**THIS POLICY PROVIDES WORKERS COMPENSATION AND EMPLOYERS LIABILITY COVERAGE FOR OPERATIONS CONDUCTED IN THE STATES LISTED ON THE DECLARATIONS PAGE, INCLUDING BUT NOT LIMITED TO MASSACHUSETTS AND CONNECTICUT. EACH STATE HAS UNIQUE STATUTORY REQUIREMENTS THAT MAY MODIFY THE STANDARD POLICY PROVISIONS.**

Certain endorsements attached to this policy specifically address the laws and regulations of individual states. These state-specific endorsements take precedence over any conflicting general policy conditions when applied to operations within that particular state.

It is the responsibility of Bayside Food Service, LLC to be aware of and comply with all applicable workers compensation laws in each state where employees perform work. This includes requirements related to coverage, reporting, and workplace safety.

AmGUARD Insurance will administer claims and policy provisions in accordance with the workers compensation statutes of the state where the injury occurred or where the employee is principally employed, as determined by law.

This notice serves as a reminder that the full policy document, including all state-specific endorsements, must be reviewed carefully to understand the complete scope of coverage and any variations due to jurisdictional requirements.

References to classification, remuneration, and rating basis include CT class code 8017 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include MA class code 8742 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

The governing classification for the Named Insured's operations is identified as the classification that best describes the primary business activity. All other classifications are considered subsidiary or incidental to this main operation, unless otherwise specified.

It is the responsibility of Bayside Food Service, LLC to maintain accurate records of employee remuneration and work classifications throughout the policy period. These records will be used during the final audit to determine the actual earned premium.

References to classification, remuneration, and rating basis include NH class code 9015 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

Bayside Food Service, LLC agrees to maintain accurate and complete records of all information necessary for the audit, including payroll records, tax forms, job descriptions, and other relevant financial documents. These records must be made available to our auditors upon request.

The audit may be conducted at the Named Insured's premises or through other mutually agreed-upon methods. We reserve the right to audit records for up to three years following the expiration of this policy, or longer if permitted by state law.

If the audit reveals that the actual earned premium is greater than the estimated premium paid, Bayside Food Service, LLC will be billed for the additional amount. If the actual earned premium is less, we will refund the difference, subject to any minimum premium requirements.

Failure to cooperate with the audit process or to provide the necessary records may result in the application of estimated audit premiums, which could be significantly

higher than the actual earned premium, or other remedies as permitted by law and policy terms.

References to classification, remuneration, and rating basis include CT class code 8017 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

| PREMIUM<br>\$1,212                 | FORM<br>WC 00 03 13 01 15          |

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

The governing classification for the Named Insured's operations is identified as the classification that best describes the primary business activity. All other classifications are considered subsidiary or incidental to this main operation, unless otherwise specified.

It is the responsibility of Bayside Food Service, LLC to maintain accurate records of employee remuneration and work classifications throughout the policy period. These records will be used during the final audit to determine the actual earned premium.

References to classification, remuneration, and rating basis include ME class code 3632 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include NH class code 9015 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

The governing classification for the Named Insured's operations is identified as the classification that best describes the primary business activity. All other classifications are considered subsidiary or incidental to this main operation, unless otherwise specified.

It is the responsibility of Bayside Food Service, LLC to maintain accurate records of employee remuneration and work classifications throughout the policy period. These records will be used during the final audit to determine the actual earned premium.

References to classification, remuneration, and rating basis include NH class code 9015 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include VT class code 5606 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

THE PREMIUM SHOWN ON THE DECLARATIONS PAGE IS AN ESTIMATED PREMIUM. THE FINAL PREMIUM FOR THIS POLICY WILL BE DETERMINED BY AN AUDIT CONDUCTED BY AMGUARD INSURANCE AFTER THE POLICY PERIOD ENDS. THIS AUDIT WILL VERIFY THE ACTUAL REMUNERATION PAID TO EMPLOYEES AND THE CLASSIFICATIONS OF WORK PERFORMED.

