PREMIUM \$6,536	FORM CG 00 01 09 21

THE PREMIUM FOR THIS COMMERCIAL GENERAL LIABILITY POLICY, POLICY NUMBER GL695378, ISSUED TO JUNIPER LEARNING CENTER, LLC, IS BASED ON INFORMATION PROVIDED AT THE INCEPTION OF THE POLICY PERIOD. THIS INFORMATION INCLUDES CLASSIFICATIONS, EXPOSURES, AND RATES.

We retain the right to conduct an audit of your books and records at any time during the policy period and for up to three years after its expiration. This audit is performed to determine the actual exposures and ensure the correct premium has been charged.

You agree to maintain accurate records of all information necessary for premium calculation, including but not limited to gross sales, payroll, and cost of work, corresponding to the exposure bases listed in the declarations.

If an audit reveals that the actual exposure differs from the estimated exposure, an adjustment to the premium will be made. If the adjusted premium is higher, you will owe us the additional amount. If it is lower, we will return the excess to you.

Failure to cooperate with an audit or to provide the necessary records may result in an estimated final premium calculation based on available information, which may

be higher than the actual exposure.

The audit process is a standard practice in commercial insurance to ensure fairness and accuracy in premium determination for both the insured and the insurer.

References to classification, territory, and exposure basis include class code 18435 at Location 3 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

EXPOSURE Area 457,845	LIMIT Damage to Premises Rented to You: \$100,000
PREMIUM \$17,947	FORM CG 00 01 09 21

THE PREMIUM FOR THIS COMMERCIAL GENERAL LIABILITY POLICY, POLICY NUMBER GL695378, ISSUED TO JUNIPER LEARNING CENTER, LLC, IS BASED ON INFORMATION PROVIDED AT THE INCEPTION OF THE POLICY PERIOD. THIS INFORMATION INCLUDES CLASSIFICATIONS, EXPOSURES, AND RATES.

We retain the right to conduct an audit of your books and records at any time during the policy period and for up to three years after its expiration. This audit is performed to determine the actual exposures and ensure the correct premium has been charged.

You agree to maintain accurate records of all information necessary for premium calculation, including but not limited to gross sales, payroll, and cost of work, corresponding to the exposure bases listed in the declarations.

If an audit reveals that the actual exposure differs from the estimated exposure, an adjustment to the premium will be made. If the adjusted premium is higher, you will owe us the additional amount. If it is lower, we will return the excess to you.

Failure to cooperate with an audit or to provide the necessary records may result in an estimated final premium calculation based on available information, which may

be higher than the actual exposure.

The audit process is a standard practice in commercial insurance to ensure fairness and accuracy in premium determination for both the insured and the insurer.

References to classification, territory, and exposure basis include class code 97047 at Location 5 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

THE PREMIUM FOR THIS COMMERCIAL GENERAL LIABILITY POLICY, POLICY NUMBER GL695378, ISSUED TO JUNIPER LEARNING CENTER, LLC, IS BASED ON INFORMATION PROVIDED AT THE INCEPTION OF THE POLICY PERIOD. THIS INFORMATION INCLUDES CLASSIFICATIONS, EXPOSURES, AND RATES.

We retain the right to conduct an audit of your books and records at any time during the policy period and for up to three years after its expiration. This audit is performed to determine the actual exposures and ensure the correct premium has been charged.

You agree to maintain accurate records of all information necessary for premium calculation, including but not limited to gross sales, payroll, and cost of work, corresponding to the exposure bases listed in the declarations.

If an audit reveals that the actual exposure differs from the estimated exposure, an adjustment to the premium will be made. If the adjusted premium is higher, you will owe us the additional amount. If it is lower, we will return the excess to you.

Failure to cooperate with an audit or to provide the necessary records may result in an estimated final premium calculation based on available information, which may

be higher than the actual exposure.

The audit process is a standard practice in commercial insurance to ensure fairness and accuracy in premium determination for both the insured and the insurer.

"Property damage" means physical injury to tangible property, including all resulting loss of use of that property. It also encompasses the loss of use of tangible property that has not been physically injured.

