability form, as it does not provide first-party property or income protection.

Autos used for the transportation of hazardous materials or for commercial delivery services are excluded unless specifically declared and rated in the underwriting process.

The insured must immediately forward any legal summons, demands, or notices related to an auto accident to our claims department. Delaying notification prejudices our ability to investigate and defend the action.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide hired and non-owned auto only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

CONTRACTUAL ADDITIONAL INSURED STATUS

This endorsement amends the liability section to include as an insured any person or organization for whom you are performing operations at Location 002, Building 001, provided that a written contract requires such inclusion. The contractual requirement triggers the status automatically, without the need for a separate schedule.

The scope of the granted status is strictly limited. The additional insured is only protected with respect to liability for bodily injury or property damage caused, in whole or in part, by your acts or omissions, or the acts or omissions of those acting on your behalf.

We do not provide protection for the independent negligence of the additional insured. If the third party is solely responsible for the incident giving rise to the claim, this endorsement offers them no financial shelter.

A completed operations exclusion applies to this grant. The additional insured status terminates when your operations for that party are finished, or when the portion of the project you were working on has been put to its intended use.

The valuation is defined as a Status Grant, subject to the overall liability limits of the policy. The maximum available reimbursement for claims involving the additional insured is capped at \$300,000 per occurrence.

A \$5,000 deductible applies to property damage claims brought under this endorsement. The named insured is responsible for satisfying this retention before any settlement funds are issued on behalf of the additional insured.

The 80% coinsurance and Ordinary Payroll 90 Days entries shown in the schedule are property and income metrics; they do not impact the liability protections afforded by this contractual endorsement.

Defense expense handling is managed within the terms of the primary policy. We retain the prerogative to appoint counsel and direct the defense of the additional insured, provided the allegations fall within the scope of this grant.

If the written contract requires this insurance to be primary and non-contributory, we will not seek contribution from any other insurance available to the additional insured, provided the injury or damage is caused by your operations.

The written agreement requiring this status must be executed prior to the occurrence of the bodily injury or property damage. Retroactive contracts signed after an incident will not trigger the protections of this form.

This endorsement does not alter the fundamental exclusions of the liability policy. If an exposure is excluded for the named insured, it remains excluded for the additional insured.

The named insured must provide copies of the relevant contracts upon our request during the claim investigation process to verify the legitimacy of the additional insured's status.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide additional insured by contract only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

COBALT PINE INDEMNITY
PINECREST PRINT COOPERATIVE, LLC

ACCOUNT SUMMARY

POLICY NUMBER: QB814260 BILLING METHOD: DIRECT BILL
NAMED INSURED: Pinecrest Print Cooperative, LLC
SCHEDULED COVERAGE: PFAS Exclusion
LOCATION: 001 BUILDING: 002 SCHEDULED PREMIUM: \$519

PREMIUM CONDITIONS

1. Premium shown in this policy is an estimate unless the declarations or premium schedule states that the premium is fully earned or not auditable.
2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.
6. Premium shown for a single scheduled coverage does not change limits, deductibles, valuation terms, covered premises, or exclusions.
7. If the insured requests a change during the policy period, any resulting premium adjustment applies from the effective date shown on the endorsement or revised declarations page.
8. Audit correspondence, worksheets, and installment notices are part of policy administration records and should be retained with this packet.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

ORDINARY PAYROLL DURATION LIMIT

This endorsement modifies the Business Income and Extra Expense provisions applicable to Location 002, Building 002. It establishes specific parameters regarding the reimbursement of employee compensation during a period of restoration.

The definition of ordinary payroll encompasses the payroll expenses for all employees of the insured, except those specifically designated as exempt. It includes wages, salaries, union dues paid by the employer, workers compensation premiums, and standard employee benefits.

This form enforces a strict 90-day maximum duration for the reimbursement of ordinary payroll. We will only cover these expenses for the first 90 days following the qualifying destructive event, regardless of how long the actual period of restoration lasts.

Excluded executive compensation is not subject to this 90-day limitation. The salaries of officers, executives, department managers, and employees under contract are considered essential continuing expenses and are covered for the entirety of the restoration period.

The valuation for this specific limitation is set at \$100,000. This figure represents the maximum available reimbursement for ordinary payroll within the 90-day window. It is a sublimit contained within the broader business income limit, not an additional amount of insurance.

A \$10,000 deductible applies to the overall business income claim, which includes the ordinary payroll calculations. The retention is applied to the total calculated deficit before the sublimits are enforced.

The 90% coinsurance requirement remains active. The insured must ensure that their overall business income limit accurately reflects their projected annual revenue and continuing expenses, including the 90 days of ordinary payroll.

Substantiation requirements are rigorous. The insured must provide detailed payroll registries, tax filings, and timecards to prove that the claimed employees were retained and compensated during the downtime.

If the insured chooses to terminate employees rather than retain them during the restoration period, the ordinary payroll coverage will only reimburse the actual wages paid up to the date of termination, plus any legally required severance.

The 90-day period begins concurrently with the period of restoration, immediately following the expiration of the standard 72-hour waiting period.

This limitation is designed to allow the business to retain its core workforce during short-term disruptions while preventing excessive financial drain on the policy limits during prolonged rebuilding efforts.

Any payroll expenses incurred after the 90th day must be borne entirely by the insured, even if the business remains completely non-operational.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide ordinary payroll limitation only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

BUILDING COVERAGE PROVISIONS

This section outlines the parameters for tangible structural impairment to the scheduled edifice at Location 001, Building 001. The protection extends to completed additions, permanently installed fixtures, and machinery integrated into the building infrastructure. Glass that forms part of the exterior walls is also included within this scope.

Personal property owned by the insured that is used to maintain or service the premises falls under this category. This includes fire extinguishing equipment, outdoor furniture, floor coverings, and appliances used for refrigerating, ventilating, or dishwashing. These items are considered part of the building limit.

Materials, equipment, and supplies located within 100 feet of the described premises, intended for use in alterations or repairs to the building, are incorporated into this protection. The spatial limitation is strictly enforced based on the property boundaries defined in the declarations.

Settlement relies on contemporary construction pricing, subject to the Replacement Cost valuation method noted in the schedules. This means depreciation is not deducted from the settlement amount, provided the repairs are actually completed within a reasonable timeframe.

If the insured elects not to repair or replace the damaged structure, the settlement will revert to the actual cash value of the property at the time of the incident. The insured may initially submit a claim on an actual cash value basis and later amend it to replacement cost once reconstruction commences.

A \$1,000 retention applies before any funds are disbursed. This deductible is subtracted from the total adjusted loss amount, not from the policy limit. If a single incident impacts multiple coverages with different deductibles, only the highest applicable deductible will be enforced.

The maximum available reimbursement for this specific structure is capped at \$60,000. This figure represents the absolute ceiling of our financial obligation for any single event affecting Building 001. Costs associated with debris removal may provide a slight extension beyond this cap under specific conditions.

The insured must maintain limits equal to at least 80% of the total asset value at the time of the incident to satisfy the coinsurance requirement. Failure to meet this threshold will result in a proportional reduction of the final settlement.

To calculate the coinsurance penalty, we divide the actual limit carried by the required limit, then multiply that fraction by the total loss amount. The deductible is subtracted after this penalty is applied. Maintaining accurate property valuations is the responsibility of the insured.

Certain exclusions apply to this building protection. We do not provide reimbursement for impairment caused by earth movement, including

earthquakes, landslides, or sinkholes, unless a specific endorsement is attached. Volcanic action exceptions are detailed in the subsequent exclusion section.

Damage resulting from governmental action, such as the seizure or destruction of property by order of public authority, is strictly excluded. Exceptions exist only if the destruction is ordered to prevent the spread of a fire that would otherwise be covered.

The insured is required to take all reasonable steps to protect the building from further harm following an initial incident. Expenses incurred for temporary repairs or emergency mitigation efforts are considered part of the overall claim and are subject to the \$60,000 limit.

SECTION I - PROPERTY

A. Coverage

We will pay for direct physical loss of or damage to Covered Property at the premises described in the Declarations caused by or resulting from a Covered Cause of Loss.

1. Covered Property

Covered Property includes Buildings as described under Paragraph a. below, Business Personal Property as described under Paragraph b. below, or both, depending on whether a Limit Of Insurance is shown in the Declarations.

