BUSINESSOWNERS COVERAGE FORM - BUSINESS PERSONAL PROPERTY

Protection under this section targets business personal property situated within the structure at Location 002, Building 001, or located in the open within 100 feet of the premises. The maximum recovery is restricted to the scheduled limit of \$75,000.

Settlements are subject to a \$5,000 deductible per occurrence. This initial retention is assessed against the total calculated loss before the policy limit is applied, ensuring the insured shares in the initial financial impact of the event.

VALUATION FOR THE PERSONAL PROPERTY IS DETERMINED ON A REPLACEMENT COST BASIS. TO QUALIFY FOR THIS VALUATION, THE AFFECTED ITEMS MUST BE REPAIRED OR REPLACED. IF THE INSURED OPTS NOT TO REPLACE THE ITEMS, THE SETTLEMENT WILL BE CALCULATED USING ACTUAL CASH VALUE.

A coinsurance provision of 90% applies to this specific location. Failure to maintain limits that meet or exceed 90% of the total replacement value of all eligible personal property will result in a proportional reduction of the final settlement.

The classification Contractor - interior finishing under class code 5531 defines the expected nature of the inventory and equipment. Eligible property includes furniture, fixtures, machinery, tools, and stock utilized in the daily operations of the business.

For this classification, stock encompasses raw materials, in-process goods, and finished products awaiting distribution or installation. Packaging materials and supplies used for shipping are also categorized as stock.

Tenant improvements and betterments are treated as business personal property. These are fixtures, alterations, or installations made a part of the building at the expense of Pinecrest Print Cooperative, LLC, which cannot legally be removed upon lease termination.

Leased personal property is incorporated into this section provided the named insured has a contractual obligation to insure it. Such leased items are subject to the same valuation and coinsurance parameters as owned property.

Accounts, bills, currency, food stamps, evidences of debt, money, notes, and securities are explicitly excluded from the definition of business personal property. Separate specialized forms are required to address these financial instruments.

Vehicles or self-propelled machines that are licensed for use on public roads are excluded from this section. However, mobile equipment used exclusively on the described premises may be considered eligible personal property.

Property transferred to a newly acquired premises is protected temporarily for a period not exceeding thirty days. This temporary extension is subject to specific sub-limits detailed in the broader property conditions.

The carrier requires the insured to maintain an accurate, up-to-date inventory of all significant business personal property. In the event of a severe incident, this documentation will be critical in substantiating the magnitude of the loss.

BUSINESS INCOME AND EXTRA EXPENSE

This form addresses the financial disruption resulting from a suspension of operations at Location 001, Building 002. The available protection is capped at \$125,000, which serves as the absolute maximum for the combined loss of income and necessary extra expenses.

The valuation basis is Actual Loss Sustained, meaning Cobalt Pine Indemnity will evaluate the demonstrable net income that would have been earned, plus continuing normal operating expenses, during the period of restoration.

A coinsurance percentage of 80% is indicated for this income protection. The insured must carry a limit that represents at least 80% of the projected net income and operating expenses for the twelve months following the inception date.

A \$10,000 deductible applies to this form, which may be expressed as a waiting period or a flat financial retention depending on the specific event characteristics. This deductible must be absorbed by the insured before income replacement commences.

The business income basis is also Actual Loss Sustained, aligning with the valuation method. The period of restoration begins after the initial waiting period and ends when the property should reasonably be repaired, rebuilt, or replaced with reasonable speed.

Extra expense protection covers necessary expenditures incurred during the period of restoration that would not have been incurred if there had been no underlying incident. These expenses must be aimed at avoiding or minimizing the suspension of business.

Costs to relocate operations to a temporary site, or to equip a temporary location to maintain the functions of the Contractor - interior finishing operations (class code 5531), are eligible under the extra expense provision.

Pinecrest Print Cooperative, LLC must resume all or part of its operations as quickly as possible. Failure to mitigate the disruption by utilizing available resources or temporary facilities will result in a reduction of the calculated income settlement.

Continuing expenses include payroll, rent, utility minimums, and debt service that must be paid despite the cessation of normal business activities. The carrier will only recognize expenses that are strictly necessary to maintain the organizational structure.

The period of restoration does not include any increased time required due to the enforcement of ordinances or laws regulating the construction, use, or repair of the property, nor does it include time required to test for or clean up pollutants.

If the insured does not resume operations, or does not resume operations as quickly as possible, the settlement will be based on the length of time it would have reasonably taken to repair the property and resume operations.

Comprehensive financial records, including profit and loss statements, tax returns, and payroll ledgers, must be provided to substantiate the actual loss sustained. The carrier reserves the right to employ forensic accountants to verify the submitted figures.

EQUIPMENT BREAKDOWN COVERAGE

This endorsement modifies the policy to include mechanical and electrical failure events at Location 002, Building 002. The protection is limited to \$125,000 per breakdown, addressing the specific vulnerabilities of the Property management operations under class code 7391.

The valuation for affected equipment is Replacement Cost, ensuring that damaged machinery can be replaced with modern equivalents without a deduction for depreciation. This is subject to the Agreed Value coinsurance provision, waiving standard coinsurance penalties.

A \$10,000 deductible applies to each breakdown event. This retention is subtracted from the total approved repair or replacement costs before Cobalt Pine Indemnity issues any disbursement.

A breakdown is defined as a sudden and accidental failure of equipment resulting in physical impairment that requires repair or replacement. This includes electrical arcing, mechanical breakdown, and the bursting or rupturing of pressure vessels.

Eligible equipment encompasses boilers, fired or unfired pressure vessels, refrigeration systems, electrical distribution panels, and mechanical pumps used to service the described premises. Routine wear and tear or gradual deterioration are not considered breakdown events.

The business income basis linked to this equipment breakdown is Ordinary Payroll 90 Days. If a breakdown causes a suspension of operations, the income loss calculation will include the continuation of ordinary payroll for a maximum of ninety days.

Diagnostic costs and expediting expenses are included within the scheduled limit. Expediting expenses cover the reasonable extra costs to make temporary repairs and to expedite the permanent repair or replacement of the damaged equipment.

Spoilage of perishable goods resulting directly from the breakdown of refrigeration or cooling equipment is addressed under this form, provided the equipment is located at the scheduled premises and owned by the named insured.

Utility interruption is also incorporated, extending protection to breakdowns of equipment owned by a utility company that supplies electricity, gas, water, or communication services to the described premises, subject to a designated waiting period.

Pinecrest Print Cooperative, LLC must maintain the covered equipment in accordance with manufacturer recommendations. Failure to perform routine maintenance that directly contributes to a breakdown may jeopardize the availability of this protection.

The carrier reserves the right to immediately suspend equipment breakdown protection if any specific piece of machinery is found to be in a dangerous condition. This suspension will be communicated in writing and remains effective until the hazard is corrected.

Software corruption, computer viruses, and cyber-related incidents that cause equipment to malfunction are explicitly excluded from this mechanical breakdown definition.

EMPLOYEE DISHONESTY OPTIONAL COVERAGE

This optional coverage protects against the unlawful taking of money, securities, or other property by employees at Location 001, Building 001. The maximum recovery is set at a Blanket Limit of \$175,000 per occurrence, regardless of the number of employees involved.

A \$2,500 deductible applies to each separate incident of dishonesty. The Agreed Value coinsurance designation indicates that standard property coinsurance penalties do not apply to this specific crime protection.

The business income basis of Ordinary Payroll 90 Days is noted, though employee dishonesty primarily addresses direct asset loss rather than business interruption. The class code 4167 (Restaurant or cafe) reflects the operational exposure to cash handling and inventory theft.

An occurrence is defined as all loss caused by, or involving, one or more employees, whether the result of a single act or a series of acts over a period of time. The limit is not multiplied by the number of fraudulent transactions.

The unlawful acts must be committed with the manifest intent to cause the insured to sustain a loss and to obtain a financial benefit for the employee or a third party. Acts committed out of negligence or poor judgment do not qualify.

Discovery of the loss must occur during the active policy period or within one year following the cancellation or expiration of policy QB814260. Losses discovered outside this window are not eligible for submission.

Protection under this form is immediately cancelled as to any specific employee upon the discovery by the named insured, or any partner or officer, of any dishonest act committed by that employee, whether before or after becoming employed by Pinecrest Print Cooperative, LLC.

Losses whose existence or magnitude can only be proven through an inventory computation or a profit and loss calculation are strictly excluded. The insured must provide independent evidence of the specific theft.

Theft committed by the named insured, partners, or members of the LLC is excluded. This form solely addresses the actions of employees who are compensated directly by the business and subject to its direction and control.

If the insured holds other insurance that addresses employee theft, this form will act as excess protection, applying only after the limits of the primary crime policy have been exhausted.

The carrier requires the insured to cooperate fully in the investigation of the dishonest acts, which may include filing formal police reports and pursuing criminal charges against the offending individuals.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

HIRED AUTO AND NON-OWNED AUTO LIABILITY

This liability extension provides protection for bodily injury or property damage arising out of the use of specific vehicles not owned by Pinecrest Print Cooperative, LLC. The Liability Limit is set at \$275,000 for operations linked to Location 001, Building 001.

A \$10,000 deductible applies to this liability extension. The 80% coinsurance and Actual Loss Sustained basis are administrative placeholders from the property schedule and do not dictate the operation of this liability settlement.

The class code 4167 (Restaurant or cafe) indicates potential exposures such as employees using their personal vehicles for catering deliveries or management renting vehicles for business errands.

Hired auto liability applies to bodily injury or property damage arising out of the maintenance or use of a hired auto by the insured or the insured's employees in the course of business. A hired auto is defined as any auto leased, hired, rented, or borrowed by the named insured.

Non-owned auto liability applies to incidents arising out of the use of any non-owned auto in the named insured's business by any person. A non-owned auto is typically a vehicle owned by an employee or partner used on company time.

This form does not provide physical damage protection for the hired or non-owned vehicles themselves. It strictly addresses the liability

imposed upon the business for damages caused to third parties.

Autos leased, hired, rented, or borrowed from any employee, partner, or member of the LLC are considered non-owned autos rather than hired autos for the purposes of this definition.

Cobalt Pine Indemnity holds the authority and obligation to provide legal counsel for any suit seeking damages eligible under this endorsement. The cost of defense is provided in addition to the \$275,000 liability limit.

This protection acts as excess over any primary auto liability insurance available to the owner of the vehicle. For example, the employee's personal auto policy must respond first to an accident involving their own car.

The carrier will not disburse funds for property damage to property owned by, rented to, or in the care, custody, or control of the named insured or any person operating the hired or non-owned auto.

Incidents arising from the delivery of property are evaluated based on when the property is finally delivered. Once the goods are handed over, the auto liability exposure ceases.

The insured must immediately forward all legal documents related to an auto accident to Trestle Oak Risk Services to ensure prompt assignment of legal representation.

IMPORTANT NOTICE REGARDING DESCRIBED PREMISES

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

ORDINARY PAYROLL LIMITATION

This endorsement restricts the duration of payroll protection within the business income calculation for Location 002, Building 002. The valuation is strictly limited to 90 Days, capping the exposure for the Property management operations (class code 7391).

The \$100,000 limit and \$10,000 deductible apply to the overall business income calculation, while the 90% coinsurance requirement must be met based on the projected income and the limited payroll duration.