An "occurrence" is defined as an accident, including continuous or repeated exposure to substantially the same general harmful conditions. This definition is central to determining when coverage applies under this policy.

"Products-completed operations hazard" includes bodily injury and property damage occurring away from premises you own or rent and arising out of your product or work. Your work includes operations that have been completed or abandoned.

"Insured contract" means a contract or agreement pertaining to your business under which you assume the tort liability of another party to pay for bodily injury or property damage to a third person or organization.

"Coverage territory" refers to the United States of America (including its territories and possessions), Puerto Rico, and Canada.

References to classification, territory, and exposure basis include class code 10010 at Location 5 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

PREMIUM \$28,526	FORM CG 20 10 01 24

THE PREMIUM FOR THIS COMMERCIAL GENERAL LIABILITY POLICY, POLICY NUMBER GL695378, ISSUED TO JUNIPER LEARNING CENTER, LLC, IS BASED ON INFORMATION PROVIDED AT THE INCEPTION OF THE POLICY PERIOD. THIS INFORMATION INCLUDES CLASSIFICATIONS, EXPOSURES, AND RATES.

We retain the right to conduct an audit of your books and records at any time during the policy period and for up to three years after its expiration. This audit is performed to determine the actual exposures and ensure the correct premium has been charged.

You agree to maintain accurate records of all information necessary for premium calculation, including but not limited to gross sales, payroll, and cost of work, corresponding to the exposure bases listed in the declarations.

If an audit reveals that the actual exposure differs from the estimated exposure, an adjustment to the premium will be made. If the adjusted premium is higher, you will owe us the additional amount. If it is lower, we will return the excess to you.

Failure to cooperate with an audit or to provide the necessary records may result in an estimated final premium calculation based on available information, which may

be higher than the actual exposure.

The audit process is a standard practice in commercial insurance to ensure fairness and accuracy in premium determination for both the insured and the insurer.

References to classification, territory, and exposure basis include class code 18435 at Location 5 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

We retain the right to conduct an audit of your books and records at any time during the policy period and for up to three years after its expiration. This audit is performed to determine the actual exposures and ensure the correct premium has been charged.

You agree to maintain accurate records of all information necessary for premium calculation, including but not limited to gross sales, payroll, and cost of work, corresponding to the exposure bases listed in the declarations.

If an audit reveals that the actual exposure differs from the estimated exposure, an adjustment to the premium will be made. If the adjusted premium is higher, you will owe us the additional amount. If it is lower, we will return the excess to you.

Failure to cooperate with an audit or to provide the necessary records may result in an estimated final premium calculation based on available information, which may

be higher than the actual exposure.

The audit process is a standard practice in commercial insurance to ensure fairness and accuracy in premium determination for both the insured and the insurer.

References to classification, territory, and exposure basis include class code 97047 at Location 1 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

THIS ENDORSEMENT MODIFIES THE DEFINITION OF "PRODUCTS-COMPLETED OPERATIONS HAZARD" WITHIN THE COMMERCIAL GENERAL LIABILITY COVERAGE FORM, POLICY NUMBER GL695378, ISSUED TO JUNIPER LEARNING CENTER, LLC. The definition of "products-completed operations hazard" is amended to clarify that it includes all bodily injury and property damage occurring away from premises you own or rent and arising out of "your product" or "your work." "Your work" is deemed completed at the earliest of the following times: when all of the work called for in your contract has been completed; when all of the work to be done at a site has been completed if your contract calls for work at more than one site; or when that part of the work has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project. This redefinition is intended to provide greater clarity regarding the commencement of the completed operations phase for coverage purposes. It does not expand or restrict the overall scope of the products-completed operations aggregate limit. The rates applied to the products-completed operations exposure, such as 0.071 or 0.160 as seen in the sample records, are based on this understanding of the	hazard. All other terms, conditions, exclusions, and definitions of the policy remain in full force and effect, except as specifically modified by this endorsement. References to classification, territory, and exposure basis include class code 97047 at Location 5 only when that operation appears in the declarations or rating schedule. ENDORSEMENT GL-EN-025	EFFECTIVE DATE 01/20/2026
MATERIALITY Material	