- a. Buildings, meaning the buildings and structures at the described premises, including:
 - (1) Completed additions;
 - (2) Fixtures, including outdoor fixtures;
 - (3) Permanently installed machinery and equipment; and
 - (4) Personal property owned by you that is used to maintain or service the buildings or structures or the premises.
- b. Business Personal Property located in or on the buildings at the described premises, or in the open or in a vehicle within 100 feet of those premises, including:
 - (1) Property you own that is used in your business;
 - (2) Property of others that is in your care, custody or control, except as otherwise provided in this policy; and
 - (3) Tenant improvements and betterments made a part of a building or structure you occupy but do not own.

2. Property Not Covered

Covered Property does not include aircraft, watercraft, automobiles, money, securities, contraband, land, crops, lawns, outdoor fences, electronic data, or any property more specifically excluded by this form or by endorsement.

MAINE STATE AMENDATORY - VALUATION AND SETTLEMENT
THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

=====

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 002 BUILDING: 001 FORM REFERENCE: BPF 00 13

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.
5. If this endorsement conflicts with another state amendatory endorsement, the provision applicable to the described premises controls.
6. Notice periods, appraisal rights, cancellation terms, and suit limitation provisions apply only as amended for the state and policy period shown.
7. This endorsement must be read with the declarations, coverage form, forms schedule, and any endorsement naming the same location or coverage.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

INCOME INTERRUPTION AND EXPENSE CONDITIONS

This form addresses the financial impact of a suspended operation at Location 001, Building 002. The suspension must be caused by a qualifying destructive event that results in tangible structural impairment to the described premises. The interruption of business activities must be necessary and unavoidable.

Reimbursement is calculated based on the net income that would have been earned or incurred, plus continuing normal operating expenses. This includes payroll expenses, subject to any limitations explicitly stated in the declarations. The goal is to maintain the business's financial position as if no incident occurred.

Extra expense protection is included to cover necessary costs incurred during the period of restoration that would not have been incurred otherwise. These funds are intended to avoid or minimize the suspension of business and to continue operations at the described premises or a temporary location.

The period of restoration begins 72 hours after the time of the initial incident. This waiting period functions as a time-based deductible for the business income portion of the claim. Extra expense coverage, however, begins immediately upon the occurrence of the incident.

The restoration period concludes when the premises should be repaired, rebuilt, or replaced with reasonable speed and similar quality. It is not tied to the actual completion date if the insured unnecessarily delays the reconstruction process. Relocation to a new permanent site also terminates the period.

VALUATION IS DETERMINED ON AN ACTUAL LOSS SUSTAINED BASIS. WE WILL REVIEW HISTORICAL FINANCIAL RECORDS, TAX RETURNS, AND PROJECTED REVENUE TRENDS TO CALCULATE THE PRECISE DEFICIT. SPECULATIVE FUTURE CONTRACTS OR UNPROVEN BUSINESS EXPANSIONS ARE EXCLUDED FROM THE CALCULATION.

The maximum available reimbursement for this combined coverage is \$125,000. This limit applies to the total of both business income deficits and extra expenses incurred during the entire period of restoration. It is not an annual aggregate, but a per-occurrence cap.

An 80% coinsurance requirement applies to the business income calculation. The insured must carry a limit equal to at least 80% of the projected net income and operating expenses for the 12 months following the inception of the policy. Penalties apply if the limit is insufficient.

A monetary deductible of \$10,000 is also scheduled for this coverage. This amount is subtracted from the final calculated loss after the 72-hour waiting period has been applied. The dual application of time and monetary deductibles requires careful accounting during the claim process.

The insured is obligated to resume operations, either partially or entirely, as quickly as possible. Any reduction in the business income loss

achieved through partial resumption of operations will be factored into the final settlement. Mitigation is a strict requirement of this policy.

We do not provide reimbursement for income lost due to the suspension, lapse, or cancellation of any license, lease, or contract. Even if the suspension is a direct result of the qualifying destructive event, the consequential loss of the contract is excluded.

Detailed financial documentation must be submitted to substantiate the claim. This includes profit and loss statements, payroll registries, and utility bills. We retain the right to audit these records and employ forensic accountants to verify the submitted figures.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide business income and extra expense only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- The scheduled coverage, premises reference, form number and effective date must be read together.
- A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

EQUIPMENT BREAKDOWN PARAMETERS

This section provides specialized protection for mechanical failure events affecting the machinery at Location 002, Building 002. A breakdown is defined as a sudden and accidental internal failure of the equipment that manifests as physical damage and necessitates immediate repair or replacement.

Covered equipment includes pressure vessels, boilers, electrical distribution panels, and complex mechanical apparatus used in the insured's operations. Standard wear and tear, gradual deterioration, and routine maintenance issues do not qualify as sudden mechanical failure events.

In the event of a qualifying breakdown, we will reimburse the diagnostic costs required to identify the source of the failure. This includes the labor of specialized technicians and the use of testing equipment, provided the failure itself is covered under this form.

Protection is extended to include spoilage of perishable goods resulting from the breakdown of refrigeration or climate control equipment. The spoilage must be a direct consequence of the mechanical failure and not due to external power grid interruptions unless specifically endorsed.

Utility interruption resulting from a breakdown of equipment owned by a public or private utility company is addressed here. The interruption must exceed a specified waiting period, typically 24 hours, before the business income implications are considered for reimbursement.

The valuation for damaged equipment is Replacement Cost. We will fund the installation of new equipment of comparable capacity and efficiency. If technological advancements render exact replacement impossible, we will cover the cost of the modern equivalent.

The Agreed Value provision supersedes standard coinsurance requirements for this specific coverage. As long as the scheduled limit is maintained, no proportional penalties will be applied to the settlement of mechanical failure claims.

A \$10,000 deductible applies to each breakdown occurrence. If multiple pieces of equipment fail simultaneously due to a single underlying cause, such as a localized electrical surge within the building, it will be treated as one occurrence subject to a single retention.

The liability cap for this coverage is \$125,000. This ceiling applies to the aggregate of all costs associated with a single breakdown, including the equipment repair, diagnostic fees, spoilage, and any resulting business income deficits.

The business income basis for this form includes Ordinary Payroll for 90 Days. This ensures that essential staff can be retained during the downtime caused by the mechanical failure, up to the specified duration.

The insured must maintain detailed maintenance logs and inspection records for all pressure systems and critical machinery. Failure to adhere to manufacturer-recommended service schedules may jeopardize the coverage if the lack of maintenance contributed to the breakdown.

We reserve the right to suspend this coverage immediately if our inspectors determine that any covered equipment is operating in a dangerous condition. Notice of suspension will be provided in writing and coverage will only be reinstated once the hazards are rectified.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide equipment breakdown only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

EMPLOYEE DISHONESTY PROVISIONS

This optional coverage addresses financial deficits resulting directly from fraudulent or dishonest acts committed by employees at Location 001, Building 001. The acts must be committed with the manifest intent to cause the insured to sustain a loss and to obtain financial benefit for the employee.

The protection applies whether the employee acts alone or in collusion with other individuals. An employee is defined as any natural person currently compensated directly by the insured, or who was compensated within the 30 days preceding the discovery of the dishonest act.

A strict discovery period governs this form. We will only provide reimbursement for losses discovered no later than one year from the end of the policy period. Losses discovered after this window has closed fall outside the scope of our financial obligation.

Inventory shortages cannot be used as the sole proof of a dishonest act. While an inventory computation may establish the amount of the deficit, the insured must provide independent evidence demonstrating that a specific employee misappropriated the goods or funds.

Coverage for any specific employee terminates immediately upon the insured's discovery of any dishonest act committed by that individual, whether before or after employment with the insured. Prior knowledge of an employee's fraudulent history precludes them from this protection.

The valuation for this coverage is established as a Blanket Limit. The \$175,000 ceiling applies per occurrence, meaning all acts committed by a single employee or a group of colluding employees are considered one event, regardless of how long the scheme persisted.

A deductible of \$2,500 applies to each occurrence of employee dishonesty. The insured must absorb this initial amount before any settlement funds are distributed. This retention encourages robust internal auditing and hiring practices.

The Agreed Value provision indicates that standard property coinsurance calculations do not apply to this crime coverage. The settlement is determined solely by the substantiated amount of the theft, subject to the limit and deductible.

