Policy No. YW700400

ITEM WC-0002	STATE / CLASS CT / 8017
CLASSIFICATION Retail store - all employees	PAYROLL / RATE \$54,124 / 0.74
PREMIUM \$400	FORM WC 00 00 00 C 01 15

ARGENT BIRCH EMPLOYERS REQUIRES THE MAINTENANCE OF PRECISE PAYROLL RECORDS FOR ALL INDIVIDUALS ENGAGED BY BLUE KETTLE FOOD SERVICE, LLC. THIS NOTIFICATION SERVES AS A FORMAL REMINDER OF THE RECORDKEEPING OBLIGATIONS ESSENTIAL FOR THE FINAL PREMIUM DETERMINATION. ACCURATE DOCUMENTATION IS CRITICAL FOR THE PROPER ASSIGNMENT OF REMUNERATION TO THE SCHEDULED CLASSIFICATION CODES, INCLUDING 8810, 8017, 8742, AND 5190.

The required documentation includes, but is not limited to, state and federal tax summaries, individual employee earnings records, general ledgers, cash disbursement journals, and certificates of insurance for all independent contractors utilized during the policy period. The records must clearly indicate the specific duties performed by each individual and the state in which those duties were executed.

Particular attention must be given to the segregation of payroll for employees who perform duties that span multiple classification codes. The named insured must maintain verifiable daily time records detailing the hours dedicated to each specific occupational task. In the absence of such detailed records, the entire remuneration for the employee will be assigned to the highest-rated classification code applicable to their duties.

Failure to provide adequate documentation during the final audit may result in the application of penalty provisions, including the assignment of undocumented remuneration to the highest-rated classification code or the implementation of an audit noncompliance charge. The named insured must ensure that all relevant records are readily accessible for review by the carrier's audit personnel.

References to classification, remuneration, and rating basis include CT class code 8017 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

When a class code appears on multiple schedules, the state, item identifier, and effective date should be used to read the entries together.

SECTION A - RECORDS AND AUDIT

The insured must keep payroll journals, tax filings, job-duty records, and contract labor records for Retail store - all employees assigned to class code 8017 in CT.

The remuneration entry of \$54,124 is an estimate for rating purposes and may be revised after audit without changing the coverage afforded by the policy.

Separate records are required when an employee performs duties that may fall under more than one classification or more than one covered state.

If adequate records are not available, remuneration may be assigned to the highest rated applicable classification permitted by the rating rules.

SECTION B - STATE AND CLASSIFICATION CONDITIONS

State amendatory endorsements, statutory benefit provisions, and assigned-risk rules apply before any conflicting general condition in this policy packet.

A classification shown on a schedule is not a warranty that all operations at the insured location are limited to that class.

Officer, partner, member, volunteer, leased-worker, and subcontractor treatment is determined by the attached endorsements and the applicable state rules.

Certificates from subcontractors must be available for audit and must identify the period of work, covered operations, and limits carried by the subcontractor.

PREMIUM \$127	FORM WC 00 00 00 C 01 15

BLUE KETTLE FOOD SERVICE, LLC MAY ELECT TO OFFER THESE BENEFITS TO EXEMPT EMPLOYEES, INDEPENDENT CONTRACTORS, OR VOLUNTEERS, PROVIDED SUCH INDIVIDUALS SUSTAIN AN OCCUPATIONAL INJURY WHILE PERFORMING DUTIES DIRECTLY RELATED TO THE SCHEDULED OPERATIONS.

The provision of voluntary benefits is contingent upon the injured individual executing a full release of liability in favor of the named insured and Argent Birch Employers. The injured party must waive any common law rights to pursue civil litigation regarding the workplace incident. If the individual rejects the voluntary benefits and initiates a civil action, the provisions of this endorsement immediately cease to apply to that specific incident.