THIS ENDORSEMENT MODIFIES THE DEFINITION OF "PRODUCTS-COMPLETED OPERATIONS HAZARD" WITHIN THE COMMERCIAL GENERAL LIABILITY COVERAGE FORM, POLICY NUMBER GL695378, ISSUED TO JUNIPER LEARNING CENTER, LLC. The definition of "products-completed operations hazard" is amended to clarify that it includes all bodily injury and property damage occurring away from premises you own or rent and arising out of "your product" or "your work." "Your work" is deemed completed at the earliest of the following times: when all of the work called for in your contract has been completed; when all of the work to be done at a site has been completed if your contract calls for work at more than one site; or when that part of the work has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project. This redefinition is intended to provide greater clarity regarding the commencement of the completed operations phase for coverage purposes. It does not expand or restrict the overall scope of the products-completed operations aggregate limit. The rates applied to the products-completed operations exposure, such as 0.071 or 0.160 as seen in the sample records, are based on this understanding of the	hazard. All other terms, conditions, exclusions, and definitions of the policy remain in full force and effect, except as specifically modified by this endorsement. References to classification, territory, and exposure basis include class code 10010 at Location 1 only when that operation appears in the declarations or rating schedule. Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations. If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date. The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries. Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy. A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

THROUGHOUT THIS POLICY, CERTAIN TERMS CARRY SPECIFIC MEANINGS. "BODILY INJURY" REFERS TO PHYSICAL HARM, ILLNESS, OR DISEASE SUSTAINED BY A PERSON, INCLUDING DEATH RESULTING FROM ANY OF THESE AT ANY TIME.

"Property damage" means physical injury to tangible property, including all resulting loss of use of that property. It also encompasses the loss of use of tangible property that has not been physically injured.

An "occurrence" is defined as an accident, including continuous or repeated exposure to substantially the same general harmful conditions. This definition is central to determining when coverage applies under this policy.

"Products-completed operations hazard" includes bodily injury and property damage occurring away from premises you own or rent and arising out of your product or work. Your work includes operations that have been completed or abandoned.

"Insured contract" means a contract or agreement pertaining to your business under which you assume the tort liability of another party to pay for bodily injury or property damage to a third person or organization.

"Coverage territory" refers to the United States of America (including its territories and possessions), Puerto Rico, and Canada.

References to classification, territory, and exposure basis include class code 16916 at Location 3 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

This policy is issued to Juniper Learning Center, LLC, Policy Number GL695378, and provides the framework for your general liability protection. Please review all sections, including the declarations, schedules, and any attached endorsements, for a complete understanding of your coverage.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.

Final premium may require allocation of sales, payroll, area, contract cost, territory, products-completed operations, and other exposure records.

Any executive officer or director of the named insured is an insured, but only with respect to their duties as an officer or director. Stockholders are also insureds, but only with respect to their liability as stockholders.

Any person or organization acting as your real estate manager is an insured. This applies only with respect to their duties as your real estate manager.

Any person or organization having temporary custody of your property if you die is an insured, but only with respect to liability arising out of the maintenance or use of that property.

Any newly acquired or formed organization, other than a partnership, joint venture, or limited liability company, over which you maintain ownership or majority interest,

will be an insured for up to 90 days or until the end of the policy period, whichever is earlier.

References to classification, territory, and exposure basis include class code 18435 at Location 3 only when that operation appears in the declarations or rating schedule.

Headings are included for ease of reading and do not alter limits, exclusions, additional-insured status, completed-operations treatment, or premium calculations.

If a form schedule and an endorsement detail page address the same operation, the endorsement detail controls from its effective date.

The insured should retain sales records, payroll records, contracts, leases, certificates, and location records used to support the exposure entries.

Coverage summaries on one page do not replace the limits schedule, exposure schedule, forms schedule, or exclusion endorsement attached to the policy.

A certificate, binder note, invoice, or producer correspondence item does not amend an exposure or additional-insured entry unless an endorsement is issued.