This coverage must be clearly separated from ordinary property loss. If a fire or vandalism event occurs concurrently with an employee theft, the claims must be documented and adjusted independently, utilizing their respective forms and limits.

We do not cover losses resulting from the actions of partners, members of an LLC, or executive officers, unless they are acting in the capacity of an ordinary employee and the theft is directed against the cooperative entity itself.

Legal fees, accounting costs, and other expenses incurred by the insured to establish the existence or amount of the loss are not reimbursable under this form. The limit is reserved exclusively for the principal amount stolen.

The insured is required to notify local law enforcement authorities if the dishonest act involves a violation of criminal statutes. A copy of the police report must be included with the formal claim submission to facilitate our investigation.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide employee dishonesty only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

CLAIM REPORTING PROCEDURES AND FRAUD WARNING

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

The forms schedule identifies the edition date for each coverage form, endorsement, amendatory page and notice attached to the policy packet.

If more than one schedule refers to the same location or building, read the location number, building number, coverage name, form number, and effective date together before relying on the entry.

The insured should retain the full packet, including replaced pages, because later endorsements may apply only from their effective dates.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

WATER BACK-UP AND OVERFLOW PROVISIONS

This endorsement modifies the standard exclusions to provide protection against damage caused by water that backs up or overflows from a sewer, drain, or sump at Location 002, Building 002. The incident must originate from within the plumbing infrastructure or the immediate drainage system of the premises.

Sump pump failure is explicitly addressed. If the mechanical failure of a sump pump or its related equipment results in the overflow of water into the building, the resulting tangible structural impairment is covered under this form.

Drain reversal caused by municipal sewer system blockages is also included. If off-premises infrastructure issues force water back through the insured's lateral lines and into the building, the ensuing damage qualifies for reimbursement.

The insured has strict mitigation duties following a backup event. Immediate action must be taken to extract the standing water, remove saturated materials, and initiate drying procedures to prevent the development of mold or secondary rot.

The valuation for this coverage operates on a Scheduled Limit basis. The maximum available reimbursement for all damage and cleanup costs associated with a backup event is capped at \$235,000.

A \$1,000 deductible applies specifically to this water backup protection. This retention must be satisfied before any funds are disbursed for water extraction, structural repairs, or damaged personal property.

The Agreed Value provision applies, meaning no coinsurance calculations will reduce the settlement. The scheduled limit is the sole determining factor for the maximum payout.

We strictly exclude flood events from this coverage. Surface water, waves, tidal water, and the overflow of any body of water are not considered sewer backups, even if the floodwaters enter the building through the drains.

Damage caused by the insured's failure to perform routine maintenance on the sump pump or drainage lines is not covered. The system must be kept in good working order to qualify for this protection.

Business income deficits resulting from a water backup event are included within the \$235,000 limit, subject to the Ordinary Payroll 90 Days parameter. The downtime must be a direct result of the water damage or the necessary cleanup efforts.

If the backup is caused by an item intentionally introduced into the plumbing system by the insured or their employees, such as industrial

waste or inappropriate solid materials, the resulting claim will be denied.

The cost to repair the actual sewer line or replace the broken sump pump itself is not covered under this form. This endorsement only addresses the damage caused by the escaping water.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide water back-up only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

HIRED AND NON-OWNED AUTO LIABILITY

This endorsement expands the liability protections to encompass bodily injury or property damage arising out of the maintenance or use of a hired auto by the insured at Location 001, Building 001. A hired auto is defined as any motor vehicle leased, hired, rented, or borrowed by the named insured for business purposes.

The scope of hired vehicles does not include autos leased, hired, rented, or borrowed from any employee, partner, or member of the insured's household. Those specific scenarios are addressed under the non-owned auto provisions.

Non-owned auto protection applies to vehicles that the insured does not own, lease, hire, rent, or borrow, but that are used in connection with the business. This primarily covers employee vehicles on company business, such as a staff member using their personal car to run a bank errand.

Adjudicated liability parameters dictate that we will only issue settlement funds when formal civil judgments are assessed against the insured, or when a negotiated settlement is reached with our explicit consent. We hold the authority and obligation to manage legal representation for any covered suit.

The valuation for this endorsement is established as a Liability Limit. The absolute ceiling of our financial obligation for any single accident is \$275,000, regardless of the number of vehicles involved or the number of claimants.

A \$10,000 deductible applies to property damage claims under this form. The insured is responsible for this initial amount before we disburse funds to repair a third party's property. There is typically no deductible applied to bodily injury settlements.

The 80% coinsurance entry shown in the schedule does not apply to this liability coverage. Liability limits are absolute and are not subject to proportional property valuations.

This coverage functions on an excess basis over any primary auto insurance attached to the vehicle itself. For example, if an employee causes an accident in their personal car, their personal auto policy must respond first. This endorsement only activates if the primary limits are exhausted.

We strictly exclude physical damage to the hired or non-owned auto itself. This endorsement only protects the insured against claims made by third parties for bodily injury or damage to other property.

The business income basis of Actual Loss Sustained is irrelevant to this liability form, as it does not provide first-party property or income protection.

Autos used for the transportation of hazardous materials or for commercial delivery services are excluded unless specifically declared and rated in the underwriting process.

The insured must immediately forward any legal summons, demands, or notices related to an auto accident to our claims department. Delaying notification prejudices our ability to investigate and defend the action.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide hired and non-owned auto only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

EQUIPMENT BREAKDOWN PARAMETERS

This section provides specialized protection for mechanical failure events affecting the machinery at Location 002, Building 002. A breakdown is defined as a sudden and accidental internal failure of the equipment that manifests as physical damage and necessitates immediate repair or replacement.

Covered equipment includes pressure vessels, boilers, electrical distribution panels, and complex mechanical apparatus used in the insured's operations. Standard wear and tear, gradual deterioration, and routine maintenance issues do not qualify as sudden mechanical failure events.

In the event of a qualifying breakdown, we will reimburse the diagnostic costs required to identify the source of the failure. This includes the labor of specialized technicians and the use of testing equipment, provided the failure itself is covered under this form.

Protection is extended to include spoilage of perishable goods resulting from the breakdown of refrigeration or climate control equipment. The spoilage must be a direct consequence of the mechanical failure and not due to external power grid interruptions unless specifically endorsed.

Utility interruption resulting from a breakdown of equipment owned by a public or private utility company is addressed here. The interruption must exceed a specified waiting period, typically 24 hours, before the business income implications are considered for reimbursement.

The valuation for damaged equipment is Replacement Cost. We will fund the installation of new equipment of comparable capacity and efficiency. If technological advancements render exact replacement impossible, we will cover the cost of the modern equivalent.

The Agreed Value provision supersedes standard coinsurance requirements for this specific coverage. As long as the scheduled limit is maintained, no proportional penalties will be applied to the settlement of mechanical failure claims.

A \$10,000 deductible applies to each breakdown occurrence. If multiple pieces of equipment fail simultaneously due to a single underlying cause, such as a localized electrical surge within the building, it will be treated as one occurrence subject to a single retention.

The liability cap for this coverage is \$125,000. This ceiling applies to the aggregate of all costs associated with a single breakdown, including the equipment repair, diagnostic fees, spoilage, and any resulting business income deficits.

The business income basis for this form includes Ordinary Payroll for 90 Days. This ensures that essential staff can be retained during the downtime caused by the mechanical failure, up to the specified duration.

The insured must maintain detailed maintenance logs and inspection records for all pressure systems and critical machinery. Failure to adhere to manufacturer-recommended service schedules may jeopardize the coverage if the lack of maintenance contributed to the breakdown.

We reserve the right to suspend this coverage immediately if our inspectors determine that any covered equipment is operating in a dangerous condition. Notice of suspension will be provided in writing and coverage will only be reinstated once the hazards are rectified.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide equipment breakdown only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

=====

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 001 BUILDING: 001 FORM REFERENCE: BPF 15 18

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.
5. If this endorsement conflicts with another state amendatory endorsement, the provision applicable to the described premises controls.
6. Notice periods, appraisal rights, cancellation terms, and suit limitation provisions apply only as amended for the state and policy period shown.
7. This endorsement must be read with the declarations, coverage form, forms schedule, and any endorsement naming the same location or coverage.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.
6. Premium shown for a single scheduled coverage does not change limits, deductibles, valuation terms, covered premises, or exclusions.
7. If the insured requests a change during the policy period, any resulting premium adjustment applies from the effective date shown on the endorsement or revised declarations page.
8. Audit correspondence, worksheets, and installment notices are part of policy administration records and should be retained with this packet.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

OUTDOOR PROPERTY CONDITIONS

This extension broadens the policy to include specific items located outside the primary structure at Location 001, Building 002. The protection is explicitly limited to signs, fences, antennas, satellite dishes, and detached retaining walls situated within the premises boundaries.