Ordinary payroll is defined as the payroll expenses for all employees of Pinecrest Print Cooperative, LLC, excluding officers, executives, department managers, and employees under specific long-term contracts.

Under this limitation, Cobalt Pine Indemnity will only include ordinary payroll as a continuing operating expense for a maximum of ninety consecutive days following the initial suspension of operations.

The ninety-day period begins immediately after the waiting period expires, regardless of whether the period of restoration extends beyond ninety days. Once the ninety days have elapsed, ordinary payroll is removed from the settlement calculation.

The insured may choose to terminate ordinary employees during a prolonged shutdown to mitigate expenses. If ordinary payroll is not

actually paid during the ninety-day window, it will not be included in the Actual Loss Sustained calculation.

Payroll for key personnel, such as the property managers and executive officers, is not subject to this ninety-day limitation. Their compensation is considered a necessary continuing expense for the full duration of the restoration period.

This limitation allows the insured to reduce their overall coinsurance basis, thereby lowering the required business income limit and the associated premium, while still providing a short-term buffer for the general workforce.

If the business resumes partial operations within the ninety-day window, the ordinary payroll calculation will be adjusted to reflect the wages paid for the resumed operations versus the wages paid to idle employees.

The carrier requires detailed payroll records, categorized by employee type, to accurately apply this limitation during a claim evaluation. Misclassification of employees can result in settlement disputes.

This endorsement modifies the Business Income and Extra Expense form and controls over any conflicting definitions of continuing operating expenses found elsewhere in the policy packet.

BUSINESSOWNERS COVERAGE FORM - BUILDING

This section establishes the parameters for the structure identified at Location 001, Building 001. The protection is strictly capped at the scheduled limit of \$60,000 as reflected in the declarations. This limit represents the maximum disbursement available for a single qualifying event affecting this specific structure.

The valuation basis for this building is Replacement Cost. Settlement calculations will not incorporate deductions for physical depreciation, provided Pinecrest Print Cooperative, LLC actually repairs or replaces the damaged structure. If the property is not repaired or replaced, the valuation defaults to actual cash value.

A coinsurance requirement of 80% is enforced for this location. The named insured must maintain a limit equal to or greater than 80% of the total replacement cost of the building at the time of the incident. Falling short of this requirement triggers a proportional penalty that reduces the final settlement.

The \$1,000 deductible is applied to the adjusted loss amount after any coinsurance penalties have been factored in. The deductible is the initial financial responsibility of the insured and is subtracted before Cobalt Pine Indemnity disburses any funds.

Classification code 4167, designated as Restaurant or cafe, dictates the underwriting assumptions for this premises. Any significant alteration in the operations or occupancy type must be promptly communicated to Trestle Oak Risk Services to ensure continuous eligibility.

Eligible structural elements include completed additions, permanently installed fixtures, machinery, and equipment that are integral to the

building's operation. This encompasses HVAC systems, built-in refrigeration units, and permanent lighting fixtures.

Floor coverings, wall treatments, and glass embedded in the exterior envelope of the building are treated as part of the structure rather than personal property. Damage to these specific elements is assessed under the building limit.

Personal property owned by the insured and used exclusively to maintain or service the building is included in this category. Examples include fire extinguishing equipment, outdoor furniture permanently anchored to the grounds, and maintenance appliances.

Additions currently under construction, as well as materials, equipment, supplies, and temporary structures located on or within 100 feet of the described premises, are incorporated into this building designation.

If local ordinances or municipal codes mandate upgraded construction methods or materials during the rebuilding process, this base form does not absorb those increased costs. Separate ordinance or law protection must be scheduled to address such regulatory upgrades.

Structural impairment resulting from an insured peril will be evaluated based on the cost to reconstruct using materials of comparable kind and quality. Upgrades chosen by the insured that exceed the original specifications are not eligible for reimbursement.

The carrier retains the right to inspect the building at Location 001 to verify its condition and adherence to the declared classification. These surveys do not guarantee compliance with safety standards but serve solely to validate the underwriting profile.

BUSINESSOWNERS COVERAGE FORM - BUSINESS PERSONAL PROPERTY

Protection under this section targets business personal property situated within the structure at Location 002, Building 001, or located in the open within 100 feet of the premises. The maximum recovery is restricted to the scheduled limit of \$75,000.

Settlements are subject to a \$5,000 deductible per occurrence. This initial retention is assessed against the total calculated loss before the policy limit is applied, ensuring the insured shares in the initial financial impact of the event.

VALUATION FOR THE PERSONAL PROPERTY IS DETERMINED ON A REPLACEMENT COST BASIS. TO QUALIFY FOR THIS VALUATION, THE AFFECTED ITEMS MUST BE REPAIRED OR REPLACED. IF THE INSURED OPTS NOT TO REPLACE THE ITEMS, THE SETTLEMENT WILL BE CALCULATED USING ACTUAL CASH VALUE.

A coinsurance provision of 90% applies to this specific location. Failure to maintain limits that meet or exceed 90% of the total replacement value of all eligible personal property will result in a proportional reduction of the final settlement.

The classification Contractor - interior finishing under class code 5531 defines the expected nature of the inventory and equipment. Eligible property includes furniture, fixtures, machinery, tools, and stock utilized in the daily operations of the business.

For this classification, stock encompasses raw materials, in-process goods, and finished products awaiting distribution or installation. Packaging materials and supplies used for shipping are also categorized as stock.

Tenant improvements and betterments are treated as business personal property. These are fixtures, alterations, or installations made a part of the building at the expense of Pinecrest Print Cooperative, LLC, which cannot legally be removed upon lease termination.

Leased personal property is incorporated into this section provided the named insured has a contractual obligation to insure it. Such leased items are subject to the same valuation and coinsurance parameters as owned property.

Accounts, bills, currency, food stamps, evidences of debt, money, notes, and securities are explicitly excluded from the definition of business personal property. Separate specialized forms are required to address these financial instruments.

Vehicles or self-propelled machines that are licensed for use on public roads are excluded from this section. However, mobile equipment used exclusively on the described premises may be considered eligible personal property.

Property transferred to a newly acquired premises is protected temporarily for a period not exceeding thirty days. This temporary extension is subject to specific sub-limits detailed in the broader property conditions.

The carrier requires the insured to maintain an accurate, up-to-date inventory of all significant business personal property. In the event of a severe incident, this documentation will be critical in substantiating the magnitude of the loss.

EMPLOYEE DISHONESTY OPTIONAL COVERAGE

This optional coverage protects against the unlawful taking of money, securities, or other property by employees at Location 001, Building 001. The maximum recovery is set at a Blanket Limit of \$175,000 per occurrence, regardless of the number of employees involved.

A \$2,500 deductible applies to each separate incident of dishonesty. The Agreed Value coinsurance designation indicates that standard property coinsurance penalties do not apply to this specific crime protection.

The business income basis of Ordinary Payroll 90 Days is noted, though employee dishonesty primarily addresses direct asset loss rather than business interruption. The class code 4167 (Restaurant or cafe) reflects the operational exposure to cash handling and inventory theft.

An occurrence is defined as all loss caused by, or involving, one or more employees, whether the result of a single act or a series of acts over a period of time. The limit is not multiplied by the number of fraudulent transactions.

The unlawful acts must be committed with the manifest intent to cause the insured to sustain a loss and to obtain a financial benefit for the employee or a third party. Acts committed out of negligence or poor judgment do not qualify.

Discovery of the loss must occur during the active policy period or within one year following the cancellation or expiration of policy QB814260. Losses discovered outside this window are not eligible for submission.

Protection under this form is immediately cancelled as to any specific employee upon the discovery by the named insured, or any partner or officer, of any dishonest act committed by that employee, whether before or after becoming employed by Pinecrest Print Cooperative, LLC.

Losses whose existence or magnitude can only be proven through an inventory computation or a profit and loss calculation are strictly excluded. The insured must provide independent evidence of the specific theft.

Theft committed by the named insured, partners, or members of the LLC is excluded. This form solely addresses the actions of employees who are compensated directly by the business and subject to its direction and control.

If the insured holds other insurance that addresses employee theft, this form will act as excess protection, applying only after the limits of the primary crime policy have been exhausted.

The carrier requires the insured to cooperate fully in the investigation of the dishonest acts, which may include filing formal police reports and pursuing criminal charges against the offending individuals.

ACCOUNTS RECEIVABLE COVERAGE

This form addresses the financial impact of losing critical billing records at Location 002, Building 001. The Scheduled Limit of \$175,000 represents the maximum available for uncollectible sums and associated recovery expenses.

A minimal deductible of \$500 applies to this coverage. The Agreed Value coinsurance provision waives standard property coinsurance penalties, ensuring the full scheduled limit is available for verified accounts receivable losses.

The class code 5531 (Contractor - interior finishing) indicates a business model reliant on invoicing for completed projects. If physical damage to records prevents the collection of outstanding balances, this form provides the necessary financial bridge.

Eligible expenses include all amounts due from customers that the insured is unable to collect, interest charges on loans required to offset the uncollectible amounts, and collection expenses that exceed normal operational costs.

The cost to re-establish the records of accounts receivable is also covered. This includes the labor and materials required to reconstruct duplicate invoices from secondary sources or digital backups.

The underlying cause of the record destruction must be an insured peril. If the records are lost due to a fire, water damage, or theft at the

described premises, the resulting uncollectible balances are eligible for evaluation.

Losses arising from bookkeeping errors, accounting omissions, or simple misplacement of files without an underlying physical damage event are entirely excluded from this protection.

Alteration or falsification of records to conceal the wrongful giving, taking, or withholding of money, securities, or other property is excluded. Such events must be addressed under employee dishonesty provisions.

Pinecrest Print Cooperative, LLC is required to keep accounts receivable records in secure receptacles when the premises are closed. Failure to utilize safes or fire-resistive cabinets as declared during underwriting may jeopardize the settlement.

In the event of a loss, the insured must use all reasonable efforts to reconstruct the records and collect the outstanding balances. Cobalt Pine Indemnity will only disburse funds for amounts that are demonstrably uncollectible despite these efforts.

If funds are eventually collected from customers after a settlement has been issued, the insured must remit those recovered amounts to the carrier, up to the total value of the original disbursement.

NEW HAMPSHIRE CHANGES - CANCELLATION AND NONRENEWAL
THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

=====

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 001 BUILDING: 002 FORM REFERENCE: BPF 04 28

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

WATER BACK-UP AND SUMP OVERFLOW

This endorsement modifies the property exclusions to provide limited protection for water damage at Location 002, Building 002. The Scheduled Limit of \$235,000 is the absolute maximum available for this specific peril.

A \$1,000 deductible applies to each water back-up event. The Agreed Value provision waives coinsurance requirements, simplifying the settlement calculation for this targeted exposure.

The Property management operations (class code 7391) at this location face unique risks from plumbing failures. This form addresses water or waterborne material that backs up through sewers or drains.

Protection also extends to water that overflows or is discharged from a sump, sump pump, or related equipment. This includes mechanical failure of the sump pump or power outages that cause the pump to cease functioning.

The water must originate from within the plumbing system or the sump pit located on the described premises. Damage caused by water main breaks off-premises that flood the property is not considered a back-up event.