Remuneration for individuals covered under this voluntary arrangement must be included in the payroll records and assigned to the classification code that most accurately reflects their occupational duties. The manual rates, experience modification factor, and schedule rating adjustments will be applied to this remuneration in the same manner as mandatory payroll.

Argent Birch Employers will administer the voluntary benefits in accordance with the statutory schedules of the state where the injury occurred, as if the injured individual were a mandatory employee. The named insured must promptly notify the carrier of any injury involving a voluntarily covered individual and facilitate the execution of the required release documents.

THE PREMIUM AMOUNTS DISPLAYED ON THE CLASSIFICATION SCHEDULE ARE ESTIMATES BASED ON THE ANTICIPATED PAYROLL FIGURES PROVIDED BY BLUE KETTLE FOOD SERVICE, LLC. THE FINAL PREMIUM CALCULATION REQUIRES A COMPREHENSIVE RETROSPECTIVE REVIEW OF ACTUAL REMUNERATION DISTRIBUTED DURING THE POLICY PERIOD. THIS AUDIT PROCESS ENSURES THAT THE PREMIUM ACCURATELY REFLECTS THE TRUE OCCUPATIONAL EXPOSURE ASSOCIATED WITH THE OPERATIONS IN CONNECTICUT AND MASSACHUSETTS.

The named insured is obligated to maintain meticulous financial records, including payroll ledgers, tax filings, and subcontractor invoices. These records must clearly segregate remuneration by individual employee, state of operation, and classification code. Failure to maintain adequate segregation may result in the entire payroll being assigned to the highest-rated classification code applicable to the employer's operations.

Argent Birch Employers will conduct the premium audit within a reasonable timeframe following the expiration or cancellation of the policy. The audit may be performed through a physical examination of records at the insured's premises, located at 914 Millrace Parkway, Worcester, MA 01608, or via a remote documentation review. The insured must cooperate fully with the designated audit personnel.

If the final audited premium exceeds the estimated premium paid during the policy period, the named insured will be billed for the additional amount. Conversely, if the audited premium is less than the estimated premium, the carrier will issue a refund or apply the credit to subsequent policy periods. The experience modification factor of 1.04 and the schedule rating adjustment of 0% will be applied to the final audited manual premium.

References to classification, remuneration, and rating basis include CT class code 8017 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

When a class code appears on multiple schedules, the state, item identifier, and effective date should be used to read the entries together.

SECTION A - RECORDS AND AUDIT

The insured must keep payroll journals, tax filings, job-duty records, and contract labor records for Retail store - all employees assigned to class code 8017 in CT.

The remuneration entry of \$152,897 is an estimate for rating purposes and may be revised after audit without changing the coverage afforded by the policy.

Separate records are required when an employee performs duties that may fall under more than one classification or more than one covered state.

If adequate records are not available, remuneration may be assigned to the highest rated applicable classification permitted by the rating rules.

SECTION B - STATE AND CLASSIFICATION CONDITIONS

State amendatory endorsements, statutory benefit provisions, and assigned-risk rules apply before any conflicting general condition in this policy packet.

A classification shown on a schedule is not a warranty that all operations at the insured location are limited to that class.

Officer, partner, member, volunteer, leased-worker, and subcontractor treatment is determined by the attached endorsements and the applicable state rules.

Certificates from subcontractors must be available for audit and must identify the period of work, covered operations, and limits carried by the subcontractor.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

When a class code appears on multiple schedules, the state, item identifier, and effective date should be used to read the entries together.

THE ADMINISTRATIVE PARAMETERS OF THIS CONTRACT ARE GOVERNED BY THE DECLARATIONS AND THE CORRESPONDING STATE-SPECIFIC SCHEDULES ATTACHED AT ISSUANCE. THE POLICY PERIOD COMMENCES ON 04/01/2026 AND CONCLUDES ON 04/01/2027, WITH ALL EFFECTIVE DATES BEGINNING AT STANDARD TIME AT THE PRIMARY MAILING ADDRESS OF THE NAMED INSURED.