Trees, shrubs, and plants are also incorporated into this form, provided they are not held for sale as inventory. The coverage for landscaping elements is generally restricted to specific perils, such as fire, lightning, explosion, or civil commotion.

Debris removal associated with the covered outdoor property is included. If a qualifying event destroys a fence and scatters the materials, the cost to clear the wreckage from the site is factored into the settlement for this extension.

The spatial limitation is strictly defined by the legal premises boundaries outlined in the declarations. Items located on adjacent public sidewalks or neighboring lots are entirely excluded from this protection.

VALUATION FOR THE OUTDOOR ELEMENTS IS BASED ON REPLACEMENT COST. WE WILL FUND THE INSTALLATION OF NEW SIGNS OR FENCES OF COMPARABLE MATERIAL AND QUALITY. DEPRECIATION WILL NOT BE FACTORED INTO THE FINAL ADJUSTMENT.

A \$1,000 deductible applies to each occurrence impacting the outdoor property. This retention is separate from the primary building deductible and must be absorbed before any funds are released for the exterior items.

The liability cap for this extension is \$200,000. This represents the absolute ceiling of our financial obligation for all outdoor property combined at this location, including any associated debris removal costs.

The Agreed Value provision ensures that no coinsurance penalties will be levied against the outdoor property settlement. The scheduled limit is accepted as sufficient for the exposures described.

Weather limitations are strictly enforced. We do not provide reimbursement for damage to fences, antennas, or signs caused by the weight of ice, snow, or sleet. Windstorm and hail damage to trees and shrubs is similarly excluded.

Damage resulting from vehicles owned or operated by the insured is not covered. If an employee accidentally backs a company truck into the premises sign, the resulting structural impairment is excluded under this specific form.

The insured must maintain the outdoor property in a state of good repair. Rotting fences or structurally compromised signs that fail under normal environmental conditions do not constitute a sudden accidental destruction.

If a single event damages both the primary building and the outdoor property, the respective limits and deductibles will be applied independently based on the specific items affected.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide outdoor property only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

WATER BACK-UP AND OVERFLOW PROVISIONS

This endorsement modifies the standard exclusions to provide protection against damage caused by water that backs up or overflows from a sewer, drain, or sump at Location 002, Building 002. The incident must originate from within the plumbing infrastructure or the immediate drainage system of the premises.

Sump pump failure is explicitly addressed. If the mechanical failure of a sump pump or its related equipment results in the overflow of water into the building, the resulting tangible structural impairment is covered under this form.

Drain reversal caused by municipal sewer system blockages is also included. If off-premises infrastructure issues force water back through the insured's lateral lines and into the building, the ensuing damage qualifies for reimbursement.

The insured has strict mitigation duties following a backup event. Immediate action must be taken to extract the standing water, remove saturated materials, and initiate drying procedures to prevent the development of mold or secondary rot.

The valuation for this coverage operates on a Scheduled Limit basis. The maximum available reimbursement for all damage and cleanup costs associated with a backup event is capped at \$235,000.

A \$1,000 deductible applies specifically to this water backup protection. This retention must be satisfied before any funds are disbursed for water extraction, structural repairs, or damaged personal property.

The Agreed Value provision applies, meaning no coinsurance calculations will reduce the settlement. The scheduled limit is the sole determining factor for the maximum payout.

We strictly exclude flood events from this coverage. Surface water, waves, tidal water, and the overflow of any body of water are not considered sewer backups, even if the floodwaters enter the building through the drains.

Damage caused by the insured's failure to perform routine maintenance on the sump pump or drainage lines is not covered. The system must be kept in good working order to qualify for this protection.

Business income deficits resulting from a water backup event are included within the \$235,000 limit, subject to the Ordinary Payroll 90 Days parameter. The downtime must be a direct result of the water damage or the necessary cleanup efforts.

If the backup is caused by an item intentionally introduced into the plumbing system by the insured or their employees, such as industrial

waste or inappropriate solid materials, the resulting claim will be denied.

The cost to repair the actual sewer line or replace the broken sump pump itself is not covered under this form. This endorsement only addresses the damage caused by the escaping water.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide water back-up only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

=====

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 001 BUILDING: 002 FORM REFERENCE: BPF 14 19

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.
5. If this endorsement conflicts with another state amendatory endorsement, the provision applicable to the described premises controls.
6. Notice periods, appraisal rights, cancellation terms, and suit limitation provisions apply only as amended for the state and policy period shown.
7. This endorsement must be read with the declarations, coverage form, forms schedule, and any endorsement naming the same location or coverage.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

ORDINARY PAYROLL DURATION LIMIT

This endorsement modifies the Business Income and Extra Expense provisions applicable to Location 002, Building 002. It establishes specific parameters regarding the reimbursement of employee compensation during a period of restoration.

The definition of ordinary payroll encompasses the payroll expenses for all employees of the insured, except those specifically designated as exempt. It includes wages, salaries, union dues paid by the employer, workers compensation premiums, and standard employee benefits.

This form enforces a strict 90-day maximum duration for the reimbursement of ordinary payroll. We will only cover these expenses for the first 90 days following the qualifying destructive event, regardless of how long the actual period of restoration lasts.

Excluded executive compensation is not subject to this 90-day limitation. The salaries of officers, executives, department managers, and employees under contract are considered essential continuing expenses and are covered for the entirety of the restoration period.

The valuation for this specific limitation is set at \$100,000. This figure represents the maximum available reimbursement for ordinary payroll within the 90-day window. It is a sublimit contained within the broader business income limit, not an additional amount of insurance.

A \$10,000 deductible applies to the overall business income claim, which includes the ordinary payroll calculations. The retention is applied to the total calculated deficit before the sublimits are enforced.

The 90% coinsurance requirement remains active. The insured must ensure that their overall business income limit accurately reflects their projected annual revenue and continuing expenses, including the 90 days of ordinary payroll.

Substantiation requirements are rigorous. The insured must provide detailed payroll registries, tax filings, and timecards to prove that the claimed employees were retained and compensated during the downtime.

If the insured chooses to terminate employees rather than retain them during the restoration period, the ordinary payroll coverage will only reimburse the actual wages paid up to the date of termination, plus any legally required severance.

The 90-day period begins concurrently with the period of restoration, immediately following the expiration of the standard 72-hour waiting period.

This limitation is designed to allow the business to retain its core workforce during short-term disruptions while preventing excessive financial drain on the policy limits during prolonged rebuilding efforts.

Any payroll expenses incurred after the 90th day must be borne entirely by the insured, even if the business remains completely non-operational.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide ordinary payroll limitation only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

BUILDING COVERAGE PROVISIONS

This section outlines the parameters for tangible structural impairment to the scheduled edifice at Location 001, Building 001. The protection extends to completed additions, permanently installed fixtures, and machinery integrated into the building infrastructure. Glass that forms part of the exterior walls is also included within this scope.

Personal property owned by the insured that is used to maintain or service the premises falls under this category. This includes fire extinguishing equipment, outdoor furniture, floor coverings, and appliances used for refrigerating, ventilating, or dishwashing. These items are considered part of the building limit.

Materials, equipment, and supplies located within 100 feet of the described premises, intended for use in alterations or repairs to the building, are incorporated into this protection. The spatial limitation is strictly enforced based on the property boundaries defined in the declarations.

Settlement relies on contemporary construction pricing, subject to the Replacement Cost valuation method noted in the schedules. This means depreciation is not deducted from the settlement amount, provided the repairs are actually completed within a reasonable timeframe.

If the insured elects not to repair or replace the damaged structure, the settlement will revert to the actual cash value of the property at the time of the incident. The insured may initially submit a claim on an actual cash value basis and later amend it to replacement cost once reconstruction commences.