This endorsement does not cover damage resulting from surface water, waves, tidal water, or the overflow of any body of water, regardless of

whether it is driven by wind. Such events are classified as flood and require separate specialized insurance.

Water that leaks continuously or repeatedly over a period of fourteen days or more is excluded. The back-up or overflow must be a sudden and accidental event.

The cost to repair or replace the actual sewer pipe, drain, or sump pump that failed is not included in this \$235,000 limit. The protection is strictly for the resulting water damage to the building and personal property.

Business income and extra expense losses resulting from a covered water back-up event are eligible, provided the Ordinary Payroll 90 Days basis is applicable and the underlying property damage is verified.

Pinecrest Print Cooperative, LLC is expected to maintain all sump pumps and drainage systems in good working order. Failure to address known plumbing deficiencies may result in a denial of subsequent back-up claims.

If a back-up event occurs, the insured must take immediate action to extract the standing water and initiate drying procedures to prevent secondary damage, such as mold proliferation.

The carrier will evaluate the cost of professional water extraction and mitigation services as part of the overall settlement, subject to the scheduled limit and deductible.

HIRED AUTO AND NON-OWNED AUTO LIABILITY

This liability extension provides protection for bodily injury or property damage arising out of the use of specific vehicles not owned by Pinecrest Print Cooperative, LLC. The Liability Limit is set at \$275,000 for operations linked to Location 001, Building 001.

A \$10,000 deductible applies to this liability extension. The 80% coinsurance and Actual Loss Sustained basis are administrative placeholders from the property schedule and do not dictate the operation of this liability settlement.

The class code 4167 (Restaurant or cafe) indicates potential exposures such as employees using their personal vehicles for catering deliveries or management renting vehicles for business errands.

Hired auto liability applies to bodily injury or property damage arising out of the maintenance or use of a hired auto by the insured or the insured's employees in the course of business. A hired auto is defined as any auto leased, hired, rented, or borrowed by the named insured.

Non-owned auto liability applies to incidents arising out of the use of any non-owned auto in the named insured's business by any person. A non-owned auto is typically a vehicle owned by an employee or partner used on company time.

This form does not provide physical damage protection for the hired or non-owned vehicles themselves. It strictly addresses the liability

imposed upon the business for damages caused to third parties.

Autos leased, hired, rented, or borrowed from any employee, partner, or member of the LLC are considered non-owned autos rather than hired autos for the purposes of this definition.

Cobalt Pine Indemnity holds the authority and obligation to provide legal counsel for any suit seeking damages eligible under this endorsement. The cost of defense is provided in addition to the \$275,000 liability limit.

This protection acts as excess over any primary auto liability insurance available to the owner of the vehicle. For example, the employee's personal auto policy must respond first to an accident involving their own car.

The carrier will not disburse funds for property damage to property owned by, rented to, or in the care, custody, or control of the named insured or any person operating the hired or non-owned auto.

Incidents arising from the delivery of property are evaluated based on when the property is finally delivered. Once the goods are handed over, the auto liability exposure ceases.

The insured must immediately forward all legal documents related to an auto accident to Trestle Oak Risk Services to ensure prompt assignment of legal representation.

ADDITIONAL INSURED - CONTRACT

This endorsement amends the liability provisions to include specific third parties as additional insureds. The Status Grant is applicable to operations at Location 002, Building 001, subject to a \$300,000 limit and a \$5,000 deductible.

The 80% coinsurance and Ordinary Payroll 90 Days basis are administrative data points carried over from the property schedule and do not affect the application of this liability endorsement.

For the Contractor - interior finishing operations (class code 5531), this form is critical. It automatically grants additional insured status to any person or organization for whom Pinecrest Print Cooperative, LLC is performing operations, provided a written contract requires such status.

The written contract or agreement must be executed prior to the bodily injury or property damage incident. Verbal agreements or contracts signed after an event do not trigger this status grant.

The protection afforded to the additional insured is strictly limited to their vicarious liability arising out of the ongoing operations performed by the named insured. It does not cover the independent negligence of the additional insured.

This endorsement does not extend to completed operations. Once the interior finishing work has been finished and put to its intended use, the additional insured status for that specific project terminates.

Bodily injury or property damage arising out of the rendering of, or the failure to render, any professional architectural, engineering, or surveying services by the additional insured is explicitly excluded.

Cobalt Pine Indemnity will provide legal counsel for the additional insured, provided the allegations in the suit fall within the scope of this endorsement. The defense costs will not reduce the \$300,000 limit.

If the written contract requires this insurance to be primary and non-contributory, the carrier will not seek contribution from any other insurance available to the additional insured for incidents caused by the named insured's operations.

The additional insured must promptly notify the carrier of any incident or suit and must cooperate fully in the investigation and defense. Failure to cooperate may result in the withdrawal of the status grant.

This endorsement does not increase the overall aggregate limits of policy QB814260. All disbursements made on behalf of the additional insured will erode the shared policy aggregates.

IMPORTANT NOTICE REGARDING DESCRIBED PREMISES

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

EQUIPMENT BREAKDOWN COVERAGE

This endorsement modifies the policy to include mechanical and electrical failure events at Location 002, Building 002. The protection is limited to \$125,000 per breakdown, addressing the specific vulnerabilities of the Property management operations under class code 7391.

The valuation for affected equipment is Replacement Cost, ensuring that damaged machinery can be replaced with modern equivalents without a deduction for depreciation. This is subject to the Agreed Value coinsurance provision, waiving standard coinsurance penalties.

A \$10,000 deductible applies to each breakdown event. This retention is subtracted from the total approved repair or replacement costs before Cobalt Pine Indemnity issues any disbursement.

A breakdown is defined as a sudden and accidental failure of equipment resulting in physical impairment that requires repair or replacement. This includes electrical arcing, mechanical breakdown, and the bursting or rupturing of pressure vessels.

Eligible equipment encompasses boilers, fired or unfired pressure vessels, refrigeration systems, electrical distribution panels, and mechanical pumps used to service the described premises. Routine wear and tear or gradual deterioration are not considered breakdown events.

The business income basis linked to this equipment breakdown is Ordinary Payroll 90 Days. If a breakdown causes a suspension of operations, the income loss calculation will include the continuation of ordinary payroll for a maximum of ninety days.

Diagnostic costs and expediting expenses are included within the scheduled limit. Expediting expenses cover the reasonable extra costs to make temporary repairs and to expedite the permanent repair or replacement of the damaged equipment.

Spoilage of perishable goods resulting directly from the breakdown of refrigeration or cooling equipment is addressed under this form, provided the equipment is located at the scheduled premises and owned by the named insured.

Utility interruption is also incorporated, extending protection to breakdowns of equipment owned by a utility company that supplies electricity, gas, water, or communication services to the described premises, subject to a designated waiting period.

Pinecrest Print Cooperative, LLC must maintain the covered equipment in accordance with manufacturer recommendations. Failure to perform routine maintenance that directly contributes to a breakdown may jeopardize the availability of this protection.

The carrier reserves the right to immediately suspend equipment breakdown protection if any specific piece of machinery is found to be in a dangerous condition. This suspension will be communicated in writing and remains effective until the hazard is corrected.

Software corruption, computer viruses, and cyber-related incidents that cause equipment to malfunction are explicitly excluded from this mechanical breakdown definition.

EMPLOYEE DISHONESTY OPTIONAL COVERAGE

This optional coverage protects against the unlawful taking of money, securities, or other property by employees at Location 001, Building 001. The maximum recovery is set at a Blanket Limit of \$175,000 per occurrence, regardless of the number of employees involved.

A \$2,500 deductible applies to each separate incident of dishonesty. The Agreed Value coinsurance designation indicates that standard property coinsurance penalties do not apply to this specific crime protection.

The business income basis of Ordinary Payroll 90 Days is noted, though employee dishonesty primarily addresses direct asset loss rather than business interruption. The class code 4167 (Restaurant or cafe) reflects the operational exposure to cash handling and inventory theft.

An occurrence is defined as all loss caused by, or involving, one or more employees, whether the result of a single act or a series of acts over a period of time. The limit is not multiplied by the number of fraudulent transactions.

The unlawful acts must be committed with the manifest intent to cause the insured to sustain a loss and to obtain a financial benefit for the employee or a third party. Acts committed out of negligence or poor judgment do not qualify.

Discovery of the loss must occur during the active policy period or within one year following the cancellation or expiration of policy QB814260. Losses discovered outside this window are not eligible for submission.

Protection under this form is immediately cancelled as to any specific employee upon the discovery by the named insured, or any partner or officer, of any dishonest act committed by that employee, whether before or after becoming employed by Pinecrest Print Cooperative, LLC.

Losses whose existence or magnitude can only be proven through an inventory computation or a profit and loss calculation are strictly excluded. The insured must provide independent evidence of the specific theft.

Theft committed by the named insured, partners, or members of the LLC is excluded. This form solely addresses the actions of employees who are compensated directly by the business and subject to its direction and control.

If the insured holds other insurance that addresses employee theft, this form will act as excess protection, applying only after the limits of the primary crime policy have been exhausted.

The carrier requires the insured to cooperate fully in the investigation of the dishonest acts, which may include filing formal police reports and pursuing criminal charges against the offending individuals.

COBALT PINE INDEMNITY
PINECREST PRINT COOPERATIVE, LLC

POLICY NUMBER: QB814260
EFF DATE: 04/01/2026 EXP DATE: 04/01/2027

NOTICE OF CLAIM REPORTING PROCEDURES

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

OUTDOOR PROPERTY EXTENSION

This extension broadens the property parameters to include specific exterior assets at Location 001, Building 002. The limit of \$200,000 is dedicated to outdoor property that falls outside the standard building definition.

VALUATION IS BASED ON REPLACEMENT COST, AND AN AGREED VALUE COINSURANCE PROVISION APPLIES. THE \$1,000 DEDUCTIBLE IS SUBTRACTED FROM THE TOTAL LOSS BEFORE THE SCHEDULED LIMIT IS ENFORCED.

The class code 5531 (Contractor - interior finishing) is associated with this premises. Eligible outdoor property includes fences, retaining walls that are not part of the building foundation, and freestanding signs.

Trees, shrubs, and plants are also covered under this extension, provided they are not grown for commercial sale. The protection for landscaping is typically subject to a sub-limit per individual tree or plant, as detailed in the broader property schedule.

Debris removal costs associated with the destruction of outdoor property are incorporated into the \$200,000 limit. This includes the expense of extracting fallen trees or dismantling damaged fencing from the premises.

The outdoor property must be located on the described premises or within 100 feet of the property boundaries to qualify. Items stored at remote job sites or in transit are not addressed by this specific extension.

Damage caused by specific perils, such as fire, lightning, explosion, riot, or aircraft, is eligible. However, damage to outdoor property caused by windstorm, hail, or vehicular impact is often restricted or excluded unless explicitly endorsed.

Antennas, satellite dishes, and their associated masts or towers are considered outdoor property. Structural collapse of these items due to the weight of ice or snow is evaluated under this form.

Pinecrest Print Cooperative, LLC must maintain the outdoor property in a reasonable state of repair. Neglected structures that collapse due to rot or long-term deterioration are not eligible for replacement.