This document establishes the foundational parameters for workers compensation and employers liability coverage across multiple jurisdictions. Operations are currently scheduled for the states of Connecticut and Massachusetts. The classification schedule assigns estimated remuneration to the states and class codes shown. Final premium may change if payroll records, job duties, or state assignments differ from the estimates used at issuance.

The experience modification factor of 1.04 and the schedule rating adjustment of 0% apply to the policy as a whole unless a state-specific endorsement provides otherwise. These rating elements are applied to the manual premium generated by the audited payroll to determine the final financial obligation of the named insured. Brindle Coast Coverage Group, operating under producer code PX-73916, serves as the designated representative for this transaction.

The employer must maintain detailed ledgers segregating remuneration by state and classification code. Argent Birch Employers retains the authority to examine and audit all financial records, tax documents, and employment contracts associated with Blue Kettle Food Service, LLC during the policy period and within three years following its expiration.

References to classification, remuneration, and rating basis include MA class code 8742 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

When a class code appears on multiple schedules, the state, item identifier, and effective date should be used to read the entries together.

SECTION A - RECORDS AND AUDIT

The insured must keep payroll journals, tax filings, job-duty records, and contract labor records for Outside salespersons assigned to class code 8742 in MA.

The remuneration entry of \$158,051 is an estimate for rating purposes and may be revised after audit without changing the coverage afforded by the policy.

Separate records are required when an employee performs duties that may fall under more than one classification or more than one covered state.

If adequate records are not available, remuneration may be assigned to the highest rated applicable classification permitted by the rating rules.

SECTION B - STATE AND CLASSIFICATION CONDITIONS

State amendatory endorsements, statutory benefit provisions, and assigned-risk rules apply before any conflicting general condition in this policy packet.

A classification shown on a schedule is not a warranty that all operations at the insured location are limited to that class.

Officer, partner, member, volunteer, leased-worker, and subcontractor treatment is determined by the attached endorsements and the applicable state rules.

Certificates from subcontractors must be available for audit and must identify the period of work, covered operations, and limits carried by the subcontractor.

THE PREMIUM AMOUNTS DISPLAYED ON THE CLASSIFICATION SCHEDULE ARE ESTIMATES BASED ON THE ANTICIPATED PAYROLL FIGURES PROVIDED BY BLUE KETTLE FOOD SERVICE, LLC. THE FINAL PREMIUM CALCULATION REQUIRES A COMPREHENSIVE RETROSPECTIVE REVIEW OF ACTUAL REMUNERATION DISTRIBUTED DURING THE POLICY PERIOD. THIS AUDIT PROCESS ENSURES THAT THE PREMIUM ACCURATELY REFLECTS THE TRUE OCCUPATIONAL EXPOSURE ASSOCIATED WITH THE OPERATIONS IN CONNECTICUT AND MASSACHUSETTS.

The named insured is obligated to maintain meticulous financial records, including payroll ledgers, tax filings, and subcontractor invoices. These records must clearly segregate remuneration by individual employee, state of operation, and classification code. Failure to maintain adequate segregation may result in the entire payroll being assigned to the highest-rated classification code applicable to the employer's operations.

Argent Birch Employers will conduct the premium audit within a reasonable timeframe following the expiration or cancellation of the policy. The audit may be performed through a physical examination of records at the insured's premises, located at 914 Millrace Parkway, Worcester, MA 01608, or via a remote documentation review. The insured must cooperate fully with the designated audit personnel.

If the final audited premium exceeds the estimated premium paid during the policy period, the named insured will be billed for the additional amount. Conversely, if the audited premium is less than the estimated premium, the carrier will issue a refund or apply the credit to subsequent policy periods. The experience modification factor of 1.04 and the schedule rating adjustment of 0% will be applied to the final audited manual premium.