A \$1,000 retention applies before any funds are disbursed. This deductible is subtracted from the total adjusted loss amount, not from the policy limit. If a single incident impacts multiple coverages with different deductibles, only the highest applicable deductible will be enforced.

The maximum available reimbursement for this specific structure is capped at \$60,000. This figure represents the absolute ceiling of our financial obligation for any single event affecting Building 001. Costs associated with debris removal may provide a slight extension beyond this cap under specific conditions.

The insured must maintain limits equal to at least 80% of the total asset value at the time of the incident to satisfy the coinsurance requirement. Failure to meet this threshold will result in a proportional reduction of the final settlement.

To calculate the coinsurance penalty, we divide the actual limit carried by the required limit, then multiply that fraction by the total loss amount. The deductible is subtracted after this penalty is applied. Maintaining accurate property valuations is the responsibility of the insured.

Certain exclusions apply to this building protection. We do not provide reimbursement for impairment caused by earth movement, including

earthquakes, landslides, or sinkholes, unless a specific endorsement is attached. Volcanic action exceptions are detailed in the subsequent exclusion section.

Damage resulting from governmental action, such as the seizure or destruction of property by order of public authority, is strictly excluded. Exceptions exist only if the destruction is ordered to prevent the spread of a fire that would otherwise be covered.

The insured is required to take all reasonable steps to protect the building from further harm following an initial incident. Expenses incurred for temporary repairs or emergency mitigation efforts are considered part of the overall claim and are subject to the \$60,000 limit.

SECTION I - PROPERTY

A. Coverage

We will pay for direct physical loss of or damage to Covered Property at the premises described in the Declarations caused by or resulting from a Covered Cause of Loss.

1. Covered Property

Covered Property includes Buildings as described under Paragraph a. below, Business Personal Property as described under Paragraph b. below, or both, depending on whether a Limit Of Insurance is shown in the Declarations.

- a. Buildings, meaning the buildings and structures at the described premises, including:
 - (1) Completed additions;
 - (2) Fixtures, including outdoor fixtures;
 - (3) Permanently installed machinery and equipment; and
 - (4) Personal property owned by you that is used to maintain or service the buildings or structures or the premises.
- b. Business Personal Property located in or on the buildings at the described premises, or in the open or in a vehicle within 100 feet of those premises, including:
 - (1) Property you own that is used in your business;
 - (2) Property of others that is in your care, custody or control, except as otherwise provided in this policy; and
 - (3) Tenant improvements and betterments made a part of a building or structure you occupy but do not own.

2. Property Not Covered

Covered Property does not include aircraft, watercraft, automobiles, money, securities, contraband, land, crops, lawns, outdoor fences, electronic data, or any property more specifically excluded by this form or by endorsement.

DATE OF ISSUE: 04/01/2026 (BPP)

FORM: BPF0467 ED. 04 24 BPP 04/01/2027 035 13 QB814260 2701

BUSINESS PERSONAL PROPERTY PROVISIONS

Protection is established for the inventory, equipment, and furnishings located at Location 002, Building 001. This encompasses items owned by the insured and utilized primarily for the business operations described in the classification schedules. Tenant's improvements and betterments are also included if the insured does not own the building.

Property of others that is in the insured's care, custody, or control is incorporated into this section. Our financial obligation for such property is limited to the extent of the insured's legal liability for the items, plus any contractual obligations assumed prior to the incident.

The protection extends to business personal property located in or on the described building, or in the open within 100 feet of the premises. Property situated beyond this perimeter is considered off-premises and is subject to separate, lower sublimits detailed in the extensions section.

VALUATION FOR THE ITEMS AT THIS LOCATION IS BASED ON REPLACEMENT COST. WE WILL DETERMINE THE COST TO REPLACE THE PROPERTY WITH NEW ITEMS OF COMPARABLE MATERIAL AND QUALITY, USED FOR THE SAME PURPOSE. ANTIQUE OR RARE ITEMS ARE NOT VALUED AT MARKET PRICE UNLESS SPECIFICALLY SCHEDULED.

A deductible of \$5,000 must be absorbed by the insured before any settlement funds are released. This retention is applied per occurrence, regardless of the number of individual items affected. The deductible ensures that minor, routine losses are managed directly by the policyholder.

The scheduled limit of \$75,000 serves as the maximum financial recovery available for the business personal property at this specific premises. Fluctuations in inventory levels throughout the year do not alter this static limit unless a peak season endorsement is active.

A 90% coinsurance provision governs this coverage. The insured is obligated to carry a limit that represents at least 90% of the total replacement value of all business personal property at the location. Deficiencies in this ratio will trigger a proportional settlement penalty.

We exclude reimbursement for missing property where the only proof of loss is an unexplained or mysterious disappearance. Inventory shortages discovered solely during routine physical counts are similarly excluded, as they lack a definitive qualifying destructive event.

Property undergoing processing or manufacturing is not protected against damage resulting directly from those operations. For example, materials ruined due to a flaw in the production machinery or human error during assembly are excluded from this coverage.

The insured must maintain accurate records of inventory, purchases, and sales. In the event of a claim, these documents are essential for substantiating the quantity and value of the affected items. Failure to produce adequate records may delay or compromise the settlement process.

SECTION I - PROPERTY

A. Coverage

We will pay for direct physical loss of or damage to Covered Property at the premises described in the Declarations caused by or resulting from a Covered Cause of Loss.

1. Covered Property

Covered Property includes Buildings as described under Paragraph a. below, Business Personal Property as described under Paragraph b. below, or both, depending on whether a Limit Of Insurance is shown in the Declarations.

- a. Buildings, meaning the buildings and structures at the described premises, including:
 - (1) Completed additions;
 - (2) Fixtures, including outdoor fixtures;
 - (3) Permanently installed machinery and equipment; and
 - (4) Personal property owned by you that is used to maintain or service the buildings or structures or the premises.
- b. Business Personal Property located in or on the buildings at the described premises, or in the open or in a vehicle within 100 feet of those premises, including:
 - (1) Property you own that is used in your business;
 - (2) Property of others that is in your care, custody or control, except as otherwise provided in this policy; and
 - (3) Tenant improvements and betterments made a part of a building or structure you occupy but do not own.

2. Property Not Covered

Covered Property does not include aircraft, watercraft, automobiles, money, securities, contraband, land, crops, lawns, outdoor fences, electronic data, or any property more specifically excluded by this form or by endorsement.

3. Covered Causes Of Loss

Direct physical loss is covered unless the loss is excluded or limited in this Coverage Form or in an endorsement attached to this policy.

INCOME INTERRUPTION AND EXPENSE CONDITIONS

This form addresses the financial impact of a suspended operation at Location 001, Building 002. The suspension must be caused by a qualifying destructive event that results in tangible structural impairment to the described premises. The interruption of business activities must be necessary and unavoidable.

Reimbursement is calculated based on the net income that would have been earned or incurred, plus continuing normal operating expenses. This includes payroll expenses, subject to any limitations explicitly stated in the declarations. The goal is to maintain the business's financial position as if no incident occurred.

Extra expense protection is included to cover necessary costs incurred during the period of restoration that would not have been incurred otherwise. These funds are intended to avoid or minimize the suspension of business and to continue operations at the described premises or a temporary location.

The period of restoration begins 72 hours after the time of the initial incident. This waiting period functions as a time-based deductible for the business income portion of the claim. Extra expense coverage, however, begins immediately upon the occurrence of the incident.

The restoration period concludes when the premises should be repaired, rebuilt, or replaced with reasonable speed and similar quality. It is not tied to the actual completion date if the insured unnecessarily delays the reconstruction process. Relocation to a new permanent site also terminates the period.

VALUATION IS DETERMINED ON AN ACTUAL LOSS SUSTAINED BASIS. WE WILL REVIEW HISTORICAL FINANCIAL RECORDS, TAX RETURNS, AND PROJECTED REVENUE TRENDS TO CALCULATE THE PRECISE DEFICIT. SPECULATIVE FUTURE CONTRACTS OR UNPROVEN BUSINESS EXPANSIONS ARE EXCLUDED FROM THE CALCULATION.

The maximum available reimbursement for this combined coverage is \$125,000. This limit applies to the total of both business income deficits and extra expenses incurred during the entire period of restoration. It is not an annual aggregate, but a per-occurrence cap.