If a freestanding sign is damaged, the carrier will evaluate the cost to repair the specific damaged components rather than replacing the entire sign assembly, provided a partial repair restores its functionality.

This extension does not apply to outdoor property that is already covered under a different section of policy QB814260, preventing duplicate settlements for the same damaged asset.

WATER BACK-UP AND SUMP OVERFLOW

This endorsement modifies the property exclusions to provide limited protection for water damage at Location 002, Building 002. The Scheduled Limit of \$235,000 is the absolute maximum available for this specific peril.

A \$1,000 deductible applies to each water back-up event. The Agreed Value provision waives coinsurance requirements, simplifying the settlement calculation for this targeted exposure.

The Property management operations (class code 7391) at this location face unique risks from plumbing failures. This form addresses water or waterborne material that backs up through sewers or drains.

Protection also extends to water that overflows or is discharged from a sump, sump pump, or related equipment. This includes mechanical failure of the sump pump or power outages that cause the pump to cease functioning.

The water must originate from within the plumbing system or the sump pit located on the described premises. Damage caused by water main breaks off-premises that flood the property is not considered a back-up event.

This endorsement does not cover damage resulting from surface water, waves, tidal water, or the overflow of any body of water, regardless of

whether it is driven by wind. Such events are classified as flood and require separate specialized insurance.

Water that leaks continuously or repeatedly over a period of fourteen days or more is excluded. The back-up or overflow must be a sudden and accidental event.

The cost to repair or replace the actual sewer pipe, drain, or sump pump that failed is not included in this \$235,000 limit. The protection is strictly for the resulting water damage to the building and personal property.

Business income and extra expense losses resulting from a covered water back-up event are eligible, provided the Ordinary Payroll 90 Days basis is applicable and the underlying property damage is verified.

Pinecrest Print Cooperative, LLC is expected to maintain all sump pumps and drainage systems in good working order. Failure to address known plumbing deficiencies may result in a denial of subsequent back-up claims.

If a back-up event occurs, the insured must take immediate action to extract the standing water and initiate drying procedures to prevent secondary damage, such as mold proliferation.

The carrier will evaluate the cost of professional water extraction and mitigation services as part of the overall settlement, subject to the scheduled limit and deductible.

HIRED AUTO AND NON-OWNED AUTO LIABILITY

This liability extension provides protection for bodily injury or property damage arising out of the use of specific vehicles not owned by Pinecrest Print Cooperative, LLC. The Liability Limit is set at \$275,000 for operations linked to Location 001, Building 001.

A \$10,000 deductible applies to this liability extension. The 80% coinsurance and Actual Loss Sustained basis are administrative placeholders from the property schedule and do not dictate the operation of this liability settlement.

The class code 4167 (Restaurant or cafe) indicates potential exposures such as employees using their personal vehicles for catering deliveries or management renting vehicles for business errands.

Hired auto liability applies to bodily injury or property damage arising out of the maintenance or use of a hired auto by the insured or the insured's employees in the course of business. A hired auto is defined as any auto leased, hired, rented, or borrowed by the named insured.

Non-owned auto liability applies to incidents arising out of the use of any non-owned auto in the named insured's business by any person. A non-owned auto is typically a vehicle owned by an employee or partner used on company time.

This form does not provide physical damage protection for the hired or non-owned vehicles themselves. It strictly addresses the liability

imposed upon the business for damages caused to third parties.

Autos leased, hired, rented, or borrowed from any employee, partner, or member of the LLC are considered non-owned autos rather than hired autos for the purposes of this definition.

Cobalt Pine Indemnity holds the authority and obligation to provide legal counsel for any suit seeking damages eligible under this endorsement. The cost of defense is provided in addition to the \$275,000 liability limit.

This protection acts as excess over any primary auto liability insurance available to the owner of the vehicle. For example, the employee's personal auto policy must respond first to an accident involving their own car.

The carrier will not disburse funds for property damage to property owned by, rented to, or in the care, custody, or control of the named insured or any person operating the hired or non-owned auto.

Incidents arising from the delivery of property are evaluated based on when the property is finally delivered. Once the goods are handed over, the auto liability exposure ceases.

The insured must immediately forward all legal documents related to an auto accident to Trestle Oak Risk Services to ensure prompt assignment of legal representation.

ADDITIONAL INSURED - CONTRACT

This endorsement amends the liability provisions to include specific third parties as additional insureds. The Status Grant is applicable to operations at Location 002, Building 001, subject to a \$300,000 limit and a \$5,000 deductible.

The 80% coinsurance and Ordinary Payroll 90 Days basis are administrative data points carried over from the property schedule and do not affect the application of this liability endorsement.

For the Contractor - interior finishing operations (class code 5531), this form is critical. It automatically grants additional insured status to any person or organization for whom Pinecrest Print Cooperative, LLC is performing operations, provided a written contract requires such status.

The written contract or agreement must be executed prior to the bodily injury or property damage incident. Verbal agreements or contracts signed after an event do not trigger this status grant.

The protection afforded to the additional insured is strictly limited to their vicarious liability arising out of the ongoing operations performed by the named insured. It does not cover the independent negligence of the additional insured.

This endorsement does not extend to completed operations. Once the interior finishing work has been finished and put to its intended use, the additional insured status for that specific project terminates.

Bodily injury or property damage arising out of the rendering of, or the failure to render, any professional architectural, engineering, or surveying services by the additional insured is explicitly excluded.

Cobalt Pine Indemnity will provide legal counsel for the additional insured, provided the allegations in the suit fall within the scope of this endorsement. The defense costs will not reduce the \$300,000 limit.

If the written contract requires this insurance to be primary and non-contributory, the carrier will not seek contribution from any other insurance available to the additional insured for incidents caused by the named insured's operations.

The additional insured must promptly notify the carrier of any incident or suit and must cooperate fully in the investigation and defense. Failure to cooperate may result in the withdrawal of the status grant.

This endorsement does not increase the overall aggregate limits of policy QB814260. All disbursements made on behalf of the additional insured will erode the shared policy aggregates.

PREMIUM PAYMENT PLAN

ACCOUNT SUMMARY

POLICY NUMBER: QB814260 BILLING METHOD: DIRECT BILL
NAMED INSURED: Pinecrest Print Cooperative, LLC
SCHEDULED COVERAGE: PFAS Exclusion
LOCATION: 001 BUILDING: 002 SCHEDULED PREMIUM: \$519

PREMIUM CONDITIONS

1. Premium shown in this policy is an estimate unless the declarations or premium schedule states that the premium is fully earned or not auditable.
2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

ORDINARY PAYROLL LIMITATION

This endorsement restricts the duration of payroll protection within the business income calculation for Location 002, Building 002. The valuation is strictly limited to 90 Days, capping the exposure for the Property management operations (class code 7391).

The \$100,000 limit and \$10,000 deductible apply to the overall business income calculation, while the 90% coinsurance requirement must be met based on the projected income and the limited payroll duration.

Ordinary payroll is defined as the payroll expenses for all employees of Pinecrest Print Cooperative, LLC, excluding officers, executives, department managers, and employees under specific long-term contracts.

Under this limitation, Cobalt Pine Indemnity will only include ordinary payroll as a continuing operating expense for a maximum of ninety consecutive days following the initial suspension of operations.

The ninety-day period begins immediately after the waiting period expires, regardless of whether the period of restoration extends beyond ninety days. Once the ninety days have elapsed, ordinary payroll is removed from the settlement calculation.

The insured may choose to terminate ordinary employees during a prolonged shutdown to mitigate expenses. If ordinary payroll is not

actually paid during the ninety-day window, it will not be included in the Actual Loss Sustained calculation.

Payroll for key personnel, such as the property managers and executive officers, is not subject to this ninety-day limitation. Their compensation is considered a necessary continuing expense for the full duration of the restoration period.

This limitation allows the insured to reduce their overall coinsurance basis, thereby lowering the required business income limit and the associated premium, while still providing a short-term buffer for the general workforce.

If the business resumes partial operations within the ninety-day window, the ordinary payroll calculation will be adjusted to reflect the wages paid for the resumed operations versus the wages paid to idle employees.

The carrier requires detailed payroll records, categorized by employee type, to accurately apply this limitation during a claim evaluation. Misclassification of employees can result in settlement disputes.

This endorsement modifies the Business Income and Extra Expense form and controls over any conflicting definitions of continuing operating expenses found elsewhere in the policy packet.

BUSINESSOWNERS COVERAGE FORM - BUILDING

This section establishes the parameters for the structure identified at Location 001, Building 001. The protection is strictly capped at the scheduled limit of \$60,000 as reflected in the declarations. This limit represents the maximum disbursement available for a single qualifying event affecting this specific structure.

The valuation basis for this building is Replacement Cost. Settlement calculations will not incorporate deductions for physical depreciation, provided Pinecrest Print Cooperative, LLC actually repairs or replaces the damaged structure. If the property is not repaired or replaced, the valuation defaults to actual cash value.

A coinsurance requirement of 80% is enforced for this location. The named insured must maintain a limit equal to or greater than 80% of the total replacement cost of the building at the time of the incident. Falling short of this requirement triggers a proportional penalty that reduces the final settlement.

The \$1,000 deductible is applied to the adjusted loss amount after any coinsurance penalties have been factored in. The deductible is the initial financial responsibility of the insured and is subtracted before Cobalt Pine Indemnity disburses any funds.

Classification code 4167, designated as Restaurant or cafe, dictates the underwriting assumptions for this premises. Any significant alteration in the operations or occupancy type must be promptly communicated to Trestle Oak Risk Services to ensure continuous eligibility.

Eligible structural elements include completed additions, permanently installed fixtures, machinery, and equipment that are integral to the

building's operation. This encompasses HVAC systems, built-in refrigeration units, and permanent lighting fixtures.

Floor coverings, wall treatments, and glass embedded in the exterior envelope of the building are treated as part of the structure rather than personal property. Damage to these specific elements is assessed under the building limit.

Personal property owned by the insured and used exclusively to maintain or service the building is included in this category. Examples include fire extinguishing equipment, outdoor furniture permanently anchored to the grounds, and maintenance appliances.

Additions currently under construction, as well as materials, equipment, supplies, and temporary structures located on or within 100 feet of the described premises, are incorporated into this building designation.

If local ordinances or municipal codes mandate upgraded construction methods or materials during the rebuilding process, this base form does not absorb those increased costs. Separate ordinance or law protection must be scheduled to address such regulatory upgrades.

Structural impairment resulting from an insured peril will be evaluated based on the cost to reconstruct using materials of comparable kind and quality. Upgrades chosen by the insured that exceed the original specifications are not eligible for reimbursement.

The carrier retains the right to inspect the building at Location 001 to verify its condition and adherence to the declared classification. These surveys do not guarantee compliance with safety standards but serve solely to validate the underwriting profile.

MAINE CHANGES - APPRAISAL
THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 002 BUILDING: 001 FORM REFERENCE: BPF 00 13

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

BUSINESS INCOME AND EXTRA EXPENSE

This form addresses the financial disruption resulting from a suspension of operations at Location 001, Building 002. The available protection is capped at \$125,000, which serves as the absolute maximum for the combined loss of income and necessary extra expenses.