Changes to the experience modification factor may occur during the policy period due to revised loss data, changes in ownership, or the combination of affiliated entities. THE EXPERIENCE MODIFICATION FACTOR IS A STATISTICAL ADJUSTMENT CALCULATED BY THE RELEVANT RATING BUREAU, REFLECTING THE HISTORICAL CLAIM FREQUENCY AND SEVERITY OF BLUE KETTLE FOOD SERVICE, LLC COMPARED TO THE INDUSTRY AVERAGE. FOR THE CURRENT POLICY PERIOD, THE CALCULATED EXPERIENCE MODIFICATION FACTOR STANDS AT 1.04.

The experience modification factor and schedule rating entry apply to the policy as a whole unless a state-specific endorsement provides otherwise. This factor is multiplied by the aggregate manual premium generated by the classification codes across all scheduled states. A factor greater than 1.00 indicates a historical loss experience that exceeds the expected average, resulting in an upward adjustment to the premium.

The named insured has the right to review the underlying loss data and payroll figures used in the calculation of the experience modification factor. Any discrepancies or errors in the historical data must be reported to the rating bureau for correction. Argent Birch Employers does not calculate the factor and is bound by the promulgation issued by the authorized rating organization.

Changes to the experience modification factor may occur during the policy period due to revised loss data, changes in ownership, or the combination of affiliated entities. If a revised factor is issued, the carrier will endorse the policy and adjust the estimated premium accordingly. The named insured is responsible for any additional premium resulting from an upward revision of the factor.

EMPLOYERS LIABILITY PROVISIONS ADDRESS THE FINANCIAL CONSEQUENCES OF WORKPLACE INJURIES NOT STRICTLY RESOLVED THROUGH STATUTORY WORKERS COMPENSATION FRAMEWORKS. THIS SECTION APPLIES TO BODILY INJURY BY ACCIDENT OR BODILY INJURY BY DISEASE ARISING OUT OF AND IN THE COURSE OF THE INJURED EMPLOYEE'S EMPLOYMENT BY BLUE KETTLE FOOD SERVICE, LLC. THE INJURY MUST OCCUR DURING THE POLICY PERIOD AND WITHIN THE DESIGNATED COVERAGE TERRITORIES.

The insured entity must immediately forward any demands, notices, summonses, or legal papers received in connection with a claim or suit. Argent Birch Employers will manage the legal response to such actions, utilizing appointed counsel to navigate the complexities of the litigation. The carrier retains the exclusive authority to investigate, negotiate, and settle any claim or suit as deemed appropriate.

Coverage under this section is subject to specific limitations regarding the maximum financial responsibility of the carrier. These limitations apply separately to bodily injury by accident, bodily injury by disease per employee, and an aggregate limit for bodily injury by disease. The application of the experience modification factor does not alter these established limitations.

Exclusions apply to liability assumed under a contract, punitive damages, and injuries sustained by employees employed in violation of the law with the actual knowledge of the named insured. Furthermore, this section does not apply to any obligation imposed by a workers compensation, occupational disease, unemployment compensation, or disability benefits law.

References to classification, remuneration, and rating basis include MA class code 8742 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

When a class code appears on multiple schedules, the state, item identifier, and effective date should be used to read the entries together.

SECTION A - RECORDS AND AUDIT

The insured must keep payroll journals, tax filings, job-duty records, and contract labor records for Outside salespersons assigned to class code 8742 in MA.

The remuneration entry of \$256,691 is an estimate for rating purposes and may be revised after audit without changing the coverage afforded by the policy.

Separate records are required when an employee performs duties that may fall under more than one classification or more than one covered state.

If adequate records are not available, remuneration may be assigned to the highest rated applicable classification permitted by the rating rules.

SECTION B - STATE AND CLASSIFICATION CONDITIONS

State amendatory endorsements, statutory benefit provisions, and assigned-risk rules apply before any conflicting general condition in this policy packet.

A classification shown on a schedule is not a warranty that all operations at the insured location are limited to that class.

Officer, partner, member, volunteer, leased-worker, and subcontractor treatment is determined by the attached endorsements and the applicable state rules.