An 80% coinsurance requirement applies to the business income calculation. The insured must carry a limit equal to at least 80% of the projected net income and operating expenses for the 12 months following the inception of the policy. Penalties apply if the limit is insufficient.

A monetary deductible of \$10,000 is also scheduled for this coverage. This amount is subtracted from the final calculated loss after the 72-hour waiting period has been applied. The dual application of time and monetary deductibles requires careful accounting during the claim process.

The insured is obligated to resume operations, either partially or entirely, as quickly as possible. Any reduction in the business income loss

achieved through partial resumption of operations will be factored into the final settlement. Mitigation is a strict requirement of this policy.

We do not provide reimbursement for income lost due to the suspension, lapse, or cancellation of any license, lease, or contract. Even if the suspension is a direct result of the qualifying destructive event, the consequential loss of the contract is excluded.

Detailed financial documentation must be submitted to substantiate the claim. This includes profit and loss statements, payroll registries, and utility bills. We retain the right to audit these records and employ forensic accountants to verify the submitted figures.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide business income and extra expense only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- The scheduled coverage, premises reference, form number and effective date must be read together.
- A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

EQUIPMENT BREAKDOWN PARAMETERS

This section provides specialized protection for mechanical failure events affecting the machinery at Location 002, Building 002. A breakdown is defined as a sudden and accidental internal failure of the equipment that manifests as physical damage and necessitates immediate repair or replacement.

Covered equipment includes pressure vessels, boilers, electrical distribution panels, and complex mechanical apparatus used in the insured's operations. Standard wear and tear, gradual deterioration, and routine maintenance issues do not qualify as sudden mechanical failure events.

In the event of a qualifying breakdown, we will reimburse the diagnostic costs required to identify the source of the failure. This includes the labor of specialized technicians and the use of testing equipment, provided the failure itself is covered under this form.

Protection is extended to include spoilage of perishable goods resulting from the breakdown of refrigeration or climate control equipment. The spoilage must be a direct consequence of the mechanical failure and not due to external power grid interruptions unless specifically endorsed.

Utility interruption resulting from a breakdown of equipment owned by a public or private utility company is addressed here. The interruption must exceed a specified waiting period, typically 24 hours, before the business income implications are considered for reimbursement.

The valuation for damaged equipment is Replacement Cost. We will fund the installation of new equipment of comparable capacity and efficiency. If technological advancements render exact replacement impossible, we will cover the cost of the modern equivalent.

The Agreed Value provision supersedes standard coinsurance requirements for this specific coverage. As long as the scheduled limit is maintained, no proportional penalties will be applied to the settlement of mechanical failure claims.

A \$10,000 deductible applies to each breakdown occurrence. If multiple pieces of equipment fail simultaneously due to a single underlying cause, such as a localized electrical surge within the building, it will be treated as one occurrence subject to a single retention.

The liability cap for this coverage is \$125,000. This ceiling applies to the aggregate of all costs associated with a single breakdown, including the equipment repair, diagnostic fees, spoilage, and any resulting business income deficits.

The business income basis for this form includes Ordinary Payroll for 90 Days. This ensures that essential staff can be retained during the downtime caused by the mechanical failure, up to the specified duration.

The insured must maintain detailed maintenance logs and inspection records for all pressure systems and critical machinery. Failure to adhere to manufacturer-recommended service schedules may jeopardize the coverage if the lack of maintenance contributed to the breakdown.

We reserve the right to suspend this coverage immediately if our inspectors determine that any covered equipment is operating in a dangerous condition. Notice of suspension will be provided in writing and coverage will only be reinstated once the hazards are rectified.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide equipment breakdown only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

NAMED INSURED: Pinecrest Print Cooperative, LLC
SCHEDULED COVERAGE: Employee Dishonesty
LOCATION: 001 BUILDING: 001 SCHEDULED PREMIUM: \$387

PREMIUM CONDITIONS

1. Premium shown in this policy is an estimate unless the declarations or premium schedule states that the premium is fully earned or not auditable.
2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.
6. Premium shown for a single scheduled coverage does not change limits, deductibles, valuation terms, covered premises, or exclusions.
7. If the insured requests a change during the policy period, any resulting premium adjustment applies from the effective date shown on the endorsement or revised declarations page.
8. Audit correspondence, worksheets, and installment notices are part of policy administration records and should be retained with this packet.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

ACCOUNTS RECEIVABLE PARAMETERS

This form provides financial protection in the event that the insured's accounts receivable records at Location 002, Building 001 are destroyed by a qualifying destructive event. The primary intent is to reimburse the business for sums that cannot be collected from customers due to the loss of these records.

The coverage includes the expenses associated with the reconstruction of records. If the insured must hire temporary clerical staff or utilize specialized data recovery services to rebuild the ledger, those reasonable costs are factored into the settlement.

Collection expense is also addressed. If the destruction of the original records necessitates the use of third-party collection agencies or legal interventions that would not have been required otherwise, the increased costs of collection are reimbursable.

Interest charges on loans required to offset the uncollectible amounts pending the claim settlement are covered. The loan must be strictly necessary to maintain the business's cash flow during the reconstruction period.

The valuation is established as a Scheduled Limit. The maximum available reimbursement for all uncollectible accounts, reconstruction expenses, and collection fees combined is capped at \$175,000 for this specific premises.

A low deductible of \$500 applies to this coverage. This minimal retention recognizes the administrative burden placed on the insured when vital financial data is compromised, allowing for swift access to recovery funds.

The Agreed Value provision waives the standard coinsurance penalty. The insured is not required to prove that the \$175,000 limit represents a specific percentage of their total outstanding receivables at the time of the incident.

The insured must store duplicate invoices and backup data in a separate, secure location. If the declarations require the use of fire-resistant receptacles, the records must be kept in those receptacles when the premises are not open for business.

We strictly exclude losses resulting from bookkeeping errors, accounting omissions, or routine billing mistakes. The deficit must stem directly from the physical destruction or impairment of the records themselves.

Alteration or falsification of records to conceal a previous deficit is not covered. If an employee destroys the ledger to hide embezzlement, the loss falls under employee dishonesty, not accounts receivable protection.

To determine the amount uncollectible, we will analyze the historical collection trends of the business. We will look at the average monthly receivables for the twelve months preceding the incident and adjust for normal seasonal fluctuations.

Once a settlement has been issued, any subsequent funds collected by the insured on the affected accounts must be surrendered to Cobalt Pine Indemnity, up to the total amount of the claim payout.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide accounts receivable only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

OUTDOOR PROPERTY CONDITIONS

This extension broadens the policy to include specific items located outside the primary structure at Location 001, Building 002. The protection is explicitly limited to signs, fences, antennas, satellite dishes, and detached retaining walls situated within the premises boundaries.

Trees, shrubs, and plants are also incorporated into this form, provided they are not held for sale as inventory. The coverage for landscaping elements is generally restricted to specific perils, such as fire, lightning, explosion, or civil commotion.

Debris removal associated with the covered outdoor property is included. If a qualifying event destroys a fence and scatters the materials, the cost to clear the wreckage from the site is factored into the settlement for this extension.

The spatial limitation is strictly defined by the legal premises boundaries outlined in the declarations. Items located on adjacent public sidewalks or neighboring lots are entirely excluded from this protection.

VALUATION FOR THE OUTDOOR ELEMENTS IS BASED ON REPLACEMENT COST. WE WILL FUND THE INSTALLATION OF NEW SIGNS OR FENCES OF COMPARABLE MATERIAL AND QUALITY. DEPRECIATION WILL NOT BE FACTORED INTO THE FINAL ADJUSTMENT.

A \$1,000 deductible applies to each occurrence impacting the outdoor property. This retention is separate from the primary building deductible and must be absorbed before any funds are released for the exterior items.

The liability cap for this extension is \$200,000. This represents the absolute ceiling of our financial obligation for all outdoor property combined at this location, including any associated debris removal costs.

The Agreed Value provision ensures that no coinsurance penalties will be levied against the outdoor property settlement. The scheduled limit is accepted as sufficient for the exposures described.

Weather limitations are strictly enforced. We do not provide reimbursement for damage to fences, antennas, or signs caused by the weight of ice, snow, or sleet. Windstorm and hail damage to trees and shrubs is similarly excluded.