The valuation basis is Actual Loss Sustained, meaning Cobalt Pine Indemnity will evaluate the demonstrable net income that would have been earned, plus continuing normal operating expenses, during the period of restoration.

A coinsurance percentage of 80% is indicated for this income protection. The insured must carry a limit that represents at least 80% of the projected net income and operating expenses for the twelve months following the inception date.

A \$10,000 deductible applies to this form, which may be expressed as a waiting period or a flat financial retention depending on the specific event characteristics. This deductible must be absorbed by the insured before income replacement commences.

The business income basis is also Actual Loss Sustained, aligning with the valuation method. The period of restoration begins after the initial waiting period and ends when the property should reasonably be repaired, rebuilt, or replaced with reasonable speed.

Extra expense protection covers necessary expenditures incurred during the period of restoration that would not have been incurred if there had been no underlying incident. These expenses must be aimed at avoiding or minimizing the suspension of business.

Costs to relocate operations to a temporary site, or to equip a temporary location to maintain the functions of the Contractor - interior finishing operations (class code 5531), are eligible under the extra expense provision.

Pinecrest Print Cooperative, LLC must resume all or part of its operations as quickly as possible. Failure to mitigate the disruption by utilizing available resources or temporary facilities will result in a reduction of the calculated income settlement.

Continuing expenses include payroll, rent, utility minimums, and debt service that must be paid despite the cessation of normal business activities. The carrier will only recognize expenses that are strictly necessary to maintain the organizational structure.

The period of restoration does not include any increased time required due to the enforcement of ordinances or laws regulating the construction, use, or repair of the property, nor does it include time required to test for or clean up pollutants.

If the insured does not resume operations, or does not resume operations as quickly as possible, the settlement will be based on the length of time it would have reasonably taken to repair the property and resume operations.

Comprehensive financial records, including profit and loss statements, tax returns, and payroll ledgers, must be provided to substantiate the actual loss sustained. The carrier reserves the right to employ forensic accountants to verify the submitted figures.

EQUIPMENT BREAKDOWN COVERAGE

This endorsement modifies the policy to include mechanical and electrical failure events at Location 002, Building 002. The protection is limited to \$125,000 per breakdown, addressing the specific vulnerabilities of the Property management operations under class code 7391.

The valuation for affected equipment is Replacement Cost, ensuring that damaged machinery can be replaced with modern equivalents without a deduction for depreciation. This is subject to the Agreed Value coinsurance provision, waiving standard coinsurance penalties.

A \$10,000 deductible applies to each breakdown event. This retention is subtracted from the total approved repair or replacement costs before Cobalt Pine Indemnity issues any disbursement.

A breakdown is defined as a sudden and accidental failure of equipment resulting in physical impairment that requires repair or replacement. This includes electrical arcing, mechanical breakdown, and the bursting or rupturing of pressure vessels.

Eligible equipment encompasses boilers, fired or unfired pressure vessels, refrigeration systems, electrical distribution panels, and mechanical pumps used to service the described premises. Routine wear and tear or gradual deterioration are not considered breakdown events.

The business income basis linked to this equipment breakdown is Ordinary Payroll 90 Days. If a breakdown causes a suspension of operations, the income loss calculation will include the continuation of ordinary payroll for a maximum of ninety days.

Diagnostic costs and expediting expenses are included within the scheduled limit. Expediting expenses cover the reasonable extra costs to make temporary repairs and to expedite the permanent repair or replacement of the damaged equipment.

Spoilage of perishable goods resulting directly from the breakdown of refrigeration or cooling equipment is addressed under this form, provided the equipment is located at the scheduled premises and owned by the named insured.

Utility interruption is also incorporated, extending protection to breakdowns of equipment owned by a utility company that supplies electricity, gas, water, or communication services to the described premises, subject to a designated waiting period.

Pinecrest Print Cooperative, LLC must maintain the covered equipment in accordance with manufacturer recommendations. Failure to perform routine maintenance that directly contributes to a breakdown may jeopardize the availability of this protection.

The carrier reserves the right to immediately suspend equipment breakdown protection if any specific piece of machinery is found to be in a dangerous condition. This suspension will be communicated in writing and remains effective until the hazard is corrected.

Software corruption, computer viruses, and cyber-related incidents that cause equipment to malfunction are explicitly excluded from this mechanical breakdown definition.

EMPLOYEE DISHONESTY OPTIONAL COVERAGE

This optional coverage protects against the unlawful taking of money, securities, or other property by employees at Location 001, Building 001. The maximum recovery is set at a Blanket Limit of \$175,000 per occurrence, regardless of the number of employees involved.

A \$2,500 deductible applies to each separate incident of dishonesty. The Agreed Value coinsurance designation indicates that standard property coinsurance penalties do not apply to this specific crime protection.

The business income basis of Ordinary Payroll 90 Days is noted, though employee dishonesty primarily addresses direct asset loss rather than business interruption. The class code 4167 (Restaurant or cafe) reflects the operational exposure to cash handling and inventory theft.

An occurrence is defined as all loss caused by, or involving, one or more employees, whether the result of a single act or a series of acts over a period of time. The limit is not multiplied by the number of fraudulent transactions.

The unlawful acts must be committed with the manifest intent to cause the insured to sustain a loss and to obtain a financial benefit for the employee or a third party. Acts committed out of negligence or poor judgment do not qualify.

Discovery of the loss must occur during the active policy period or within one year following the cancellation or expiration of policy QB814260. Losses discovered outside this window are not eligible for submission.

Protection under this form is immediately cancelled as to any specific employee upon the discovery by the named insured, or any partner or officer, of any dishonest act committed by that employee, whether before or after becoming employed by Pinecrest Print Cooperative, LLC.

Losses whose existence or magnitude can only be proven through an inventory computation or a profit and loss calculation are strictly excluded. The insured must provide independent evidence of the specific theft.

Theft committed by the named insured, partners, or members of the LLC is excluded. This form solely addresses the actions of employees who are compensated directly by the business and subject to its direction and control.

If the insured holds other insurance that addresses employee theft, this form will act as excess protection, applying only after the limits of the primary crime policy have been exhausted.

The carrier requires the insured to cooperate fully in the investigation of the dishonest acts, which may include filing formal police reports and pursuing criminal charges against the offending individuals.

WATER BACK-UP AND SUMP OVERFLOW

This endorsement modifies the property exclusions to provide limited protection for water damage at Location 002, Building 002. The Scheduled Limit of \$235,000 is the absolute maximum available for this specific peril.

A \$1,000 deductible applies to each water back-up event. The Agreed Value provision waives coinsurance requirements, simplifying the settlement calculation for this targeted exposure.

The Property management operations (class code 7391) at this location face unique risks from plumbing failures. This form addresses water or waterborne material that backs up through sewers or drains.

Protection also extends to water that overflows or is discharged from a sump, sump pump, or related equipment. This includes mechanical failure of the sump pump or power outages that cause the pump to cease functioning.

The water must originate from within the plumbing system or the sump pit located on the described premises. Damage caused by water main breaks off-premises that flood the property is not considered a back-up event.

This endorsement does not cover damage resulting from surface water, waves, tidal water, or the overflow of any body of water, regardless of

whether it is driven by wind. Such events are classified as flood and require separate specialized insurance.

Water that leaks continuously or repeatedly over a period of fourteen days or more is excluded. The back-up or overflow must be a sudden and accidental event.

The cost to repair or replace the actual sewer pipe, drain, or sump pump that failed is not included in this \$235,000 limit. The protection is strictly for the resulting water damage to the building and personal property.

Business income and extra expense losses resulting from a covered water back-up event are eligible, provided the Ordinary Payroll 90 Days basis is applicable and the underlying property damage is verified.

Pinecrest Print Cooperative, LLC is expected to maintain all sump pumps and drainage systems in good working order. Failure to address known plumbing deficiencies may result in a denial of subsequent back-up claims.

If a back-up event occurs, the insured must take immediate action to extract the standing water and initiate drying procedures to prevent secondary damage, such as mold proliferation.

The carrier will evaluate the cost of professional water extraction and mitigation services as part of the overall settlement, subject to the scheduled limit and deductible.

HIRED AUTO AND NON-OWNED AUTO LIABILITY

This liability extension provides protection for bodily injury or property damage arising out of the use of specific vehicles not owned by Pinecrest Print Cooperative, LLC. The Liability Limit is set at \$275,000 for operations linked to Location 001, Building 001.

A \$10,000 deductible applies to this liability extension. The 80% coinsurance and Actual Loss Sustained basis are administrative placeholders from the property schedule and do not dictate the operation of this liability settlement.

The class code 4167 (Restaurant or cafe) indicates potential exposures such as employees using their personal vehicles for catering deliveries or management renting vehicles for business errands.

Hired auto liability applies to bodily injury or property damage arising out of the maintenance or use of a hired auto by the insured or the insured's employees in the course of business. A hired auto is defined as any auto leased, hired, rented, or borrowed by the named insured.

Non-owned auto liability applies to incidents arising out of the use of any non-owned auto in the named insured's business by any person. A non-owned auto is typically a vehicle owned by an employee or partner used on company time.

This form does not provide physical damage protection for the hired or non-owned vehicles themselves. It strictly addresses the liability

imposed upon the business for damages caused to third parties.

Autos leased, hired, rented, or borrowed from any employee, partner, or member of the LLC are considered non-owned autos rather than hired autos for the purposes of this definition.

Cobalt Pine Indemnity holds the authority and obligation to provide legal counsel for any suit seeking damages eligible under this endorsement. The cost of defense is provided in addition to the \$275,000 liability limit.

This protection acts as excess over any primary auto liability insurance available to the owner of the vehicle. For example, the employee's personal auto policy must respond first to an accident involving their own car.

The carrier will not disburse funds for property damage to property owned by, rented to, or in the care, custody, or control of the named insured or any person operating the hired or non-owned auto.

Incidents arising from the delivery of property are evaluated based on when the property is finally delivered. Once the goods are handed over, the auto liability exposure ceases.

The insured must immediately forward all legal documents related to an auto accident to Trestle Oak Risk Services to ensure prompt assignment of legal representation.

EQUIPMENT BREAKDOWN COVERAGE

This endorsement modifies the policy to include mechanical and electrical failure events at Location 002, Building 002. The protection is limited to \$125,000 per breakdown, addressing the specific vulnerabilities of the Property management operations under class code 7391.

The valuation for affected equipment is Replacement Cost, ensuring that damaged machinery can be replaced with modern equivalents without a deduction for depreciation. This is subject to the Agreed Value coinsurance provision, waiving standard coinsurance penalties.

A \$10,000 deductible applies to each breakdown event. This retention is subtracted from the total approved repair or replacement costs before Cobalt Pine Indemnity issues any disbursement.

A breakdown is defined as a sudden and accidental failure of equipment resulting in physical impairment that requires repair or replacement. This includes electrical arcing, mechanical breakdown, and the bursting or rupturing of pressure vessels.

Eligible equipment encompasses boilers, fired or unfired pressure vessels, refrigeration systems, electrical distribution panels, and mechanical pumps used to service the described premises. Routine wear and tear or gradual deterioration are not considered breakdown events.

The business income basis linked to this equipment breakdown is Ordinary Payroll 90 Days. If a breakdown causes a suspension of operations, the income loss calculation will include the continuation of ordinary payroll for a maximum of ninety days.