Certificates from subcontractors must be available for audit and must identify the period of work, covered operations, and limits carried by the subcontractor.

THE EXPERIENCE MODIFICATION FACTOR IS A STATISTICAL ADJUSTMENT CALCULATED BY THE RELEVANT RATING BUREAU, REFLECTING THE HISTORICAL CLAIM FREQUENCY AND SEVERITY OF BLUE KETTLE FOOD SERVICE, LLC COMPARED TO THE INDUSTRY AVERAGE. FOR THE CURRENT POLICY PERIOD, THE CALCULATED EXPERIENCE MODIFICATION FACTOR STANDS AT 1.04.

The experience modification factor and schedule rating entry apply to the policy as a whole unless a state-specific endorsement provides otherwise. The named insured has the right to review the underlying loss data and payroll figures used in the calculation of the experience modification factor. Any discrepancies or errors in the historical data must be reported to the rating bureau for correction. Argent Birch Employers does not calculate the factor and is bound by the promulgation issued by the authorized rating organization.

Changes to the experience modification factor may occur during the policy period due to revised loss data, changes in ownership, or the combination of affiliated entities. If a revised factor is issued, the carrier will endorse the policy and adjust the estimated premium accordingly. The named insured is responsible for any additional premium resulting from an upward revision of the factor.

BRINDLE COAST COVERAGE GROUP, OPERATING UNDER PRODUCER CODE PX-73916, RECEIVES COMPENSATION FOR THE PLACEMENT AND SERVICING OF THIS POLICY. THIS DISCLOSURE OUTLINES THE NATURE OF THE FINANCIAL ARRANGEMENT BETWEEN ARGENT BIRCH EMPLOYERS AND THE DESIGNATED PRODUCER. THE COMPENSATION IS INCORPORATED INTO THE OVERALL PREMIUM STRUCTURE AND DOES NOT REPRESENT AN ADDITIONAL FEE CHARGED DIRECTLY TO THE NAMED INSURED.

The compensation may include base commissions calculated as a percentage of the final audited premium. The commission rate varies depending on the line of business, the state of operation, and the specific contractual agreement between the carrier and the producer. The base commission compensates the producer for activities such as risk assessment, policy negotiation, and ongoing customer service.

In addition to base commissions, Brindle Coast Coverage Group may be eligible for contingent compensation based on the aggregate performance of a portfolio of policies placed with Argent Birch Employers. Contingent compensation is typically tied to metrics such as profitability, retention rates, and premium volume. This variable compensation is not guaranteed and is calculated retrospectively.

Blue Kettle Food Service, LLC may request detailed information regarding the specific compensation associated with policy number YW700400. Requests for detailed compensation disclosures must be submitted in writing to the carrier. Argent Birch Employers is committed to maintaining transparency regarding producer compensation arrangements.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

When a class code appears on multiple schedules, the state, item identifier, and effective date should be used to read the entries together.

Operations are currently scheduled for the states of Connecticut and Massachusetts. The classification schedule assigns estimated remuneration to the states and class codes shown. Final premium may change if payroll records, job duties, or state assignments differ from the estimates used at issuance.

The experience modification factor of 1.04 and the schedule rating adjustment of 0% apply to the policy as a whole unless a state-specific endorsement provides otherwise. These rating elements are applied to the manual premium generated by the audited payroll to determine the final financial obligation of the named insured. Brindle Coast Coverage Group, operating under producer code PX-73916, serves as the designated representative for this transaction.

The employer must maintain detailed ledgers segregating remuneration by state and classification code. Argent Birch Employers retains the authority to examine and audit all financial records, tax documents, and employment contracts associated with Blue Kettle Food Service, LLC during the policy period and within three years following its expiration.

References to classification, remuneration, and rating basis include VT class code 5606 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

When a class code appears on multiple schedules, the state, item identifier, and effective date should be used to read the entries together.