Damage resulting from vehicles owned or operated by the insured is not covered. If an employee accidentally backs a company truck into the premises sign, the resulting structural impairment is excluded under this specific form.

The insured must maintain the outdoor property in a state of good repair. Rotting fences or structurally compromised signs that fail under normal environmental conditions do not constitute a sudden accidental destruction.

If a single event damages both the primary building and the outdoor property, the respective limits and deductibles will be applied independently based on the specific items affected.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide outdoor property only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

WATER BACK-UP AND OVERFLOW PROVISIONS

This endorsement modifies the standard exclusions to provide protection against damage caused by water that backs up or overflows from a sewer, drain, or sump at Location 002, Building 002. The incident must originate from within the plumbing infrastructure or the immediate drainage system of the premises.

Sump pump failure is explicitly addressed. If the mechanical failure of a sump pump or its related equipment results in the overflow of water into the building, the resulting tangible structural impairment is covered under this form.

Drain reversal caused by municipal sewer system blockages is also included. If off-premises infrastructure issues force water back through the insured's lateral lines and into the building, the ensuing damage qualifies for reimbursement.

The insured has strict mitigation duties following a backup event. Immediate action must be taken to extract the standing water, remove saturated materials, and initiate drying procedures to prevent the development of mold or secondary rot.

The valuation for this coverage operates on a Scheduled Limit basis. The maximum available reimbursement for all damage and cleanup costs associated with a backup event is capped at \$235,000.

A \$1,000 deductible applies specifically to this water backup protection. This retention must be satisfied before any funds are disbursed for water extraction, structural repairs, or damaged personal property.

The Agreed Value provision applies, meaning no coinsurance calculations will reduce the settlement. The scheduled limit is the sole determining factor for the maximum payout.

We strictly exclude flood events from this coverage. Surface water, waves, tidal water, and the overflow of any body of water are not considered sewer backups, even if the floodwaters enter the building through the drains.

Damage caused by the insured's failure to perform routine maintenance on the sump pump or drainage lines is not covered. The system must be kept in good working order to qualify for this protection.

Business income deficits resulting from a water backup event are included within the \$235,000 limit, subject to the Ordinary Payroll 90 Days parameter. The downtime must be a direct result of the water damage or the necessary cleanup efforts.

If the backup is caused by an item intentionally introduced into the plumbing system by the insured or their employees, such as industrial

waste or inappropriate solid materials, the resulting claim will be denied.

The cost to repair the actual sewer line or replace the broken sump pump itself is not covered under this form. This endorsement only addresses the damage caused by the escaping water.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide water back-up only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

PREMIUM CONDITIONS

1. Premium shown in this policy is an estimate unless the declarations or premium schedule states that the premium is fully earned or not auditable.
2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.
6. Premium shown for a single scheduled coverage does not change limits, deductibles, valuation terms, covered premises, or exclusions.
7. If the insured requests a change during the policy period, any resulting premium adjustment applies from the effective date shown on the endorsement or revised declarations page.
8. Audit correspondence, worksheets, and installment notices are part of policy administration records and should be retained with this packet.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

CONTRACTUAL ADDITIONAL INSURED STATUS

This endorsement amends the liability section to include as an insured any person or organization for whom you are performing operations at Location 002, Building 001, provided that a written contract requires such inclusion. The contractual requirement triggers the status automatically, without the need for a separate schedule.

The scope of the granted status is strictly limited. The additional insured is only protected with respect to liability for bodily injury or property damage caused, in whole or in part, by your acts or omissions, or the acts or omissions of those acting on your behalf.

We do not provide protection for the independent negligence of the additional insured. If the third party is solely responsible for the incident giving rise to the claim, this endorsement offers them no financial shelter.

A completed operations exclusion applies to this grant. The additional insured status terminates when your operations for that party are finished, or when the portion of the project you were working on has been put to its intended use.

The valuation is defined as a Status Grant, subject to the overall liability limits of the policy. The maximum available reimbursement for claims involving the additional insured is capped at \$300,000 per occurrence.

A \$5,000 deductible applies to property damage claims brought under this endorsement. The named insured is responsible for satisfying this retention before any settlement funds are issued on behalf of the additional insured.

The 80% coinsurance and Ordinary Payroll 90 Days entries shown in the schedule are property and income metrics; they do not impact the liability protections afforded by this contractual endorsement.

Defense expense handling is managed within the terms of the primary policy. We retain the prerogative to appoint counsel and direct the defense of the additional insured, provided the allegations fall within the scope of this grant.

If the written contract requires this insurance to be primary and non-contributory, we will not seek contribution from any other insurance available to the additional insured, provided the injury or damage is caused by your operations.

The written agreement requiring this status must be executed prior to the occurrence of the bodily injury or property damage. Retroactive contracts signed after an incident will not trigger the protections of this form.

This endorsement does not alter the fundamental exclusions of the liability policy. If an exposure is excluded for the named insured, it remains excluded for the additional insured.

The named insured must provide copies of the relevant contracts upon our request during the claim investigation process to verify the legitimacy of the additional insured's status.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide additional insured by contract only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

ORDINARY PAYROLL DURATION LIMIT

This endorsement modifies the Business Income and Extra Expense provisions applicable to Location 002, Building 002. It establishes specific parameters regarding the reimbursement of employee compensation during a period of restoration.

The definition of ordinary payroll encompasses the payroll expenses for all employees of the insured, except those specifically designated as exempt. It includes wages, salaries, union dues paid by the employer, workers compensation premiums, and standard employee benefits.

This form enforces a strict 90-day maximum duration for the reimbursement of ordinary payroll. We will only cover these expenses for the first 90 days following the qualifying destructive event, regardless of how long the actual period of restoration lasts.

Excluded executive compensation is not subject to this 90-day limitation. The salaries of officers, executives, department managers, and employees under contract are considered essential continuing expenses and are covered for the entirety of the restoration period.

The valuation for this specific limitation is set at \$100,000. This figure represents the maximum available reimbursement for ordinary payroll within the 90-day window. It is a sublimit contained within the broader business income limit, not an additional amount of insurance.

A \$10,000 deductible applies to the overall business income claim, which includes the ordinary payroll calculations. The retention is applied to the total calculated deficit before the sublimits are enforced.

The 90% coinsurance requirement remains active. The insured must ensure that their overall business income limit accurately reflects their projected annual revenue and continuing expenses, including the 90 days of ordinary payroll.

Substantiation requirements are rigorous. The insured must provide detailed payroll registries, tax filings, and timecards to prove that the claimed employees were retained and compensated during the downtime.

If the insured chooses to terminate employees rather than retain them during the restoration period, the ordinary payroll coverage will only reimburse the actual wages paid up to the date of termination, plus any legally required severance.

The 90-day period begins concurrently with the period of restoration, immediately following the expiration of the standard 72-hour waiting period.

This limitation is designed to allow the business to retain its core workforce during short-term disruptions while preventing excessive financial drain on the policy limits during prolonged rebuilding efforts.

Any payroll expenses incurred after the 90th day must be borne entirely by the insured, even if the business remains completely non-operational.

SECTION I - SCHEDULED COVERAGE

A. Coverage Grant

We will provide ordinary payroll limitation only to the extent the coverage is shown in the Declarations or schedules and is not excluded or limited by this form.

- a. The scheduled coverage, premises reference, form number and effective date must be read together.
- b. A coverage summary, certificate, invoice or producer request does not broaden coverage or change the applicable limit.

B. Limits And Deductibles

The most we will pay is the applicable limit shown for the scheduled coverage. A sublimit shown in this form or an endorsement is part of, and does not increase, that limit.

- a. The deductible applies separately to each covered loss unless the Declarations or endorsement states another method.
- b. If more than one deductible could apply, the more specific deductible for the affected cause of loss or premises controls.

C. Conditions

You must maintain records supporting values, occupancy, payroll, sales, contracts, leases, equipment, operations and other rating information used to issue this form.

At our request, you must allow inspection of the described premises and must provide books and records needed for audit, claim review or policy correction.

D. Valuation And Period Of Coverage

Valuation, waiting periods, restoration periods and other time-based provisions are determined by the Declarations and by the schedule that names this form.

If the Declarations show a valuation basis or time period for the scheduled coverage, that entry applies only to the premises to which the form is attached.