Diagnostic costs and expediting expenses are included within the scheduled limit. Expediting expenses cover the reasonable extra costs to make temporary repairs and to expedite the permanent repair or replacement of the damaged equipment.

Spoilage of perishable goods resulting directly from the breakdown of refrigeration or cooling equipment is addressed under this form, provided the equipment is located at the scheduled premises and owned by the named insured.

Utility interruption is also incorporated, extending protection to breakdowns of equipment owned by a utility company that supplies electricity, gas, water, or communication services to the described premises, subject to a designated waiting period.

Pinecrest Print Cooperative, LLC must maintain the covered equipment in accordance with manufacturer recommendations. Failure to perform routine maintenance that directly contributes to a breakdown may jeopardize the availability of this protection.

The carrier reserves the right to immediately suspend equipment breakdown protection if any specific piece of machinery is found to be in a dangerous condition. This suspension will be communicated in writing and remains effective until the hazard is corrected.

Software corruption, computer viruses, and cyber-related incidents that cause equipment to malfunction are explicitly excluded from this mechanical breakdown definition.

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 001 BUILDING: 001 FORM REFERENCE: BPF 15 18

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

AUDIT ACCOUNTING PROCEDURES

ACCOUNT SUMMARY

POLICY NUMBER: QB814260 BILLING METHOD: DIRECT BILL
NAMED INSURED: Pinecrest Print Cooperative, LLC
SCHEDULED COVERAGE: Accounts Receivable
LOCATION: 002 BUILDING: 001 SCHEDULED PREMIUM: \$349

PREMIUM CONDITIONS

1. Premium shown in this policy is an estimate unless the declarations or premium schedule states that the premium is fully earned or not auditable.
2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

OUTDOOR PROPERTY EXTENSION

This extension broadens the property parameters to include specific exterior assets at Location 001, Building 002. The limit of \$200,000 is dedicated to outdoor property that falls outside the standard building definition.

VALUATION IS BASED ON REPLACEMENT COST, AND AN AGREED VALUE COINSURANCE PROVISION APPLIES. THE \$1,000 DEDUCTIBLE IS SUBTRACTED FROM THE TOTAL LOSS BEFORE THE SCHEDULED LIMIT IS ENFORCED.

The class code 5531 (Contractor - interior finishing) is associated with this premises. Eligible outdoor property includes fences, retaining walls that are not part of the building foundation, and freestanding signs.

Trees, shrubs, and plants are also covered under this extension, provided they are not grown for commercial sale. The protection for landscaping is typically subject to a sub-limit per individual tree or plant, as detailed in the broader property schedule.

Debris removal costs associated with the destruction of outdoor property are incorporated into the \$200,000 limit. This includes the expense of extracting fallen trees or dismantling damaged fencing from the premises.

The outdoor property must be located on the described premises or within 100 feet of the property boundaries to qualify. Items stored at remote job sites or in transit are not addressed by this specific extension.

Damage caused by specific perils, such as fire, lightning, explosion, riot, or aircraft, is eligible. However, damage to outdoor property caused by windstorm, hail, or vehicular impact is often restricted or excluded unless explicitly endorsed.

Antennas, satellite dishes, and their associated masts or towers are considered outdoor property. Structural collapse of these items due to the weight of ice or snow is evaluated under this form.

Pinecrest Print Cooperative, LLC must maintain the outdoor property in a reasonable state of repair. Neglected structures that collapse due to rot or long-term deterioration are not eligible for replacement.

If a freestanding sign is damaged, the carrier will evaluate the cost to repair the specific damaged components rather than replacing the entire sign assembly, provided a partial repair restores its functionality.

This extension does not apply to outdoor property that is already covered under a different section of policy QB814260, preventing duplicate settlements for the same damaged asset.

WATER BACK-UP AND SUMP OVERFLOW

This endorsement modifies the property exclusions to provide limited protection for water damage at Location 002, Building 002. The Scheduled Limit of \$235,000 is the absolute maximum available for this specific peril.

A \$1,000 deductible applies to each water back-up event. The Agreed Value provision waives coinsurance requirements, simplifying the settlement calculation for this targeted exposure.

The Property management operations (class code 7391) at this location face unique risks from plumbing failures. This form addresses water or waterborne material that backs up through sewers or drains.

Protection also extends to water that overflows or is discharged from a sump, sump pump, or related equipment. This includes mechanical failure of the sump pump or power outages that cause the pump to cease functioning.

The water must originate from within the plumbing system or the sump pit located on the described premises. Damage caused by water main breaks off-premises that flood the property is not considered a back-up event.

This endorsement does not cover damage resulting from surface water, waves, tidal water, or the overflow of any body of water, regardless of

whether it is driven by wind. Such events are classified as flood and require separate specialized insurance.

Water that leaks continuously or repeatedly over a period of fourteen days or more is excluded. The back-up or overflow must be a sudden and accidental event.

The cost to repair or replace the actual sewer pipe, drain, or sump pump that failed is not included in this \$235,000 limit. The protection is strictly for the resulting water damage to the building and personal property.

Business income and extra expense losses resulting from a covered water back-up event are eligible, provided the Ordinary Payroll 90 Days basis is applicable and the underlying property damage is verified.

Pinecrest Print Cooperative, LLC is expected to maintain all sump pumps and drainage systems in good working order. Failure to address known plumbing deficiencies may result in a denial of subsequent back-up claims.

If a back-up event occurs, the insured must take immediate action to extract the standing water and initiate drying procedures to prevent secondary damage, such as mold proliferation.

The carrier will evaluate the cost of professional water extraction and mitigation services as part of the overall settlement, subject to the scheduled limit and deductible.

IMPORTANT NOTICE REGARDING DESCRIBED PREMISES

THIS NOTICE IS PROVIDED FOR INFORMATIONAL PURPOSES.
IT DOES NOT CHANGE THE COVERAGE PROVIDED BY THIS POLICY.

NOTICE TO POLICYHOLDER

The policy consists of the declarations, coverage forms, schedules, notices, and endorsements issued by the company. Read all pages together before relying on a single schedule or summary.

A certificate of insurance, billing statement, producer correspondence, or claim notice does not change a limit, deductible, location, form, classification, exclusion, premium, or effective date.

If the policyholder requests a change, the change is effective only when the company issues an endorsement or revised declarations page. Retain all later endorsements with the policy packet.

Questions about billing, audit, loss reporting, or policy changes should be directed to the producer or servicing office shown in the declarations.

KEEP THIS NOTICE WITH YOUR POLICY FOR FUTURE REFERENCE.

NEW HAMPSHIRE CHANGES - CANCELLATION AND NONRENEWAL
THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

=====

SCHEDULE

APPLIES IN: NH POLICY FORM: BUSINESSOWNERS COVERAGE FORM
LOCATION: 001 BUILDING: 002 FORM REFERENCE: BPF 14 19

The following provisions amend the policy only to the extent required by law or regulation applicable to the state shown in the schedule.

1. Cancellation, nonrenewal, and conditional renewal notices are provided according to the time period required by applicable law.
2. Any provision conflicting with mandatory state law is amended to conform to that law, but only for the policy or premises subject to that law.
3. Duties after loss, appraisal, legal action, and proof-of-loss provisions apply as amended by this endorsement and the declarations.
4. This endorsement does not change scheduled limits, deductibles, forms, classifications, rating bases, or premiums unless a row in the schedule or another endorsement specifically states the change.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

ORDINARY PAYROLL LIMITATION

This endorsement restricts the duration of payroll protection within the business income calculation for Location 002, Building 002. The valuation is strictly limited to 90 Days, capping the exposure for the Property management operations (class code 7391).

The \$100,000 limit and \$10,000 deductible apply to the overall business income calculation, while the 90% coinsurance requirement must be met based on the projected income and the limited payroll duration.

Ordinary payroll is defined as the payroll expenses for all employees of Pinecrest Print Cooperative, LLC, excluding officers, executives, department managers, and employees under specific long-term contracts.

Under this limitation, Cobalt Pine Indemnity will only include ordinary payroll as a continuing operating expense for a maximum of ninety consecutive days following the initial suspension of operations.

The ninety-day period begins immediately after the waiting period expires, regardless of whether the period of restoration extends beyond ninety days. Once the ninety days have elapsed, ordinary payroll is removed from the settlement calculation.

The insured may choose to terminate ordinary employees during a prolonged shutdown to mitigate expenses. If ordinary payroll is not

actually paid during the ninety-day window, it will not be included in the Actual Loss Sustained calculation.

Payroll for key personnel, such as the property managers and executive officers, is not subject to this ninety-day limitation. Their compensation is considered a necessary continuing expense for the full duration of the restoration period.

This limitation allows the insured to reduce their overall coinsurance basis, thereby lowering the required business income limit and the associated premium, while still providing a short-term buffer for the general workforce.

If the business resumes partial operations within the ninety-day window, the ordinary payroll calculation will be adjusted to reflect the wages paid for the resumed operations versus the wages paid to idle employees.

The carrier requires detailed payroll records, categorized by employee type, to accurately apply this limitation during a claim evaluation. Misclassification of employees can result in settlement disputes.

This endorsement modifies the Business Income and Extra Expense form and controls over any conflicting definitions of continuing operating expenses found elsewhere in the policy packet.

BUSINESSOWNERS COVERAGE FORM - BUILDING

This section establishes the parameters for the structure identified at Location 001, Building 001. The protection is strictly capped at the scheduled limit of \$60,000 as reflected in the declarations. This limit represents the maximum disbursement available for a single qualifying event affecting this specific structure.

The valuation basis for this building is Replacement Cost. Settlement calculations will not incorporate deductions for physical depreciation, provided Pinecrest Print Cooperative, LLC actually repairs or replaces the damaged structure. If the property is not repaired or replaced, the valuation defaults to actual cash value.

A coinsurance requirement of 80% is enforced for this location. The named insured must maintain a limit equal to or greater than 80% of the total replacement cost of the building at the time of the incident. Falling short of this requirement triggers a proportional penalty that reduces the final settlement.

The \$1,000 deductible is applied to the adjusted loss amount after any coinsurance penalties have been factored in. The deductible is the initial financial responsibility of the insured and is subtracted before Cobalt Pine Indemnity disburses any funds.

Classification code 4167, designated as Restaurant or cafe, dictates the underwriting assumptions for this premises. Any significant alteration in the operations or occupancy type must be promptly communicated to Trestle Oak Risk Services to ensure continuous eligibility.

Eligible structural elements include completed additions, permanently installed fixtures, machinery, and equipment that are integral to the

building's operation. This encompasses HVAC systems, built-in refrigeration units, and permanent lighting fixtures.

Floor coverings, wall treatments, and glass embedded in the exterior envelope of the building are treated as part of the structure rather than personal property. Damage to these specific elements is assessed under the building limit.

Personal property owned by the insured and used exclusively to maintain or service the building is included in this category. Examples include fire extinguishing equipment, outdoor furniture permanently anchored to the grounds, and maintenance appliances.

Additions currently under construction, as well as materials, equipment, supplies, and temporary structures located on or within 100 feet of the described premises, are incorporated into this building designation.

If local ordinances or municipal codes mandate upgraded construction methods or materials during the rebuilding process, this base form does not absorb those increased costs. Separate ordinance or law protection must be scheduled to address such regulatory upgrades.