Bayside Food Service, LLC agrees to maintain accurate and complete records of all information necessary for the audit, including payroll records, tax forms, job descriptions, and other relevant financial documents. These records must be made available to our auditors upon request.

The audit may be conducted at the Named Insured's premises or through other mutually agreed-upon methods. We reserve the right to audit records for up to three years following the expiration of this policy, or longer if permitted by state law.

If the audit reveals that the actual earned premium is greater than the estimated premium paid, Bayside Food Service, LLC will be billed for the additional amount. If the actual earned premium is less, we will refund the difference, subject to any minimum premium requirements.

Failure to cooperate with the audit process or to provide the necessary records may result in the application of estimated audit premiums, which could be significantly

higher than the actual earned premium, or other remedies as permitted by law and policy terms.

THE PREMIUM SHOWN ON THE DECLARATIONS PAGE IS AN ESTIMATED PREMIUM. THE FINAL PREMIUM FOR THIS POLICY WILL BE DETERMINED BY AN AUDIT CONDUCTED BY AMGUARD INSURANCE AFTER THE POLICY PERIOD ENDS. THIS AUDIT WILL VERIFY THE ACTUAL REMUNERATION PAID TO EMPLOYEES AND THE CLASSIFICATIONS OF WORK PERFORMED.

Bayside Food Service, LLC agrees to maintain accurate and complete records of all information necessary for the audit, including payroll records, tax forms, job descriptions, and other relevant financial documents. These records must be made available to our auditors upon request.

The audit may be conducted at the Named Insured's premises or through other mutually agreed-upon methods. We reserve the right to audit records for up to three years following the expiration of this policy, or longer if permitted by state law.

If the audit reveals that the actual earned premium is greater than the estimated premium paid, Bayside Food Service, LLC will be billed for the additional amount. If the actual earned premium is less, we will refund the difference, subject to any minimum premium requirements.

Failure to cooperate with the audit process or to provide the necessary records may result in the application of estimated audit premiums, which could be significantly

higher than the actual earned premium, or other remedies as permitted by law and policy terms.

References to classification, remuneration, and rating basis include NH class code 9015 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

The governing classification for the Named Insured's operations is identified as the classification that best describes the primary business activity. All other classifications are considered subsidiary or incidental to this main operation, unless otherwise specified.

It is the responsibility of Bayside Food Service, LLC to maintain accurate records of employee remuneration and work classifications throughout the policy period. These records will be used during the final audit to determine the actual earned premium.

References to classification, remuneration, and rating basis include CT class code 8810 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include CT class code 8017 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include NH class code 9015 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include VT class code 5606 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

The governing classification for the Named Insured's operations is identified as the classification that best describes the primary business activity. All other classifications are considered subsidiary or incidental to this main operation, unless otherwise specified.

It is the responsibility of Bayside Food Service, LLC to maintain accurate records of employee remuneration and work classifications throughout the policy period. These records will be used during the final audit to determine the actual earned premium.

References to classification, remuneration, and rating basis include MA class code 5190 only for the state and operation shown in the information page.

The policy's provisions concerning notice of injury, claim filing, and the administration of benefits for employees injured in Connecticut are subject to the Connecticut Workers' Compensation Act, Chapter 568 of the General Statutes.

Any language in the policy regarding subrogation or recovery from third parties is amended to reflect Connecticut's specific rules governing such actions, ensuring compliance with state legal precedents and statutory limitations.

The procedures for policy cancellation, non-renewal, and premium adjustments, including those related to audits, will conform to the regulations and requirements established by the Connecticut Insurance Department and the Workers' Compensation Commission.

This endorsement is an integral part of Policy Number WC700400, effective April 1, 2026, and supersedes any conflicting policy language to the extent necessary to

comply with Connecticut law.

References to classification, remuneration, and rating basis include CT class code 8017 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include NH class code 9015 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include MA class code 8742 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

The governing classification for the Named Insured's operations is identified as the classification that best describes the primary business activity. All other classifications are considered subsidiary or incidental to this main operation, unless otherwise specified.