SECTION II - EXCLUSIONS AND LIMITATIONS

BUILDING COVERAGE PROVISIONS

This section outlines the parameters for tangible structural impairment to the scheduled edifice at Location 001, Building 001. The protection extends to completed additions, permanently installed fixtures, and machinery integrated into the building infrastructure. Glass that forms part of the exterior walls is also included within this scope.

Personal property owned by the insured that is used to maintain or service the premises falls under this category. This includes fire extinguishing equipment, outdoor furniture, floor coverings, and appliances used for refrigerating, ventilating, or dishwashing. These items are considered part of the building limit.

Materials, equipment, and supplies located within 100 feet of the described premises, intended for use in alterations or repairs to the building, are incorporated into this protection. The spatial limitation is strictly enforced based on the property boundaries defined in the declarations.

Settlement relies on contemporary construction pricing, subject to the Replacement Cost valuation method noted in the schedules. This means depreciation is not deducted from the settlement amount, provided the repairs are actually completed within a reasonable timeframe.

If the insured elects not to repair or replace the damaged structure, the settlement will revert to the actual cash value of the property at the time of the incident. The insured may initially submit a claim on an actual cash value basis and later amend it to replacement cost once reconstruction commences.

A \$1,000 retention applies before any funds are disbursed. This deductible is subtracted from the total adjusted loss amount, not from the policy limit. If a single incident impacts multiple coverages with different deductibles, only the highest applicable deductible will be enforced.

The maximum available reimbursement for this specific structure is capped at \$60,000. This figure represents the absolute ceiling of our financial obligation for any single event affecting Building 001. Costs associated with debris removal may provide a slight extension beyond this cap under specific conditions.

The insured must maintain limits equal to at least 80% of the total asset value at the time of the incident to satisfy the coinsurance requirement. Failure to meet this threshold will result in a proportional reduction of the final settlement.

To calculate the coinsurance penalty, we divide the actual limit carried by the required limit, then multiply that fraction by the total loss amount. The deductible is subtracted after this penalty is applied. Maintaining accurate property valuations is the responsibility of the insured.

Certain exclusions apply to this building protection. We do not provide reimbursement for impairment caused by earth movement, including

earthquakes, landslides, or sinkholes, unless a specific endorsement is attached. Volcanic action exceptions are detailed in the subsequent exclusion section.

Damage resulting from governmental action, such as the seizure or destruction of property by order of public authority, is strictly excluded. Exceptions exist only if the destruction is ordered to prevent the spread of a fire that would otherwise be covered.

The insured is required to take all reasonable steps to protect the building from further harm following an initial incident. Expenses incurred for temporary repairs or emergency mitigation efforts are considered part of the overall claim and are subject to the \$60,000 limit.

SECTION I - PROPERTY

A. Coverage

We will pay for direct physical loss of or damage to Covered Property at the premises described in the Declarations caused by or resulting from a Covered Cause of Loss.

1. Covered Property

Covered Property includes Buildings as described under Paragraph a. below, Business Personal Property as described under Paragraph b. below, or both, depending on whether a Limit Of Insurance is shown in the Declarations.

- a. Buildings, meaning the buildings and structures at the described premises, including:
 - (1) Completed additions;
 - (2) Fixtures, including outdoor fixtures;
 - (3) Permanently installed machinery and equipment; and
 - (4) Personal property owned by you that is used to maintain or service the buildings or structures or the premises.
- b. Business Personal Property located in or on the buildings at the described premises, or in the open or in a vehicle within 100 feet of those premises, including:
 - (1) Property you own that is used in your business;
 - (2) Property of others that is in your care, custody or control, except as otherwise provided in this policy; and
 - (3) Tenant improvements and betterments made a part of a building or structure you occupy but do not own.

2. Property Not Covered

Covered Property does not include aircraft, watercraft, automobiles, money, securities, contraband, land, crops, lawns, outdoor fences, electronic data, or any property more specifically excluded by this form or by endorsement.

BUSINESS PERSONAL PROPERTY PROVISIONS

Protection is established for the inventory, equipment, and furnishings located at Location 002, Building 001. This encompasses items owned by the insured and utilized primarily for the business operations described in the classification schedules. Tenant's improvements and betterments are also included if the insured does not own the building.

Property of others that is in the insured's care, custody, or control is incorporated into this section. Our financial obligation for such property is limited to the extent of the insured's legal liability for the items, plus any contractual obligations assumed prior to the incident.

The protection extends to business personal property located in or on the described building, or in the open within 100 feet of the premises. Property situated beyond this perimeter is considered off-premises and is subject to separate, lower sublimits detailed in the extensions section.

VALUATION FOR THE ITEMS AT THIS LOCATION IS BASED ON REPLACEMENT COST. WE WILL DETERMINE THE COST TO REPLACE THE PROPERTY WITH NEW ITEMS OF COMPARABLE MATERIAL AND QUALITY, USED FOR THE SAME PURPOSE. ANTIQUE OR RARE ITEMS ARE NOT VALUED AT MARKET PRICE UNLESS SPECIFICALLY SCHEDULED.

A deductible of \$5,000 must be absorbed by the insured before any settlement funds are released. This retention is applied per occurrence, regardless of the number of individual items affected. The deductible ensures that minor, routine losses are managed directly by the policyholder.

The scheduled limit of \$75,000 serves as the maximum financial recovery available for the business personal property at this specific premises. Fluctuations in inventory levels throughout the year do not alter this static limit unless a peak season endorsement is active.

A 90% coinsurance provision governs this coverage. The insured is obligated to carry a limit that represents at least 90% of the total replacement value of all business personal property at the location. Deficiencies in this ratio will trigger a proportional settlement penalty.

We exclude reimbursement for missing property where the only proof of loss is an unexplained or mysterious disappearance. Inventory shortages discovered solely during routine physical counts are similarly excluded, as they lack a definitive qualifying destructive event.

Property undergoing processing or manufacturing is not protected against damage resulting directly from those operations. For example, materials ruined due to a flaw in the production machinery or human error during assembly are excluded from this coverage.

The insured must maintain accurate records of inventory, purchases, and sales. In the event of a claim, these documents are essential for substantiating the quantity and value of the affected items. Failure to produce adequate records may delay or compromise the settlement process.

SECTION I - PROPERTY

A. Coverage

We will pay for direct physical loss of or damage to Covered Property at the premises described in the Declarations caused by or resulting from a Covered Cause of Loss.

1. Covered Property

Covered Property includes Buildings as described under Paragraph a. below, Business Personal Property as described under Paragraph b. below, or both, depending on whether a Limit Of Insurance is shown in the Declarations.

- a. Buildings, meaning the buildings and structures at the described premises, including:
 - (1) Completed additions;
 - (2) Fixtures, including outdoor fixtures;
 - (3) Permanently installed machinery and equipment; and
 - (4) Personal property owned by you that is used to maintain or service the buildings or structures or the premises.
- b. Business Personal Property located in or on the buildings at the described premises, or in the open or in a vehicle within 100 feet of those premises, including:
 - (1) Property you own that is used in your business;
 - (2) Property of others that is in your care, custody or control, except as otherwise provided in this policy; and
 - (3) Tenant improvements and betterments made a part of a building or structure you occupy but do not own.

2. Property Not Covered

Covered Property does not include aircraft, watercraft, automobiles, money, securities, contraband, land, crops, lawns, outdoor fences, electronic data, or any property more specifically excluded by this form or by endorsement.

3. Covered Causes Of Loss

Direct physical loss is covered unless the loss is excluded or limited in this Coverage Form or in an endorsement attached to this policy.

POLICY NUMBER: QB814260 BILLING METHOD: DIRECT BILL
NAMED INSURED: Pinecrest Print Cooperative, LLC
SCHEDULED COVERAGE: Business Income and Extra Expense
LOCATION: 001 BUILDING: 002 SCHEDULED PREMIUM: \$281

PREMIUM CONDITIONS

1. Premium shown in this policy is an estimate unless the declarations or premium schedule states that the premium is fully earned or not auditable.
2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.
6. Premium shown for a single scheduled coverage does not change limits, deductibles, valuation terms, covered premises, or exclusions.
7. If the insured requests a change during the policy period, any resulting premium adjustment applies from the effective date shown on the endorsement or revised declarations page.
8. Audit correspondence, worksheets, and installment notices are part of policy administration records and should be retained with this packet.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.