Structural impairment resulting from an insured peril will be evaluated based on the cost to reconstruct using materials of comparable kind and quality. Upgrades chosen by the insured that exceed the original specifications are not eligible for reimbursement.

The carrier retains the right to inspect the building at Location 001 to verify its condition and adherence to the declared classification. These surveys do not guarantee compliance with safety standards but serve solely to validate the underwriting profile.

- F. This endorsement does not change any other scheduled premises unless another schedule expressly states that it applies.

ALL OTHER TERMS AND CONDITIONS OF THIS POLICY REMAIN UNCHANGED.

BUSINESSOWNERS COVERAGE FORM - BUSINESS PERSONAL PROPERTY

Protection under this section targets business personal property situated within the structure at Location 002, Building 001, or located in the open within 100 feet of the premises. The maximum recovery is restricted to the scheduled limit of \$75,000.

Settlements are subject to a \$5,000 deductible per occurrence. This initial retention is assessed against the total calculated loss before the policy limit is applied, ensuring the insured shares in the initial financial impact of the event.

VALUATION FOR THE PERSONAL PROPERTY IS DETERMINED ON A REPLACEMENT COST BASIS. TO QUALIFY FOR THIS VALUATION, THE AFFECTED ITEMS MUST BE REPAIRED OR REPLACED. IF THE INSURED OPTS NOT TO REPLACE THE ITEMS, THE SETTLEMENT WILL BE CALCULATED USING ACTUAL CASH VALUE.

A coinsurance provision of 90% applies to this specific location. Failure to maintain limits that meet or exceed 90% of the total replacement value of all eligible personal property will result in a proportional reduction of the final settlement.

The classification Contractor - interior finishing under class code 5531 defines the expected nature of the inventory and equipment. Eligible property includes furniture, fixtures, machinery, tools, and stock utilized in the daily operations of the business.

For this classification, stock encompasses raw materials, in-process goods, and finished products awaiting distribution or installation. Packaging materials and supplies used for shipping are also categorized as stock.

Tenant improvements and betterments are treated as business personal property. These are fixtures, alterations, or installations made a part of the building at the expense of Pinecrest Print Cooperative, LLC, which cannot legally be removed upon lease termination.

Leased personal property is incorporated into this section provided the named insured has a contractual obligation to insure it. Such leased items are subject to the same valuation and coinsurance parameters as owned property.

Accounts, bills, currency, food stamps, evidences of debt, money, notes, and securities are explicitly excluded from the definition of business personal property. Separate specialized forms are required to address these financial instruments.

Vehicles or self-propelled machines that are licensed for use on public roads are excluded from this section. However, mobile equipment used exclusively on the described premises may be considered eligible personal property.

Property transferred to a newly acquired premises is protected temporarily for a period not exceeding thirty days. This temporary extension is subject to specific sub-limits detailed in the broader property conditions.

The carrier requires the insured to maintain an accurate, up-to-date inventory of all significant business personal property. In the event of a severe incident, this documentation will be critical in substantiating the magnitude of the loss.

BUSINESS INCOME AND EXTRA EXPENSE

This form addresses the financial disruption resulting from a suspension of operations at Location 001, Building 002. The available protection is capped at \$125,000, which serves as the absolute maximum for the combined loss of income and necessary extra expenses.

The valuation basis is Actual Loss Sustained, meaning Cobalt Pine Indemnity will evaluate the demonstrable net income that would have been earned, plus continuing normal operating expenses, during the period of restoration.

A coinsurance percentage of 80% is indicated for this income protection. The insured must carry a limit that represents at least 80% of the projected net income and operating expenses for the twelve months following the inception date.

A \$10,000 deductible applies to this form, which may be expressed as a waiting period or a flat financial retention depending on the specific event characteristics. This deductible must be absorbed by the insured before income replacement commences.

The business income basis is also Actual Loss Sustained, aligning with the valuation method. The period of restoration begins after the initial waiting period and ends when the property should reasonably be repaired, rebuilt, or replaced with reasonable speed.

Extra expense protection covers necessary expenditures incurred during the period of restoration that would not have been incurred if there had been no underlying incident. These expenses must be aimed at avoiding or minimizing the suspension of business.

Costs to relocate operations to a temporary site, or to equip a temporary location to maintain the functions of the Contractor - interior finishing operations (class code 5531), are eligible under the extra expense provision.

Pinecrest Print Cooperative, LLC must resume all or part of its operations as quickly as possible. Failure to mitigate the disruption by utilizing available resources or temporary facilities will result in a reduction of the calculated income settlement.

Continuing expenses include payroll, rent, utility minimums, and debt service that must be paid despite the cessation of normal business activities. The carrier will only recognize expenses that are strictly necessary to maintain the organizational structure.

The period of restoration does not include any increased time required due to the enforcement of ordinances or laws regulating the construction, use, or repair of the property, nor does it include time required to test for or clean up pollutants.

If the insured does not resume operations, or does not resume operations as quickly as possible, the settlement will be based on the length of time it would have reasonably taken to repair the property and resume operations.

Comprehensive financial records, including profit and loss statements, tax returns, and payroll ledgers, must be provided to substantiate the actual loss sustained. The carrier reserves the right to employ forensic accountants to verify the submitted figures.

EQUIPMENT BREAKDOWN COVERAGE

This endorsement modifies the policy to include mechanical and electrical failure events at Location 002, Building 002. The protection is limited to \$125,000 per breakdown, addressing the specific vulnerabilities of the Property management operations under class code 7391.

The valuation for affected equipment is Replacement Cost, ensuring that damaged machinery can be replaced with modern equivalents without a deduction for depreciation. This is subject to the Agreed Value coinsurance provision, waiving standard coinsurance penalties.

A \$10,000 deductible applies to each breakdown event. This retention is subtracted from the total approved repair or replacement costs before Cobalt Pine Indemnity issues any disbursement.

A breakdown is defined as a sudden and accidental failure of equipment resulting in physical impairment that requires repair or replacement. This includes electrical arcing, mechanical breakdown, and the bursting or rupturing of pressure vessels.

Eligible equipment encompasses boilers, fired or unfired pressure vessels, refrigeration systems, electrical distribution panels, and mechanical pumps used to service the described premises. Routine wear and tear or gradual deterioration are not considered breakdown events.

The business income basis linked to this equipment breakdown is Ordinary Payroll 90 Days. If a breakdown causes a suspension of operations, the income loss calculation will include the continuation of ordinary payroll for a maximum of ninety days.

Diagnostic costs and expediting expenses are included within the scheduled limit. Expediting expenses cover the reasonable extra costs to make temporary repairs and to expedite the permanent repair or replacement of the damaged equipment.

Spoilage of perishable goods resulting directly from the breakdown of refrigeration or cooling equipment is addressed under this form, provided the equipment is located at the scheduled premises and owned by the named insured.

Utility interruption is also incorporated, extending protection to breakdowns of equipment owned by a utility company that supplies electricity, gas, water, or communication services to the described premises, subject to a designated waiting period.

Pinecrest Print Cooperative, LLC must maintain the covered equipment in accordance with manufacturer recommendations. Failure to perform routine maintenance that directly contributes to a breakdown may jeopardize the availability of this protection.

The carrier reserves the right to immediately suspend equipment breakdown protection if any specific piece of machinery is found to be in a dangerous condition. This suspension will be communicated in writing and remains effective until the hazard is corrected.

Software corruption, computer viruses, and cyber-related incidents that cause equipment to malfunction are explicitly excluded from this mechanical breakdown definition.

2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

ACCOUNTS RECEIVABLE COVERAGE

This form addresses the financial impact of losing critical billing records at Location 002, Building 001. The Scheduled Limit of \$175,000 represents the maximum available for uncollectible sums and associated recovery expenses.

A minimal deductible of \$500 applies to this coverage. The Agreed Value coinsurance provision waives standard property coinsurance penalties, ensuring the full scheduled limit is available for verified accounts receivable losses.

The class code 5531 (Contractor - interior finishing) indicates a business model reliant on invoicing for completed projects. If physical damage to records prevents the collection of outstanding balances, this form provides the necessary financial bridge.

Eligible expenses include all amounts due from customers that the insured is unable to collect, interest charges on loans required to offset the uncollectible amounts, and collection expenses that exceed normal operational costs.

The cost to re-establish the records of accounts receivable is also covered. This includes the labor and materials required to reconstruct duplicate invoices from secondary sources or digital backups.

The underlying cause of the record destruction must be an insured peril. If the records are lost due to a fire, water damage, or theft at the

described premises, the resulting uncollectible balances are eligible for evaluation.

Losses arising from bookkeeping errors, accounting omissions, or simple misplacement of files without an underlying physical damage event are entirely excluded from this protection.

Alteration or falsification of records to conceal the wrongful giving, taking, or withholding of money, securities, or other property is excluded. Such events must be addressed under employee dishonesty provisions.

Pinecrest Print Cooperative, LLC is required to keep accounts receivable records in secure receptacles when the premises are closed. Failure to utilize safes or fire-resistive cabinets as declared during underwriting may jeopardize the settlement.

In the event of a loss, the insured must use all reasonable efforts to reconstruct the records and collect the outstanding balances. Cobalt Pine Indemnity will only disburse funds for amounts that are demonstrably uncollectible despite these efforts.

If funds are eventually collected from customers after a settlement has been issued, the insured must remit those recovered amounts to the carrier, up to the total value of the original disbursement.

OUTDOOR PROPERTY EXTENSION

This extension broadens the property parameters to include specific exterior assets at Location 001, Building 002. The limit of \$200,000 is dedicated to outdoor property that falls outside the standard building definition.

VALUATION IS BASED ON REPLACEMENT COST, AND AN AGREED VALUE COINSURANCE PROVISION APPLIES. THE \$1,000 DEDUCTIBLE IS SUBTRACTED FROM THE TOTAL LOSS BEFORE THE SCHEDULED LIMIT IS ENFORCED.

The class code 5531 (Contractor - interior finishing) is associated with this premises. Eligible outdoor property includes fences, retaining walls that are not part of the building foundation, and freestanding signs.

Trees, shrubs, and plants are also covered under this extension, provided they are not grown for commercial sale. The protection for landscaping is typically subject to a sub-limit per individual tree or plant, as detailed in the broader property schedule.

Debris removal costs associated with the destruction of outdoor property are incorporated into the \$200,000 limit. This includes the expense of extracting fallen trees or dismantling damaged fencing from the premises.

The outdoor property must be located on the described premises or within 100 feet of the property boundaries to qualify. Items stored at remote job sites or in transit are not addressed by this specific extension.

Damage caused by specific perils, such as fire, lightning, explosion, riot, or aircraft, is eligible. However, damage to outdoor property caused by windstorm, hail, or vehicular impact is often restricted or excluded unless explicitly endorsed.

Antennas, satellite dishes, and their associated masts or towers are considered outdoor property. Structural collapse of these items due to the weight of ice or snow is evaluated under this form.

Pinecrest Print Cooperative, LLC must maintain the outdoor property in a reasonable state of repair. Neglected structures that collapse due to rot or long-term deterioration are not eligible for replacement.

If a freestanding sign is damaged, the carrier will evaluate the cost to repair the specific damaged components rather than replacing the entire sign assembly, provided a partial repair restores its functionality.