It is the responsibility of Bayside Food Service, LLC to maintain accurate records of employee remuneration and work classifications throughout the policy period. These records will be used during the final audit to determine the actual earned premium.

References to classification, remuneration, and rating basis include MA class code 5190 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

**THIS ENDORSEMENT MODIFIES THE WORKERS COMPENSATION AND EMPLOYERS LIABILITY POLICY, WC700400, BY WAIVING AMGUARD INSURANCE'S RIGHT TO RECOVER PAYMENTS MADE UNDER THIS POLICY FROM CERTAIN THIRD PARTIES. THIS WAIVER APPLIES ONLY WHEN SPECIFICALLY REQUESTED BY BAYSIDE FOOD SERVICE, LLC AND AGREED UPON BY US.**

The waiver of our right to recover from others, often referred to as a waiver of subrogation, applies to the person or organization named in the schedule of this endorsement. This means we will not seek reimbursement from that party for amounts we pay for injuries to your employees.

This waiver does not apply to any person or organization not specifically named in the endorsement schedule. Furthermore, it does not waive our rights against any party for gross negligence or intentional acts that cause injury to your employees.

The premium for this policy may be adjusted to reflect the additional exposure assumed by AmGUARD Insurance due to this waiver. Any such premium adjustment will be indicated on the declarations page or a separate endorsement.

This endorsement is effective as of April 1, 2026, and remains in effect for the policy period, unless otherwise stated. It is subject to all other terms, conditions,

and exclusions of the policy that are not specifically modified herein.

References to classification, remuneration, and rating basis include VT class code 5606 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

THIS ENDORSEMENT EXTENDS THE COVERAGE OF POLICY NUMBER WC700400 TO PROVIDE VOLUNTARY WORKERS COMPENSATION BENEFITS TO CERTAIN INDIVIDUALS WHO ARE NOT OTHERWISE SUBJECT TO THE COMPULSORY WORKERS COMPENSATION LAWS OF THE STATES LISTED IN THE DECLARATIONS.

Coverage under this endorsement applies to individuals specifically designated by Bayside Food Service, LLC and accepted by AmGUARD Insurance, who would not ordinarily be considered "employees" under statutory workers compensation definitions.

Acceptance of benefits under this endorsement by the injured individual or their dependents constitutes a full release of Bayside Food Service, LLC and AmGUARD Insurance from any other liability for the injury, to the extent permitted by law.

This endorsement is effective for the policy period from April 1, 2026, to April 1, 2027, and is subject to the premium basis and rates specified for such coverage.

**THIS ENDORSEMENT EXTENDS THE COVERAGE OF POLICY NUMBER WC700400 TO PROVIDE VOLUNTARY WORKERS COMPENSATION BENEFITS TO CERTAIN INDIVIDUALS WHO ARE NOT OTHERWISE SUBJECT TO THE COMPULSORY WORKERS COMPENSATION LAWS OF THE STATES LISTED IN THE DECLARATIONS.**

Coverage under this endorsement applies to individuals specifically designated by Bayside Food Service, LLC and accepted by AmGUARD Insurance, who would not ordinarily be considered "employees" under statutory workers compensation definitions.

The benefits provided under this voluntary compensation arrangement will be equivalent to those that would be payable if the individual were a statutory employee under the workers compensation law of the state where the injury occurred or where they are principally employed.

Acceptance of benefits under this endorsement by the injured individual or their dependents constitutes a full release of Bayside Food Service, LLC and AmGUARD Insurance from any other liability for the injury, to the extent permitted by law.

This endorsement is effective for the policy period from April 1, 2026, to April 1, 2027, and is subject to the premium basis and rates specified for such coverage.

All other policy terms and conditions remain unchanged unless specifically altered by this endorsement.

References to classification, remuneration, and rating basis include CT class code 8810 only for the state and operation shown in the information page.

Headings are included for ease of reading and do not alter statutory benefits, employers liability limits, audit rights, or state amendatory provisions.

If a state endorsement and a general condition address the same subject, the state-specific endorsement controls for the affected state.

The insured should retain payroll journals, tax filings, subcontractor certificates, job-duty records, and officer status records used to support the classification entries.

Classification summaries on one page do not replace the information page, payroll schedule, endorsement schedule, or premium audit statement.

A certificate, binder note, invoice, or producer correspondence item does not amend a payroll or class-code entry unless an endorsement is issued.

Final premium may require allocation of remuneration by state, governing class, officer status, overtime treatment, and subcontracted work records.

It is the responsibility of Bayside Food Service, LLC to be aware of and comply with all applicable workers compensation laws in each state where employees perform work. This includes requirements related to coverage, reporting, and workplace safety.

AmGUARD Insurance will administer claims and policy provisions in accordance with the workers compensation statutes of the state where the injury occurred or where the employee is principally employed, as determined by law.

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

The governing classification for the Named Insured's operations is identified as the classification that best describes the primary business activity. All other classifications are considered subsidiary or incidental to this main operation, unless otherwise specified.

THIS POLICY'S PREMIUM IS SUBJECT TO AN EXPERIENCE RATING PLAN, WHICH ADJUSTS THE MANUAL PREMIUM BASED ON THE NAMED INSURED'S PAST WORKERS COMPENSATION LOSS EXPERIENCE. AN EXPERIENCE MODIFICATION FACTOR, SUCH AS 1.04, IS APPLIED TO THE MANUAL PREMIUM TO REFLECT THIS HISTORY.

The experience modification factor is developed by the appropriate rating bureau based on reported payroll and loss data from prior policy periods. This factor is applied to all classifications and states covered by this policy, unless a specific state endorsement dictates otherwise.

A factor greater than 1.00 indicates a loss experience worse than average for the industry, resulting in an increased premium. A factor less than 1.00 indicates a better-than-average loss experience, leading to a reduced premium.

The experience modification factor shown on the declarations page is the most current factor available at the time of policy issuance. Any revisions to this factor during the policy period will result in a recalculation of the estimated premium.

The purpose of the experience rating plan is to provide an incentive for employers to implement effective safety programs and manage workplace hazards, thereby

reducing the frequency and severity of employee injuries.

References to classification, remuneration, and rating basis include MA class code 8742 only for the state and operation shown in the information page.

Failure to cooperate with the audit process or to provide the necessary records may result in the application of estimated audit premiums, which could be significantly

THE ESTIMATED PREMIUM FOR THIS POLICY IS CALCULATED BASED ON CLASSIFICATIONS OF WORK PERFORMED BY EMPLOYEES AND THE ESTIMATED REMUNERATION FOR EACH CLASSIFICATION. EACH CLASSIFICATION CODE, SUCH AS 8810 FOR CLERICAL OFFICE EMPLOYEES OR 8017 FOR RETAIL STORE - ALL EMPLOYEES, REFLECTS A SPECIFIC TYPE OF WORK ACTIVITY.

Remuneration, often referred to as payroll, includes wages, salaries, commissions, bonuses, and other forms of payment for services rendered by employees. The premium basis is typically expressed as a rate applied per \$100 of remuneration for each classification.

The manual rates applied to each classification are determined by state regulatory bodies or rating bureaus and reflect the inherent hazard associated with that particular work. These rates are then adjusted by factors such as the experience modification factor, which reflects the insured's past loss history.

The governing classification for the Named Insured's operations is identified as the classification that best describes the primary business activity. All other classifications are considered subsidiary or incidental to this main operation, unless otherwise specified.

It is the responsibility of Bayside Food Service, LLC to maintain accurate records of employee remuneration and work classifications throughout the policy period. These records will be used during the final audit to determine the actual earned premium.

References to classification, remuneration, and rating basis include MA class code 5190 only for the state and operation shown in the information page.