This extension does not apply to outdoor property that is already covered under a different section of policy QB814260, preventing duplicate settlements for the same damaged asset.

WATER BACK-UP AND SUMP OVERFLOW

This endorsement modifies the property exclusions to provide limited protection for water damage at Location 002, Building 002. The Scheduled Limit of \$235,000 is the absolute maximum available for this specific peril.

A \$1,000 deductible applies to each water back-up event. The Agreed Value provision waives coinsurance requirements, simplifying the settlement calculation for this targeted exposure.

The Property management operations (class code 7391) at this location face unique risks from plumbing failures. This form addresses water or waterborne material that backs up through sewers or drains.

Protection also extends to water that overflows or is discharged from a sump, sump pump, or related equipment. This includes mechanical failure of the sump pump or power outages that cause the pump to cease functioning.

The water must originate from within the plumbing system or the sump pit located on the described premises. Damage caused by water main breaks off-premises that flood the property is not considered a back-up event.

This endorsement does not cover damage resulting from surface water, waves, tidal water, or the overflow of any body of water, regardless of

whether it is driven by wind. Such events are classified as flood and require separate specialized insurance.

Water that leaks continuously or repeatedly over a period of fourteen days or more is excluded. The back-up or overflow must be a sudden and accidental event.

The cost to repair or replace the actual sewer pipe, drain, or sump pump that failed is not included in this \$235,000 limit. The protection is strictly for the resulting water damage to the building and personal property.

Business income and extra expense losses resulting from a covered water back-up event are eligible, provided the Ordinary Payroll 90 Days basis is applicable and the underlying property damage is verified.

Pinecrest Print Cooperative, LLC is expected to maintain all sump pumps and drainage systems in good working order. Failure to address known plumbing deficiencies may result in a denial of subsequent back-up claims.

If a back-up event occurs, the insured must take immediate action to extract the standing water and initiate drying procedures to prevent secondary damage, such as mold proliferation.

The carrier will evaluate the cost of professional water extraction and mitigation services as part of the overall settlement, subject to the scheduled limit and deductible.

PREMIUM CONDITIONS

1. Premium shown in this policy is an estimate unless the declarations or premium schedule states that the premium is fully earned or not auditable.
2. Final premium may depend on payroll, sales, property values, occupancy, location, classification, endorsements, and other rating information.
3. The insured must keep records needed to verify the premium basis and must make those records available for audit during normal business hours.
4. A payment plan, installment bill, finance agreement, or invoice does not amend coverage and does not replace the declarations or schedules.
5. Return premium, additional premium, fees, and taxes are calculated using the policy terms, rating plan, and applicable law.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

ADDITIONAL INSURED - CONTRACT

This endorsement amends the liability provisions to include specific third parties as additional insureds. The Status Grant is applicable to operations at Location 002, Building 001, subject to a \$300,000 limit and a \$5,000 deductible.

The 80% coinsurance and Ordinary Payroll 90 Days basis are administrative data points carried over from the property schedule and do not affect the application of this liability endorsement.

For the Contractor - interior finishing operations (class code 5531), this form is critical. It automatically grants additional insured status to any person or organization for whom Pinecrest Print Cooperative, LLC is performing operations, provided a written contract requires such status.

The written contract or agreement must be executed prior to the bodily injury or property damage incident. Verbal agreements or contracts signed after an event do not trigger this status grant.

The protection afforded to the additional insured is strictly limited to their vicarious liability arising out of the ongoing operations performed by the named insured. It does not cover the independent negligence of the additional insured.

This endorsement does not extend to completed operations. Once the interior finishing work has been finished and put to its intended use, the additional insured status for that specific project terminates.

Bodily injury or property damage arising out of the rendering of, or the failure to render, any professional architectural, engineering, or surveying services by the additional insured is explicitly excluded.

Cobalt Pine Indemnity will provide legal counsel for the additional insured, provided the allegations in the suit fall within the scope of this endorsement. The defense costs will not reduce the \$300,000 limit.

If the written contract requires this insurance to be primary and non-contributory, the carrier will not seek contribution from any other insurance available to the additional insured for incidents caused by the named insured's operations.

The additional insured must promptly notify the carrier of any incident or suit and must cooperate fully in the investigation and defense. Failure to cooperate may result in the withdrawal of the status grant.

This endorsement does not increase the overall aggregate limits of policy QB814260. All disbursements made on behalf of the additional insured will erode the shared policy aggregates.

THIS PAGE IS PART OF THE POLICY PACKET BUT DOES NOT GRANT COVERAGE.

ORDINARY PAYROLL LIMITATION

This endorsement restricts the duration of payroll protection within the business income calculation for Location 002, Building 002. The valuation is strictly limited to 90 Days, capping the exposure for the Property management operations (class code 7391).

The \$100,000 limit and \$10,000 deductible apply to the overall business income calculation, while the 90% coinsurance requirement must be met based on the projected income and the limited payroll duration.

Ordinary payroll is defined as the payroll expenses for all employees of Pinecrest Print Cooperative, LLC, excluding officers, executives, department managers, and employees under specific long-term contracts.

Under this limitation, Cobalt Pine Indemnity will only include ordinary payroll as a continuing operating expense for a maximum of ninety consecutive days following the initial suspension of operations.

The ninety-day period begins immediately after the waiting period expires, regardless of whether the period of restoration extends beyond ninety days. Once the ninety days have elapsed, ordinary payroll is removed from the settlement calculation.

The insured may choose to terminate ordinary employees during a prolonged shutdown to mitigate expenses. If ordinary payroll is not

actually paid during the ninety-day window, it will not be included in the Actual Loss Sustained calculation.

Payroll for key personnel, such as the property managers and executive officers, is not subject to this ninety-day limitation. Their compensation is considered a necessary continuing expense for the full duration of the restoration period.

This limitation allows the insured to reduce their overall coinsurance basis, thereby lowering the required business income limit and the associated premium, while still providing a short-term buffer for the general workforce.

If the business resumes partial operations within the ninety-day window, the ordinary payroll calculation will be adjusted to reflect the wages paid for the resumed operations versus the wages paid to idle employees.

The carrier requires detailed payroll records, categorized by employee type, to accurately apply this limitation during a claim evaluation. Misclassification of employees can result in settlement disputes.

This endorsement modifies the Business Income and Extra Expense form and controls over any conflicting definitions of continuing operating expenses found elsewhere in the policy packet.

BUSINESSOWNERS COVERAGE FORM - BUILDING

This section establishes the parameters for the structure identified at Location 001, Building 001. The protection is strictly capped at the scheduled limit of \$60,000 as reflected in the declarations. This limit represents the maximum disbursement available for a single qualifying event affecting this specific structure.

The valuation basis for this building is Replacement Cost. Settlement calculations will not incorporate deductions for physical depreciation, provided Pinecrest Print Cooperative, LLC actually repairs or replaces the damaged structure. If the property is not repaired or replaced, the valuation defaults to actual cash value.

A coinsurance requirement of 80% is enforced for this location. The named insured must maintain a limit equal to or greater than 80% of the total replacement cost of the building at the time of the incident. Falling short of this requirement triggers a proportional penalty that reduces the final settlement.

The \$1,000 deductible is applied to the adjusted loss amount after any coinsurance penalties have been factored in. The deductible is the initial financial responsibility of the insured and is subtracted before Cobalt Pine Indemnity disburses any funds.

Classification code 4167, designated as Restaurant or cafe, dictates the underwriting assumptions for this premises. Any significant alteration in the operations or occupancy type must be promptly communicated to Trestle Oak Risk Services to ensure continuous eligibility.

Eligible structural elements include completed additions, permanently installed fixtures, machinery, and equipment that are integral to the

building's operation. This encompasses HVAC systems, built-in refrigeration units, and permanent lighting fixtures.

Floor coverings, wall treatments, and glass embedded in the exterior envelope of the building are treated as part of the structure rather than personal property. Damage to these specific elements is assessed under the building limit.

Personal property owned by the insured and used exclusively to maintain or service the building is included in this category. Examples include fire extinguishing equipment, outdoor furniture permanently anchored to the grounds, and maintenance appliances.

Additions currently under construction, as well as materials, equipment, supplies, and temporary structures located on or within 100 feet of the described premises, are incorporated into this building designation.

If local ordinances or municipal codes mandate upgraded construction methods or materials during the rebuilding process, this base form does not absorb those increased costs. Separate ordinance or law protection must be scheduled to address such regulatory upgrades.

Structural impairment resulting from an insured peril will be evaluated based on the cost to reconstruct using materials of comparable kind and quality. Upgrades chosen by the insured that exceed the original specifications are not eligible for reimbursement.

The carrier retains the right to inspect the building at Location 001 to verify its condition and adherence to the declared classification. These surveys do not guarantee compliance with safety standards but serve solely to validate the underwriting profile.

BUSINESSOWNERS COVERAGE FORM - BUSINESS PERSONAL PROPERTY

Protection under this section targets business personal property situated within the structure at Location 002, Building 001, or located in the open within 100 feet of the premises. The maximum recovery is restricted to the scheduled limit of \$75,000.

Settlements are subject to a \$5,000 deductible per occurrence. This initial retention is assessed against the total calculated loss before the policy limit is applied, ensuring the insured shares in the initial financial impact of the event.

VALUATION FOR THE PERSONAL PROPERTY IS DETERMINED ON A REPLACEMENT COST BASIS. TO QUALIFY FOR THIS VALUATION, THE AFFECTED ITEMS MUST BE REPAIRED OR REPLACED. IF THE INSURED OPTS NOT TO REPLACE THE ITEMS, THE SETTLEMENT WILL BE CALCULATED USING ACTUAL CASH VALUE.

A coinsurance provision of 90% applies to this specific location. Failure to maintain limits that meet or exceed 90% of the total replacement value of all eligible personal property will result in a proportional reduction of the final settlement.

The classification Contractor - interior finishing under class code 5531 defines the expected nature of the inventory and equipment. Eligible property includes furniture, fixtures, machinery, tools, and stock utilized in the daily operations of the business.

For this classification, stock encompasses raw materials, in-process goods, and finished products awaiting distribution or installation. Packaging materials and supplies used for shipping are also categorized as stock.

Tenant improvements and betterments are treated as business personal property. These are fixtures, alterations, or installations made a part of the building at the expense of Pinecrest Print Cooperative, LLC, which cannot legally be removed upon lease termination.

Leased personal property is incorporated into this section provided the named insured has a contractual obligation to insure it. Such leased items are subject to the same valuation and coinsurance parameters as owned property.

Accounts, bills, currency, food stamps, evidences of debt, money, notes, and securities are explicitly excluded from the definition of business personal property. Separate specialized forms are required to address these financial instruments.

Vehicles or self-propelled machines that are licensed for use on public roads are excluded from this section. However, mobile equipment used exclusively on the described premises may be considered eligible personal property.

Property transferred to a newly acquired premises is protected temporarily for a period not exceeding thirty days. This temporary extension is subject to specific sub-limits detailed in the broader property conditions.

The carrier requires the insured to maintain an accurate, up-to-date inventory of all significant business personal property. In the event of a severe incident, this documentation will be critical in substantiating the magnitude of the loss.
